

The process involves utilizing high-pressure water pumps driven by gasoline-powered motors, which create suction in a flexible intake pipe. A mixture of streambed sediment and water is vacuumed into the intake pipe and passed over a sluice box mounted on a floating barge. Dense particles (including gold) are trapped in the sluice box. The remainder of the entrained material is discharged into the stream as tailings or spoils. A hole is created in the gravel so bedrock is exposed. Cracks in the bedrock are then cleared with the suction. Cable attached to a winch move large boulders or rootwads.

The Forest Service will consider a range of alternatives to the proposed action. One of these will be the "no action" alternative, in which the Plan of Operations would not be approved. Additional alternatives will examine varying intensity and duration of the proposed activities, including restrictions on the size of equipment and length of seasonal operation, as well as respond to the issues and other resource values.

Public participation is an important part of the project, commencing with the initial scoping process (40 CFR 1501.7), which starts with publication of this notice and continues for the next 30 days. In addition, the public is encouraged to visit with Forest Service officials at any time during the analysis and prior to the decision. The Forest Service will be seeking information, comments, and assistance from Federal, State, and local agencies, the Nez Perce Tribe, and other individuals or organizations that may be interested in or affected by the proposed action.

Comments from the public and other agencies will be used in preparation of the draft EIS. The scoping process will be used to:

1. Identify potential issues;
2. Identify major issues to be analyzed in depth;
3. Eliminate minor issues or those that have been covered by a relevant previous environmental analysis, such as the Nez Perce National Forest Plan EIS;
4. Identify alternatives to the proposed action;
5. Identify potential environmental effects of the proposed action and alternatives (i.e., direct, indirect, and cumulative effects).

While public participation in this analysis is welcome at any time, comments received within 30 days of the publication of this notice will be especially useful in the preparation of the draft EIS, which is expected to be

filed with the Environmental Protection Agency and available for public review in July 2000. A 45-day comment period will follow publication of a Notice of Availability of the draft EIS in the **Federal Register**. The comments received will be analyzed and considered in preparation of a final EIS, which is expected to be filed in October 2000. A Record of Decision will be issued not less than 30 days after publication of a Notice of Availability of the final EIS in the **Federal Register**.

The Forest Service believes it is important at this early stage to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft EISs must structure their participation in the environmental review of the proposal in such a way that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 513 (1978). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir, 1986), and *Wisconsin Heritages Inc. v. Harris*, 490 F.Supp. 1334, 1338 (E.D. Wis., 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period in order that substantive comments and objections are available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments should be as specific as possible. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Kevin Martin is the responsible official for this environmental impact statement.

Dated: May 5, 2000.

Kevin Martin,

District Ranger, Red River Ranger District, Nez Perce National Forest.

BILLING CODE 3410-11-M

COMMISSION ON CIVIL RIGHTS

Agenda and Notice of Public Meeting of the Illinois Advisory Committee

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Illinois Advisory Committee to the Commission will convene at 10:00 a.m. and adjourn at 4:00 p.m. on Tuesday, June 13, 2000, at the 55 West Monroe Street, Suite 525, Chicago, Illinois 60603. The purpose of the meeting is to discuss civil rights issues of interest and plan future activities.

Persons desiring additional information, or planning a presentation to the Committee, should contact Committee Chairperson James E. Scales, 618-453-1045, or Constance M. Davis, Director of the Midwestern Regional Office, 312-353-8311 (TDD 312-353-8362). Hearing-impaired persons who will attend the meeting and require the services of a sign language interpreter should contact the Regional Office at least ten (10) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, May 12, 2000.

Lisa M. Kelly,

Special Assistant to the Staff Director, Regional Programs Coordination Unit.
