**General Wage Determination Publication**

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon and Related Acts." This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

The general wage determinations issued under the Davis-Bacon and related Acts are available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, (202) 512 1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the seven separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates are distributed to subscribers.

**DEPARTMENT OF RAILROAD RETIREMENT BOARD**

**Proposed Collection; Comment Request**

**SUMMARY:** In accordance with the requirement of Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) publishes periodic summaries of proposed data collections.

*Comments are invited on:* (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to

the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

**Title and Purpose of Information Collection**

Lag Service Reports; OMB 3220-0005. Under Section 9 of the Railroad Retirement Act (RRA) and Section 6 of the Railroad Unemployment Insurance Act (RUIA), railroad employers are required to submit reports of employee service and compensation to the RRB as needed for administering the RRA and RUIA. To pay benefits due on a deceased employee's earnings records or determine entitlement to, and amount of annuity applied for, it is necessary at time to obtain from railroad employers current (lag) service and compensation net yet reported to the RRB through the annual reporting process.

The reporting requirements are specified in 20 CFR 209.4 and 209.5. The RRB currently utilizes Form G-88, Employer's Supplemental Report of Service and Compensation, and Form AA-22, Notice of Death and Compensation, to obtain the required lag service and related information from railroad employers. The RRB proposes to obsolete Form G-88a. Form G-88a will be replaced by two forms, Form G-88a.1, Notice of Retirement of Verification of Date Last Worked, and Form G-88a.2, Notice of Retirement and Request for Service Needed for Eligibility. Form G-88a.1 will be sent by the RRB to railroad employers and used for the specific purpose of verifying information previously provided to the RRB regarding the date last worked by the employee. If the information is correct, the employer need not reply. If the information is incorrect, the employer is asked to provide corrected

information. Form G-88a.2 will be used by the RRB to secure lag service and compensation information when it is needed to determine benefit eligibility. Both proposed forms will direct the railroad employers to fax the information directly to the RRB. It is expected that the proposed new forms will be easier for railroad employers to complete and will encourage a speedier reply, allowing the RRB to pay applicants in a more timely and accurate manner. A minor editorial change is proposed to Form AA-12.

The completion time for proposed forms G-88a.1 and G-88a.2 is estimated at 5 minutes per response. The estimated completion time for Form AA-22 remains at 6½ minutes per response. Completion is mandatory. The RRB estimates that approximately 800 Form AA-12's, 2,300 Form G-88a.1's, and 1,200 G-88a.2's will be completed annually.

The renewal of this information collection will continue the RRB's initiative to consolidate information collections by major functional areas. The purpose of the initiative is to bring related collection instruments together in one collection, better manage the instruments, and prepare for the electronic collection of this information (A collection instrument can be an individual form, electronic collection, interview, or any other method that collects specific information from the public.)

As part of the OMB renewal process, the RRB proposes that this collection (OMB 3220-0005), Lag Service Reports, will be renamed Employer Reporting. Upon approval by OMB, and RRB intends to merge the following OMB approved collections into the collection by the Expected Expiration Date.
