Application to Employ Homeworkers, (WH-46), Piece Rate Measurements, and Homeworker Handbook (WH-75)

I. Background

Section 11(d) of the Fair Labor Standards Act (FLSA) authorizes the Secretary of Labor to regulate, restrict, or prohibit industrial homework as necessary to prevent evasion of the minimum requirements of the Act. Restrictions exist on seven homework industries, (knitted outerwear, women's apparel, jewelry manufacturing, gloves and mittens, button and buckle manufacturing, handkerchief manufacturing, and embroideries). Homework in these industries is permitted only in certain hardship cases. Homework is permitted under the FLSA in all other industries, provided the employer maintains homeworker handbooks for such employees which record hours of work and certain other required payroll information. Further, employers of homeworkers in certain restricted industries must first obtain a

certification from the Department of Labor authorizing the employment of such workers. Employers in the restricted industries under the certification program who pay workers based on piece rates must maintain documentation of the work measurements used to establish such piece rates and the circumstances under which measurements were conducted.
