Description of Program

Under the authority of section 1202(a)(1)(A) of the Elementary and Secondary Education Act, as amended (ESEA), the Assistant Secretary for Elementary and Secondary Education (Assistant Secretary) awards grants to eligible applicants under the MEES program for projects that—

(1) Improve the educational opportunities of migrant families by integrating early childhood education, adult literacy or adult basic education (including English language training, as appropriate), and parenting education into a unified program of family literacy services.

Note: The term “family literacy services” is defined in ESEA section 1202(e) as services provided to participants on a voluntary basis that are of sufficient intensity in terms of hours, and of sufficient duration, to make sustainable changes in a family, and that integrate all of the following activities:

(A) Interactive literacy activities between parents and their children.

(B) Training for parents regarding how to be the primary teacher for their children and full partners in the education of their children.

(C) Parent literacy training that leads to economic self-sufficiency.

(D) An age-appropriate education to prepare children for success in school and life experiences.

(2) Implement cooperative activities that build on existing community resources to create a new range of services to migrant families.

(3) Promote school readiness, early reading acquisition, adult literacy and lifelong learning, and parent involvement and participation in their child's education.

(4) Where possible, use research-based strategies for developing literacy and reading proficiency and, where applicable, second language acquisition.

(5) Assist children and adults from migrant families to achieve challenging State content standards and challenging State student performance standards.

Program Requirements**(a) Eligible Participants**

Eligible MEES participants consist of migratory children and their parents as defined in 34 CFR 200.30 and 200.40 who also meet the following conditions specified in section 1206(a) of the ESEA:

(1) The parent or parents—

(i) Are eligible for participation in an adult basic education program under the Adult Education Act and Family Literacy Act; or

(ii) Are within the State's compulsory school attendance age range, so long as a local educational agency provides (or ensures the availability of) the basic education component required under this part; and

(2) The child or children must be younger than eight years of age.

Note: Family members of eligible participants described in paragraphs (a)(1) and (a)(2) may also participate in MEES activities. These participants include siblings, grandparents, and other family members as long as one or more eligible children and their parents or guardian participate in the core services. In addition, section 1206(b) of the ESEA permits families to remain eligible for MEES services until all family members become ineligible to participate. For example, in the case of a family in which the parent or parents lose eligibility because of their educational advancement, the parent or parents can still participate in MEES activities until all children in the family reach age eight. If all children in the family have reached the age of eight, the family continues to be eligible for Even Start services for two more years (until the youngest participating child turns ten) or until the parents are no longer eligible for adult basic education under the Adult Education Act and Family Literacy Act, whichever occurs first. In addition, the Department interprets 34 CFR 200.30 together with section 1206(b) of ESEA to mean that MEES

services can continue to be provided to a parent or child who is no longer migratory, provided that the family has at least one parent or child who is a migratory worker or migratory child as these terms are defined under 34 CFR 200.40.

(b) Required Program Elements

Any MEES project must, at a minimum, incorporate the following program elements specified in section 1205 of the ESEA:

- Identification and recruitment of migrant families most in need of MEES services, as indicated by a low level of income, a low level of adult literacy or English language proficiency of the eligible parent or parents, and other need-related indicators. (**Note:** MEES program services may be provided in communities where migratory families have resided for extended periods of time. 34 CFR 200.30 and 200.40 make children eligible for MEES services up to three years after they make a move that makes the children eligible for the Migrant Education Program (MEP). However, in developing and using their need-related indicators to identify and recruit those migrant families most in need of MEES program services, the Secretary believes that the most effective MEES projects are likely to focus on families that are highly mobile or who have only recently moved to the communities that those projects serve. In this regard, the MEP statute (section 1304(d) of the ESEA) provides that migrant students whose education has been interrupted and who are at most risk of failing must be given a priority in services that the program offers. While this MEP priority is not an explicit requirement of the MEES program, one would assume, because of the purpose of the MEES program, that the highly mobile families whose children receive a priority under the MEP also have the greatest need for MEES services.)

- Screening and preparation of parents, including teenage parents, to enable these parents to participate fully in program activities and services, including testing, referral to counseling, other developmental and support services, and related services.

- High-quality, intensive instructional programs that promote adult literacy and empower parents to support the educational growth of their children, developmentally appropriate early childhood educational services, and preparation of children for success in the regular school programs.

- A design for service delivery that accommodates the participants' work schedules and other responsibilities,

including the provision of support services, when such services are unavailable from other sources, necessary for participation in project activities, such as—

Scheduling and locating of services to allow joint participation by parents and children;

Child care for the period that parents are involved in the project activities.

