FOR FURTHER INFORMATION CONTACT: Ms. Gaye Lopez, Colusa Basin Drainage

District, at (530) 795-3038 or Mr. Russ Smith, Reclamation, at (530) 275-1554.

SUPPLEMENTARY INFORMATION: The proposed action is to construct flood detention dams and basins on certain ephemeral streams in the foothills west of the Basin that cause the greatest flood damage. Reclamation and the District also propose to implement approximately 10,000 acres of environmental restoration measures to help restore degraded upland, riparian, and wetland habitats in the project area. In addition, the detention basins could provide a water supply that could be used for environmental purposes.

The goal of the Program is to substantially reduce flood damages and restore upland, riparian, and wetland habitats that have been historically degraded in the Colusa Basin. In addition to a No Program Alternative, which involves the continued use of the existing Colusa Basin Drain for drainage management and inadequate flood flow conveyance, six program alternatives are examined. Alternatives 1a, 2a, and 3a include the proposed construction of 14, 8, and 5 foothill flood detention dams and reservoirs, respectively, and about 10,000 acres of upland, riparian, and wetland restoration measures in the Colusa Basin. Alternatives 1b, 2b, and 3b include all the elements of Alternatives 1a, 2a, and 3a, respectively, and would also be operated to provide a water supply that could be used for environmental purposes, including the dedication of some reservoir space for water storage.

AGENCY: Bureau of Reclamation, Interior.

SUMMARY: Notice is hereby given that the public comment period for Reclamation's draft agency handbook is extended 16 days to end on July 5, 2000.

DATES: The end of the public comment period, as originally noted in the **Federal Register** (65 FR 21210) on April 20, 2000, was to be June 19, 2000. The public comment period is now extended to July 5, 2000.

ADDRESSES: Written comments on the NEPA Handbook should be addressed to Bureau of Reclamation, Office of Policy, Attention: Dr. Darrell Cauley, Manager—Environmental and Planning Coordination, D-5100, Denver Federal Center, PO Box 25007, Denver, CO 80225-0007.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

FOR FURTHER INFORMATION CONTACT: Theresa Taylor, Bureau of Reclamation, Office of Policy, at (303) 445-2826.

SUPPLEMENTARY INFORMATION: Requests for the document have depleted our supply. To accommodate requests, more copies are being printed for distribution. Reclamation's goal is to give the public a reasonable opportunity to review and offer comments on the content of this handbook. The NEPA Handbook was developed to assist Reclamation employees who are required to comply with the National Environmental Policy Act and various other environmental laws as part of their daily work. Reclamation's NEPA Handbook was first published in 1984, not in 1991 as previously reported on April 20, 2000. After Reclamation was re-organized in 1994 to reflect a de-centralization of decision making and authority, the NEPA Handbook needed major revisions to reflect the re-organization and to update the content. The handbook was extensively revised and has gone through various stages of review both internally and with the

Council on Environmental Quality. At the commencement of the extended public review period, comments received will be considered as part of a final revision of the handbook.
