Scoping Meeting Procedures

The meetings will be conducted according to the procedures used at Commission scoping meetings in that the meetings will be recorded. Because these will be NEPA scoping meetings under the ALP, the Commission does not intend to conduct further NEPA scoping meetings after the applications and EA are filed with the Commission. Instead, Commission staff will participate in the meetings on June 21, 2000.

Both scoping meetings will be recorded, and the transcripts will become part of the formal record for this project. Those who choose not to speak during the scoping meetings may instead submit written comments on the project. Written comments should be mailed or e-mailed to:

Frank Shrier, PacifiCorp, 825 NE Multnomah, Suite 1500, Portland, OR 97232; frank.shrier@pacificorp.com
Diana MacDonald, Cowlitz County PUD, Box No. 3007, 961 12th Avenue, Longview, WA 98632; dmacdonald@cowlitzpud.org

ICR Numbers: EPA ICR No. 0574.11; OMB Control No. 2070-00012.

Title: Pre-Manufacture Review Reporting and Exemption Requirements for New Chemical Substances and Significant New Use Reporting Requirements for New Chemical Substances.

Abstract: Section 5 of the Toxic Substances Control Act (TSCA) requires manufacturers and importers of new chemical substances to submit to EPA notice of intent to manufacture or import a new chemical substance 90 days before manufacture or import begins. EPA reviews the information contained in the notice to evaluate the health and environmental effects of the new chemical substance. On the basis of the review, EPA may take further regulatory action under TSCA, if warranted. If EPA takes no action within 90 days, the submitter is free to manufacture or import the new chemical substance without restriction.

TSCA section 5 also authorizes EPA to issue Significant New Use Rules (SNURs). EPA uses this authority to take follow-up action on new or existing chemicals that may present an unreasonable risk to human health or the environment if used in a manner that may result in different and/or higher exposures of a chemical to humans or the environment. Once a use is determined to be a significant new use, persons must submit a notice to EPA 90 days before beginning manufacture, processing or importation of a chemical substance for that use. Such a notice allows EPA to receive and review information on such a use and, if necessary, regulate the use before it occurs.

Finally, TSCA section 5 also permits applications for exemption from section 5 review under certain circumstances. An applicant must provide information sufficient for EPA to make a determination that the circumstances in question qualify for an exemption. In granting an exemption, EPA may impose appropriate restrictions.

Responses to the collection of information are mandatory (see 40 CFR parts 700, 720, 721, 723 and 725). Respondents may claim all or part of a document confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden Statement: The annual public reporting burden for this collection of information is estimated to average 105.5 hours per response for an estimated 443 respondents making one or more submissions of information annually. These estimates include the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the

existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for these regulations are displayed in 40 CFR part 9.

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture or import new chemical substances, as defined by TSCA, or manufacture, process or import a chemical substance for a use that has been determined to be a significant new use, as defined by TSCA.

Estimated Number of Respondents: 443.

Estimated Total Annual Burden on Respondents: 184,608 hours.

Frequency of Collection: On occasion.

Dated: May 16, 2000.

Oscar Morales,

Director, Collection Strategies Division.
