

**ACTION:** Notice of public meetings.

**SUMMARY:** NOAA makes use of a public Interagency Committee to assist in preparing for meetings of the International Whaling Commission (IWC). This notice defines guidelines for participating on the Committee and provides a tentative schedule of meetings and of important dates.

**DATES:** The June 5, 2000, Interagency Meeting will be held at 2 p.m. See

**SUPPLEMENTARY INFORMATION** for tentative 2000 meeting schedules.

**ADDRESSES:** The June 5, 2000, meeting will be held in room B841-A, Herbert C. Hoover Building, Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

**FOR FURTHER INFORMATION CONTACT:** Cathy Campbell, (202) 482-2652.

**SUPPLEMENTARY INFORMATION:** The purpose of the June 5, 2000, Interagency Committee meeting is to review recent events relating to the IWC and to review U.S. positions for the 2000 IWC annual meeting.

The Secretary of Commerce is charged with the responsibility of discharging the obligations of the United States under the International Convention for the Regulation of Whaling, 1946. This authority has been delegated to the Under Secretary for Oceans and Atmosphere. The U.S. Commissioner to the IWC has primary responsibility for the preparation and negotiation of U.S. positions on international issues concerning whaling and for all matters involving the IWC. He is staffed by the Department of Commerce and assisted by the Department of State, the Department of the Interior, the Marine Mammal Commission, and by other interested agencies.

Each year, NOAA conducts meetings and other activities to prepare for the annual meeting of the IWC. The major purpose of the preparatory meetings is to provide input in the development of policy by individuals and non-governmental organizations interested in whale conservation. NOAA believes that this participation is important for the effective development and implementation of U.S. policy concerning whaling. Any person with an identifiable interest in U.S. whale conservation policy may participate in the meetings, but NOAA reserves the authority to inquire about the interest of any person who appears at a meeting and to determine the appropriateness of that person's participation. Foreign nationals and persons who represent foreign governments may not attend. These stringent measures are necessary to promote the candid exchange of

information and to establish the necessary basis for the relatively open process of preparing for IWC meetings that characterizes current practices.

#### Endangered Species; Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of permit 1235.

**SUMMARY:** Notice is hereby given that NMFS has issued a permit to the City of Seattle (City) that authorizes incidental take of Endangered Species Act-listed anadromous fish, subject to certain conditions set forth therein.

**ADDRESSES:** The applications and related documents are available for

review in the following office, by appointment:

Washington State Habitat Branch, 510 Desmond Drive SE, Suite 103, Lacey, WA 98503

**FOR FURTHER INFORMATION CONTACT:** Steve Landino (360-753-9530)

**SUPPLEMENTARY INFORMATION:** The permit and permit amendment were issued under the authority of section 10(a)(1)(B) of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 222-227).

The City's covered activities include watershed management and related operations as described in the Cedar River Watershed Habitat Conservation Plan (HCP) and associated Draft Environmental Assessment (EA), Final EA and Finding of No Significant Impact (FONSI). The FONSI was signed on April 19, 2000.

Notice was published on December 11, 1998, and January 5, 1999 (63 FR 68469, and 64 FR 480) that an application had been filed by the City for an incidental take permit. Permit 1235 was issued to the City on April 21, 2000. Permit 1235 authorizes the City incidental take of threatened Puget Sound (PS) chinook (*Oncorhynchus tshawytscha*). As well, other anadromous fish that are not now ESA-listed are covered species and would be included on the permit at time of listing. Permit 1235 expires on December 31, 2050.

Issuance of the permit was based on a finding that the City had met the permit issuance criteria of 50 CFR 222.22(c). The permit will take effect for listed covered species on the effective date of a rule under Section 4(d) of the ESA prohibiting take of the species. For unlisted covered species, the permit will take effect upon the listing of a species as endangered, and for a species listed as threatened, on the effective date of a rule under Section 4(d) of the ESA prohibiting take of the species.

Dated: May 24, 2000.

**SUPPLEMENTARY INFORMATION:**

**Authority**

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) Are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the

ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

**Species Covered in this Notice**

The following species are covered in this notice: endangered Green turtle (*Chelonia mydas*), endangered Hawksbill turtle (*Eretmochelys imbricata*).

**New Applications Received**

Application 1253: The purpose of the research is to provide information on the ecology and population dynamics of the hawksbill and green turtles that inhabit the waters surrounding Puerto Rico and its adjacent islands (Mona, Monito, Desecheo, Caja-de-Muertos, Viques and Culebra). This research will improve the effectiveness of management efforts by addressing priorities set forth in the recovery plans for both species: (1) identification of important marine habitats; (2) determination of adult and juvenile distribution and abundance; (3) determination of sex ratios in the juvenile population; (4) evaluation of the extent of ingestion of persistent marine debris; (5) determination of growth rates and age at sexual maturity, and (6) quantification of threats to adults and juveniles on foraging grounds.
