BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA No. 00-1110; MM Docket No. 00-28; RM-9796]

Radio Broadcasting Services; Christine, TX

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; dismissal.

SUMMARY: This document dismisses a proposal filed by Christine Radio Broadcasting Company requesting the allotment of Channel 245A at Christine, Texas, as the community's first local service. See 65 FR 11537, March 3, 2000. As stated in the *Notice*, a showing of continuing interest is required before a channel will be allotted. Since there has been no interest expressed for the allotment of a channel at Christine, the *Report and Order* dismisses the proposal.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 00-1109; MM Docket No. 99-115; RM-9378]

Radio Broadcasting Services; Clio and Tuscola, MI

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; denial.

SUMMARY: The *Notice* in this proceeding proposed the reallocation of Channel 268A from Tuscola, Michigan, to Clio, Michigan, and modification of the license for Station WWBN accordingly. The *Notice* was issued in response to a petition filed by Faircom Flint Inc. See 64 FR 18569, 1999. Based on the information submitted, it has been determined that the reallocation from Tuscola to Clio does not provide a public interest benefit of enough significance to outweigh the loss of a transmission service to Tuscola or offset the disruption of an existing service. Therefore, the proposed reallocation from Tuscola to Clio has been denied. With this action, this docketed proceeding is terminated.

National Highway Traffic Safety Administration

49 CFR Part 575

[Docket No. NHTSA-2000-6859]

RIN 2127-AC64

Consumer Information Regulations; Federal Motor Vehicle Safety Standards; Rollover Prevention

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Request for comments.

SUMMARY: The agency believes that consumer information on the rollover risk of passenger cars and light multipurpose passenger vehicles and trucks would reduce the number of injuries and fatalities from rollover crashes. This information would enable prospective purchasers to make choices about new vehicles based on differences in rollover risk and serve as a market incentive to manufacturers in striving to design their vehicles with greater rollover resistance. The consumer information program would also inform drivers who choose vehicles with less rollover resistance that their risk of harm can be greatly reduced with seat belt use to avoid ejection.

The agency has tentatively decided that the Static Stability Factor should be used to indicate overall rollover risk in single-vehicle crashes. This document seeks comment on whether the information should be presented as part of NHTSA's New Car Assessment Program (NCAP), which provides consumer information concerning frontal and side impact protection.

DATES: Comment Date: Comments must be received by July 31, 2000.

ADDRESSES: All comments should refer to Docket No. NHTSA-2000-6859 and be submitted to: Docket Management, Room PL-401, 400 Seventh Street, SW, Washington, DC 20590. Docket hours are from 10 am to 5 pm Monday through Friday.

For public comments and other information related to previous notices on this subject, please refer to Docket No. 91-68; Notice 3, NHTSA Docket, Room 5111, 400 Seventh Street, SW, Washington, DC 20590. NHTSA Docket hours are from 9:30 am to 4 pm Monday through Friday.
