Alternatively, comments may be transmitted via facsimile to (202) 493-6265 or (202) 493-6170, or E-mail to Mr. Brogan at robert.brogan@fra.dot.gov, or to Ms. Deal at dian.deal@fra.dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont Ave., NW, Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Dian Deal, Office of Information Technology and Productivity Improvement, RAD-20, Federal Railroad Administration, 1120 Vermont Ave., NW, Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6133). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Pub. L. 104-13, § 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR Part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding: (i) Whether the information collection activities are necessary for FRA to properly execute

its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)-(iv); 5 CFR 1320.8(d)(1)(i)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce the

information requested. See 44 U.S.C. 3501.

Below is a brief summary of currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

BILLING CODE 4910-06-P

**DEPARTMENT OF TRANSPORTATION
 Federal Railroad Administration
 Petition for Waiver of Compliance**

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Alaska Railroad Corporation

[Docket Number FRA-2000-7350]

The Alaska Railroad Corporation (ARR) seeks a temporary waiver of compliance with a provision of the Passenger Equipment Safety Standards

(49 CFR part 238). ARR has been transporting full-length dome cars owned by Westours Motorcoaches, Inc. since 1987. ARR states that the cars currently have two emergency exits on each side of the car located in the staggered hallways (a total of four emergency exits per car located midway between the upper main level and a small lower level). Westours Motorcoaches, Inc. determined that the placement of the current emergency exits did not comply with 49 CFR 238.113(a) which addresses the number and location of emergency exits. Accordingly, Westours contracted for retrofit of existing dome cars to comply with section 238.1139(a). Although delivery of compliant emergency windows was originally scheduled for April 1, 2000, due to technical problems, delivery may not be accomplished until as late as August 1, 2000.