- Transportation for the purpose of enabling parents and their children to participate in project activities.
- Special training of staff, including child care staff, to develop the skills necessary to work with parents and young children in the full range of instructional services offered through the Even Start Family Literacy program.
- Providing and monitoring integrated instructional services to participating parents and children through home-based activities.
- Operation on a year-round basis, including the provision of some program services, instructional or enrichment, during the summer months.
- Appropriate coordination with other programs funded under the ESEA, any relevant programs under the Adult Education and Family Literacy Act, the Individuals with Disabilities Education Act, the Workforce Investment (Employment Training) Act, Head Start, volunteer literacy programs, and other relevant programs. (**Note:** In addition, to promote strong community collaboration, sections 1202(e) and 1207(a) of the ESEA require applicants for grants under the basic Even Start Family Literacy program administered by SEAs to be partnerships composed of (1) a local educational agency (LEA), and (2) a non-profit community-based organization, a public agency other than an LEA, an institution of higher education, or a public or private nonprofit organization of demonstrated quality other than an LEA. While these provisions are not requirements of the MEES program, the Secretary believes that the most effective MEES projects are also likely to contain strong, on-going collaborative relationships among these kinds of local entities.)
- Ensure that the project will serve families most in need of MEES family literacy services.
- An independent local evaluation. (**Note:** The Secretary encourages projects to use local evaluators for MEES projects who understand the family literacy model, are able to work with the project as a partner in designing the evaluation, and will help the project use its evaluation results in an on-going way for continuous program improvement.)

(c) Federal and Local Funding

A MEES project's funding is comprised of both a Federal portion of funds (Federal share) and a portion contributed by the eligible applicant (local share). However, the Federal share of the program may not exceed—

- 90 percent of the total cost of the project in the first year;
- 80 percent in the second year;
- 70 percent in the third year;
- 60 percent in the fourth year;
- 50 percent in the fifth, sixth, seventh, and eighth years; and
- 35 percent in any following year.

The local share of the MEES project may be provided in cash or in kind and may be obtained from any source, including other Federal programs funded under the ESEA. Indirect costs are not an allowable cost either for the Federal share or the matching portion of a MEES project.

Invitational Priority

The Secretary is especially interested in receiving applications that include a plan demonstrating that grant activities will focus on one or more approaches described in this section. However, an application that meets one of more of these invitational priorities does not receive competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

Coordination across SEAs and local school districts is at the heart of migrant education's purpose: To mitigate disruptions in the education of qualifying migrant students. Short-term MEES seasonal projects can provide intensity of services to migratory families, but those projects may not be of sufficient duration to demonstrate long-term gains for students or to increase the level of economic self-sufficiency of migrant parents, and may be another disruption in completing the family's educational goals.

Therefore, to promote opportunities for continuous learning by migrant families, the Secretary is particularly interested in receiving applications that propose to include one or more of the following activities—

- Coordinate continuing family literacy services across State and local school district boundaries to meet the needs of highly mobile migrant agricultural families.
- Coordinate their activities with State and local endeavors to improve family literacy services; promote early reading proficiency, employ Federal Work-Study tutoring programs; create partnerships for family involvement in education; or other initiatives that foster early school success.

- Support the unique needs of single parent migrant families whose needs for child care and instructional services do not align with traditional schedules for educational and family support services.

- Build networks with agricultural employers to coordinate and integrate resources that support English literacy for migrant agricultural families with limited English proficiency needs.

Selection Criteria

The Secretary uses the following selection criteria to evaluate applications for grants under this competition.

(1) The maximum score for all of these criteria is 100 points.

(2) The maximum score for each criterion is indicated in parentheses.

(a) Meeting the Purposes of the Authorizing Statute (5 Points)

The Secretary reviews each application to determine how well the project will—

(1) Improve the educational opportunities of migrant families by integrating early childhood education, adult literacy or adult basic education (including English language training, as appropriate), and parenting education into a unified family literacy program.

(2) Be implemented through cooperative projects that build on existing community resources to create a new range of services to migrant families.

(3) Promote the achievement of family literacy goals (particularly the goals that address school readiness, student achievement, adult literacy, and parent involvement and participation in their child's early education) through research-based reading and English-language acquisition practices that meet the diverse needs of the migrant community of learners.

(4) Assist children and adults from migrant families to achieve the challenging State content standards and challenging State student performance standards.

