Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these

requests, call the CDC Reports Clearance Officer at (404) 639-7090. Send written comments to CDC, Desk Officer; Human Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Projects

1. The State and Local Area Integrated Survey (SLAITS)—(0920-0406) The Health Resources and Services Administration/Maternal and Child Health Bureau, in partnership with the National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC) is conducting a new national survey on children with special health care needs (CSHCN) to be conducted in all states and the District of Columbia. The survey is part of NCHS's State and Local Area Integrated Telephone Survey (SLAITS), a telephone survey platform which uses the National Immunization Survey sample frame and was described in a **Federal Register** notice dated October 22, 1998 (Volume 63, Number 204, pages 56654-56655). This collection of data is authorized by 42 U.S.C. 242k.

The survey will provide, for the first time, uniform national and state-specific data on CSHCN prevalence and impact. In addition, the survey will provide baseline estimates for federal and state performance measures, the year 2010 national prevention objectives, and data for each State's Title V five-year needs assessment. Health care coverage information will be collected on children with and without special health care needs. Those without any health care coverage will be asked a brief set of questions about their familiarity with the State Children's Health Insurance Program.

A screening interview will be completed with parents and guardians

in randomly selected households in order to identify children (0-17 years of age) with special health care needs. This initial screening interview will include a brief battery of questions about the presence of special health care needs, as well as demographic questions needed to manage the sample design and estimation process. Approximately 14% to 18% of the screened children are expected to have a special health care need. When a child is identified with a special need, a 15-minute supplemental interview will be completed, including questions on demographics and household income; health and functional status; health insurance; adequacy of health care coverage; access to care; utilization of care; care coordination; satisfaction with care; and impact on the family. For screened children who do not have special health care needs, a sub-sample of parents and guardians will complete a short supplemental interview on health insurance so that state-specific estimates of health insurance coverage for all children can be produced.

Screening interviews will be conducted with about 3,400 families in each state with a goal of identifying 750 children with special health care needs. This sample size will permit accurate and reliable state-level estimates of the prevalence of special health care needs and of associated characteristics such as insurance coverage. State samples of 3,000 children without special health care needs will be asked health insurance coverage questions and about 26,000 families will be asked SCHIP awareness questions. The survey is scheduled to begin in July, 2000, and will remain in the field for 12 months. There is no dollar cost to respondents. The approved burden budget for SLAITS includes the burden hours for this survey. The total burden hours are estimated at 34,819.

Respondents	No. of respondents	No. of responses/ respondents	Average burden/ response (in hrs.)	Total burden (in hrs.)
Screened Households	102,479	1	6/60	18,248
Families of children with special health care needs	39,750	1	15/60	9,938
Families of children without special health care needs—insurance status	159,000	1	2/60	5,300
SCHIP for uninsured children	26,659	1	3/60	1,333
Total				34,819

Proposed Projects

1. Preventive Health and Health Services Block Grant, Annual Application and Reports (0920-0106)—Extension—The Centers for Disease Control and Prevention (CDC), National Center for Chronic Disease Prevention and Health Promotion—In 1997, the Office of Management and Budget approved the collection of information provided in the grant applications and annual reports for the Preventive Health and Health Services Block Grant (0920-0106). This approval expires on November 30, 2000. CDC is requesting an extension of OMB clearance for this legislatively mandated information

collection until November 30, 2001. The extension is limited to one year to allow for the development and adherence to *Healthy People 2010* to be released the Spring of 2000. The Preventive Health and Health Services Block Grant is mandated according to section 1904 to adhere to the Healthy People framework, therefore, the current application and report format will be restructured to coincide with 2010 and resubmitted for OMB clearance at that time.

This information collected through the applications from the official State health agencies is required from section 1905 of the Public Health Service Act. There is no change in the proposed information collection from previous years. The information collected from the annual reports is required by section 1906, specifically the requirement for uniform data sets matching the uses of funds. The total estimated annual burden is 5490 hours.
