Regulatory Enforcement Fairness Act.

This rule:

a. Does not have an annual effect on the economy of $100 million.

b. Will not cause a major increase in costs or prices for consumers, individual industries, federal, state, or local government agencies, or geographic regions.

c. Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S. based enterprises to compete with foreign-based enterprises.

This determination is based upon the fact that the State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an analysis was prepared and a determination made that the Federal regulation was not considered a major rule.

Unfunded Mandates

This rule will not impose a cost of $100 million or more in any given year on any governmental entity or the private sector.

Mines to file with the Oklahoma Governor’s Office, Director of Appointments all statements and supplements received according to 45 O.S. Supp. 1980, Section 765 from members of advisory boards and the Oklahoma Mining Commission. We are approving this addition because the federal regulations at 30 CFR 705.3(b) allow the state regulatory authority to expand the provisions of 30 CFR Part 705—Restrictions on Financial Interests of State Employees, in order to meet the particular needs within the State and because the addition is not inconsistent with the federal regulations. However, in a letter dated March 29, 2000 (Administrative Record No. OK–985.05), we notified Oklahoma that the reference to Section 765 should be Section 767. We advised the state to make this reference correction in a future rulemaking.

B. OAC 460:20–5–9. Where To File

Previously, the Director of the Oklahoma Department of Mines was to file his or her statement with the Director of OSM. Also, all other employees and members of advisory boards and commissions representing multiple interests, as provided in Section 460:20–5–7, were to file their statements with the Director of the Oklahoma Department of Mines or such other official as may be designated by state law or regulation. The Director of the Oklahoma Department of Mines will continue to file his or her statement with the Director of OSM. Oklahoma proposed to have members of advisory boards and commissions representing multiple interests, as provided in Section 460:20–5–7, file their statements with the Governor’s Office, Director of Appointments, or such other official as may be designated by state law or regulation. The state also proposed to have all other employees file their statement with the Director of the Oklahoma Department of Mines according to the requirements of 45 O.S. Supp. 786 and 460:20–5. We are approving these changes because they meet the requirements of 30 CFR 705.15 which states that all employees (except the head of the state regulatory authority) and members of advisory boards and commissions representing multiple interests must file their statements with the head of the state regulatory authority or such other official as may be designated by state law or regulation. However, in a letter dated March 29, 2000 (Administrative Record No. OK–985.05), we notified Oklahoma that the reference to Section 786 should be Section 767. We advised the state to make this reference correction in a future rulemaking.

C. OAC 460:20–5–10. What To Report

Oklahoma proposed to revise paragraph (c)(3) to read as follows:

(3) The exceptions shown in the employee certification of the form must provide enough information for the Director of the Department or the Governor’s Office, Director of Appointments, for Commission members, to determine the existence of a direct or indirect financial interest. Accordingly, the exceptions should:

Oklahoma proposed to clarify that the Director of the Oklahoma Department of Mines is responsible for determining the existence of a direct or indirect financial interest for employees and that the Governor’s Office, Director of Appointments, is responsible for making the same type of determination for Commission members. We are approving this amendment because it is consistent with 30 CFR 705.17(c)(3).

IV. Summary and Disposition of Comments

Federal Agency Comments

On March 22, 2000, under section 503(b) of SMCRA and 30 CFR 732.17(1)(1)(ii) of the Federal regulations, we requested comments from various Federal agencies with an actual or potential interest in the Oklahoma amendment (Administrative Record No. OK–985.04). The U.S. Army Corps of Engineers responded on April 17, 2000 (Administrative Record No. OK–985.08), that it found the proposed amendment to be satisfactory.

Environmental Protection Agency (EPA)

Under 30 CFR 732.17(1)(1)(i), we are required to get a written agreement from the EPA for those provisions of the proposed program amendment that relate to air or water quality standards promulgated under the authority of the Clean Water Act (33 U.S.C. 1251 et seq.) or the Clean Air Act (42 U.S.C. 7401 et seq.). None of the revisions that Oklahoma proposed to make in this amendment pertain to air or water quality standards. Therefore, we did not ask the EPA to agree on the amendment. Under 30 CFR 732.17(1)(1)(i), we requested comments on the amendment from the EPA on March 22, 2000 (Administrative Record No. OK–985.02). The EPA did not respond to our request.

State Historical Preservation Officer (SHPO) and the Advisory Council on Historic Preservation (ACHP)

Under 30 CFR 732.17(1)(4), we are required to request comments from the SHPO and ACHP on amendments that may have an effect on historic properties. On March 22, 2000, we requested comments on Oklahoma’s amendment (Administrative Record No. OK–985.03), but neither responded to our request.

Public Comments

We requested public comments on the amendment, but did not receive any.

V. Director’s Decision

Based on the above findings, we approve the amendment as sent to us by Oklahoma on January 13, 2000. To implement this decision, we are amending the Federal regulations at 30 CFR Part 936, which codify decisions concerning the Oklahoma program. We are making this final rule effective immediately to expedite the State program amendment process and to encourage Oklahoma to bring its program into conformity with the Federal standards. SMCRA requires consistency of State and Federal standards.

VI. Procedural Determinations

Executive Order 12866—Regulatory Planning and Review

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866.

Executive Order 12630—Takings

This rule does not have takings implications. This determination is based on the analysis performed for the counterpart federal regulation.

Executive Order 13132—Federalism

This rule does not have federalism implications. SMCRA delineates the roles of the federal and state governments with regard to the regulation of surface coal mining and reclamation operations. One of the purposes of SMCRA is to “establish a nationwide program to protect society and the environment from the adverse effects of surface coal mining operations.” Section 503(a)(1) of SMCRA requires that state laws regulating surface coal mining and reclamation operations be “in accordance with” the requirements of SMCRA, and section 503(a)(7) requires that state programs contain rules and regulations “consistent with” regulations issued by the Secretary under SMCRA.

Executive Order 12988—Civil Justice Reform

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 and has determined that, to the extent allowed by law, this rule meets the

《数据收集减少法》

该规则不包含信息收集要求，这些要求需要由 OMB 在《数据收集减少法》（44 U.S.C. 3507 et seq.）下批准。