(b) Need for Project (20 Points)

The Secretary considers the need for the proposed project. In determining the need for the proposed project, the Secretary considers the following factors:

(1) The magnitude of the need for the services to be provided or the activities to be carried out by the proposed project.

(2) The extent to which the proposed project will focus on serving or otherwise addressing the needs of disadvantaged individuals (*i.e.*, eligible migrant agricultural or fishing families).

(3) The extent to which specific gaps or weaknesses in services, infrastructure, or opportunities have been identified and will be addressed by the proposed project, including the nature and magnitude of those gaps or weaknesses.

Note: Applicants are free to address criterion (b) in any way that they wish. However, given the purpose of the MEES program, the Secretary believes that high-quality applications will likely include a discussion of the following key elements:

(i) How the project would be located in an area or areas with high percentages or large numbers of migratory children and their parents, guardians, or primary caretakers in need of MEES services.

(ii) How the project will address the lack of existing comprehensive family literacy services for the migrant population.

(iii) How community resources will be used to benefit project participants both during the participants' period of eligibility for migrant education services, and in the event that participating families lose their eligibility for MEES services during the project period.

(iv) How the project will integrate child development, adult literacy, and parenting activities.

(v) How the project will assist migrant children and adults to achieve the State content standards and student performance standards.

In addition, some migrant families may settle in a community during their enrollment and therefore cease to meet the eligibility requirements outlined in the Program Requirements section of this notice; therefore, the Secretary also believes that high-quality applications will likely include a plan for ensuring that these families have ongoing access to family literacy services when their enrollment can no longer be supported with basic MEP or MEES program funds. In this regard, an applicant might, for example, consider providing a succinct description of how the project will fill any gaps in services, or how it will connect families with existing resources or services as they settle in the community.

(c) Quality of the Project Design (20 Points)

The Secretary considers the quality of the design of the proposed project. In determining the quality of the design of the proposed project, the Secretary considers the following factors:

(1) The extent to which the design of the proposed project is appropriate to, and will successfully address, the needs

of the target population or other identified needs.

(2) The extent to which the project is designed to build capacity and yield results that will extend beyond the period of Federal financial assistance.

(3) The extent to which the proposed project will establish linkages with other appropriate agencies and organizations providing services to the target population.

Note: Applicants are free to address criterion (c) in any way that they wish. However, the Secretary believes that, in designing their project, high-quality applications likely will address each of the required program elements in section 1205 of the ESEA and listed in the Program Requirements section of this notice. In this regard, the Secretary believes that a high-quality application likely would explain how its proposed design addresses each one of those requirements in order to fully meet the needs of its target population. For example, given the mobility of the migrant population to be served by the MEES program, the Secretary believes that high-quality applications will likely include strategies that support family education plans whether or not families are resident in a community throughout a given project year or its continuation years.

In addressing the requirement that projects conduct family literacy services year-round, the Secretary acknowledges that migrant families may reside in communities for varying lengths of time. Therefore, the Secretary interprets the requirement that projects operate on a year-round basis to mean that project activities must be conducted not only throughout the period in which participating migrant families reside in the project area, as well as times when alternative activities or services, or both, are offered. The Secretary strongly encourages applicants to explore ways to maintain contact and continue to monitor the progress of highly mobile families whether or not they are resident in the applicant's community.

Examples of strategies that address the requirement for year-round operations and ongoing family participation when families do not reside in the project area may include distance learning; capacity building and partnership efforts with sending and receiving States and school districts; self-paced learning packages; and other materials, technologies, and activities that make year-round literacy services viable and family-friendly for migrant workers.

(d) Quality of Project Services (20 Points)

The Secretary considers the quality of the services to be provided by the proposed project. In determining the quality of the services to be provided by the proposed project, the Secretary considers the quality and sufficiency of strategies for ensuring equal access and treatment for eligible project participants who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability. In addition, the Secretary considers the following factors:

(1) The extent to which the training or professional development services to be provided by the proposed project are of sufficient quality, intensity, and duration to lead to improvements in practice among the recipients of those services.

(2) The extent to which the services to be provided by the proposed project reflect up-to-date knowledge from research and effective practice.

(3) The extent to which the training or professional development services to be provided by the proposed project are of sufficient quality, intensity, and duration to lead to improvements in practice among the recipients of those services.

(4) The extent to which the services provided by the proposed project are focused on those with the greatest needs.

(5) The likelihood that the services to be provided by the proposed project will lead to improvements in the achievement of students as measured against rigorous academic standards.

