

distance from the project site that they will not be affected.

Since NMFS is assured that the taking will not result in more than the incidental harassment (as defined by the MMPA) of small numbers of Pacific harbor seals and California sea lions, and would result in the least practicable impact on these stocks, NMFS has determined that the requirements of section 101(a)(5)(D) have been met and the authorization can be issued.

Authorization

For the previously stated reasons, NMFS has issued an IHA for a 1-year period, for the harassment of harbor seals and California sea lions incidental to a PIDP at the SF-OBB, San Francisco Bay, California, provided the above mentioned mitigation, monitoring and reporting requirements mentioned earlier are incorporated.