(e) Adequacy of Resources (15 Points)

The Secretary considers the adequacy of resources for the proposed project. In determining the adequacy of resources for the proposed project, the Secretary considers the following factors:

(1) The relevance and demonstrated commitment of each partner in the proposed project to the implementation and success of the project.

(2) The extent to which the costs are reasonable in relation to the objectives, design, and potential significance of the proposed project.

(3) The potential for continued support of the project after Federal funding ends, including, as appropriate, the demonstrated commitment of appropriate entities to such support.

(4) The extent to which costs are reasonable in relation to the number of persons to be served and the anticipated results and benefits.

(f) Quality of the Project Evaluation. (20 Points)

The Secretary considers the quality of the evaluation to be conducted of the proposed project.

In determining the quality of the evaluation, the Secretary considers the following factors:

(1) The extent to which the methods of evaluation provide for examining the effectiveness of project implementation strategies.

(2) The extent to which the methods of evaluation will provide performance feedback and permit periodic assessment of progress toward achieving intended outcomes.

(3) The extent to which the methods of evaluation are thorough, feasible, and appropriate to the goals, objectives, and outcomes of the proposed project.

(4) The extent to which methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce quantitative and qualitative data to the extent possible.

(5) The extent to which the evaluation will provide guidance about effective strategies suitable for replication or testing in other settings.

Note: Applicants are free to address criterion (f) in any way they wish. However, Section 1205(10) of the ESEA requires applicants must conduct an independent evaluation of their project. In addition, they must participate in the national Even Start data collection effort. Given these two requirements, the Secretary believes that high-quality applications are likely to address this criterion by explaining how the project will conduct an ongoing, independent, local evaluation to ensure that the quality of the proposed family literacy services are validated and improved over the course of the four-year project period.

In addition, the Secretary believes that high-quality applicants would likely bear in mind the following information in considering how they intend to report the effectiveness of their project. Funded projects are required to complete an annual performance report on their progress in meeting the approved objectives of their grant to ensure continued funding. These reports and other evaluation information provide local projects, the Department, and the Congress with objective data about the activities and services provided by the project, the participants served, the retention rates of those participants, and the success of the families in the project. The Department has also developed a set of

performance indicators for the Even Start Family Literacy Program in accordance with the Government Performance and Results Act (GPRA) that relate to participant outcomes and project management. These indicators are appended to this application package. The Secretary encourages applicants to refer to these indicators when developing their evaluation plans, as the Department uses these indicators in reporting to the Congress on the overall effectiveness of the program.

The following items are not part of the program's selection criteria, but provide additional information for applicants.

National Evaluation

The Department is conducting a national evaluation of Even Start Family Literacy projects. MEES program grantees must cooperate with the Department's efforts by adopting an evaluation plan that is consistent with the national evaluation (as well as with the grantee's responsibilities under section 1205(10) of the ESEA and 34 CFR 74.51, 75.118, 75.253, and 80.40).

The Secretary suggests that each applicant budget for evaluation activities as follows: in addition to the costs of planning and conducting an independent local evaluation, a project with an estimated budget of up to \$120,000 should designate \$5,000 for this purpose; and a project with an estimated cost of over \$120,000 should designate \$10,000 for these activities. These funds will be used for expenditures related to the collection and entry of data required for the Department's national evaluation. The Secretary also recommends that applicants budget for the cost of travel to Washington, DC and three nights' lodging for the project director and project evaluator, for their participation in annual technical assistance/evaluation meetings.

Government Performance Results Act: Even Start Performance Indicators

Even Start Family Literacy Program Performance Plan: Objectives and Indicators

Objective 1. The literacy of participating families will improve.

1.1 Adult literacy achievement. Increasing percentages of Even Start adults will achieve significant learning gains on measures of math and reading skills.

1.2 Adult educational attainment. Increasing percentages of adult secondary education Even Start participants will obtain their high school diploma or equivalent.

1.3 Children's language development and reading readiness.

Increasing percentages of Even Start children will achieve significant gains on measures of language development and reading readiness.

1.4 Parenting skills. Increasing percentages of parents will show significant improvement on measures of parenting skills, home environment, and expectations for their children.

Objective 2. Even Start projects will reach their target population of families who are most in need of services.

2.1 Recruitment of most in need. The projects will continue to recruit low-income, disadvantaged families with low literacy levels.

Objective 3. Local Even Start projects will provide high-quality, comprehensive instructional and support services to all families in a cost-effective manner.

3.1 Service hours. Increasing percentages of projects will offer at least 60 hours of adult education per month, at least 20 hours of parenting education per month, and at least 65 hours of early childhood education per month.

3.2 Participation, retention and continuity. Projects will increasingly improve retention and continuity of services.

Information by Project and Budget Periods

Under 34 CFR 75.112 and 75.117, an eligible applicant must propose a project period, and provide budgetary information for each budget period of that proposed project period. The Secretary requires that the budgetary information include an amount for all key project components with an accompanying breakdown of any subcomponents, along with a written justification for all requested amounts. (A form for reporting this information is contained in the appendix of this notice.)

Section 75.112(b) also requires that an applicant describe how and when, in each budget period of the project, it plans to meet each objective of the project.

(**Note:** The Department will use this information, in conjunction with the grantee's annual performance report required under 34 CFR 75.118(a), to determine whether a continuation award for the subsequent budget year should be made. Under 34 CFR 75.253, a grantee can receive a continuation award only if it demonstrates that it either has made substantial progress toward meeting the objectives of the approved project, or has received the Assistant Secretary's approval of changes in the project to enable it to meet the objectives in the succeeding budget periods.)

As indicated in the **Note** to the selection criterion (f) (Quality of project evaluation), each project must conduct an independent local evaluation. In budgeting for the cost of this independent local evaluation, you may wish to contact potential local evaluators, such as researchers or teachers at local community colleges or universities, to ascertain a typical hourly rate.

Intergovernmental Review of Federal Programs

This program is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR Part 79.

One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive Order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

If you are an applicant, you must contact the appropriate State Single Point of Contact (SPOC) to find out about, and to comply with, the State's process under Executive Order 12372. If you propose to perform activities in more than one State, you should immediately contact the SPOC for each of those States and follow the procedure established in each State under the Executive order. You may view the latest official SPOC list on the Web site of the Office of Management and Budget at the following address: <http://www.whitehouse.gov/omb/grants>

In States that have not established a process or chosen a program for review, State, area-wide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a SPOC and any comments from State, areawide, regional, and local entities must be mailed or hand-delivered by the date indicated in this notice to the following address: The Secretary, E.O. 12372—CFDA# 84.214A, U.S. Department of Education, Room 7E200, 400 Maryland Avenue, SW., Washington, DC 20202-0125.

Instructions for Part III—Application Narrative

Before preparing the Application Narrative, an applicant should read carefully the description of the program and the selection criteria the Secretary uses to evaluate applications.

The narrative should encompass each function or activity for which funds are being requested and should—

1. Begin with an Abstract; that is, a summary of the proposed project.

2. Describe the proposed project in light of each of the selection criteria in the order in which the criteria are listed in this application package. (**Note:** While applicants can address the criteria in any way that is reasonable, given the required emphasis of any MEES project on an integrated program of early childhood education, adult literacy or adult basic education, and parenting education, the Secretary believes that a reasonable plan of operation would likely address how the proposed project will provide high-quality instruction in these three areas that, with interactive literacy activities between parents and children (PACT), is integrated into a unified family literacy program. Moreover, consistent with 34 CFR 75.112(b), which requires that the application describe how and when, in each budget period, the applicant plans to meet each project objective, the Secretary believes that applicants would want particularly to describe each goal in terms of measurable objectives, specific activities that are proposed to meet each objective, time lines associated with these activities, the resources believed to be needed to achieve each objective, and how each objective will be evaluated.)

3. Provide the following information in response to the attached **NOTICE TO ALL APPLICANTS:** (1) A reference to the portion of the application in which the applicant has described the steps that the applicant proposes to take to remove barriers to equitable access to, and equitable participation in, project activities; or (2) a separate statement that includes this information.

4. Include any other pertinent information that might assist the Secretary in reviewing the application.

Page Limit: The application narrative (Part III of the application) is where the applicant addresses the selection criteria reviewers use to evaluate your application. The recommended page limit for this application is 50 pages (appendices excepted), using the following standards:

- A page is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides.

- Double space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.

- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).

The page limit does not apply to part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography, or the letters of support. However, you must include all of the application narrative in Part III.

BILLING CODE 4000-01-U

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers

that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** U.S. Department of Education, Washington, DC 20202-4651.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned

If you marked item 12 on the application "Yes" and designated exemptions in 12a, (**all research activities are exempt**), provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under II.B. "Exemptions," below. The Narrative must be succinct. **Provide this information in an "Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

If you marked "Yes" to item 12 on the face page, and designated no exemptions from the regulations (**some or all of the research activities are nonexempt**), address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **"Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the cir-

cumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of pub-*

lic behavior when the investigator(s) do not participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.
