Guidance on Exercising CERCLA Enforcement Discretion in Anticipation of Full Cost Accounting Consistent With the "Statement of Federal Financial Accounting Standards No. 4"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Office of Enforcement and Compliance Assurance, Office of Site Remediation Enforcement is providing guidance to its regional components on the exercise of enforcement discretion, from May 30, 2000 through October 2, 2000, in anticipation of EPA's implementation of full cost accounting.

Attachments 1 and 2 were prepared by the Office of the Chief Financial Officer. They describe the reasons for full cost accounting and the methodology being used to implement full cost accounting.

EFFECTIVE DATE: May 30, 2000.

FOR FURTHER INFORMATION CONTACT: Chad Littleton, Office of Enforcement and Compliance Assurance, Office of Site Remediation Enforcement, U.S. EPA, 1200 Pennsylvania Ave., NW,

Washington, DC 20460 (MC 2273A); e-mail: littleton.chad@epa.gov; phone: (202) 564-6064.

SUPPLEMENTARY INFORMATION:

Memorandum

Subject: Guidance on Exercising CERCLA Enforcement Discretion In Anticipation of Full Cost Accounting Consistent with the *Statement of Federal Financial Accounting Standards No. 4*

From: Steven A. Herman, Assistant Administrator, Office of Enforcement and Compliance Assurance

To:

Regional Administrators, Regions I-X
Deputy Regional Administrators, Regions I-X
Regional Counsel, Regions I-X
Superfund Division Directors, Regions I-X

This memorandum provides guidance to EPA personnel on how to exercise enforcement discretion as it relates to upcoming changes in EPA's indirect cost accounting methodology.

A. Upcoming Revisions to Indirect Cost Accounting

EPA's Office of the Chief Financial Officer (OCFO) recently announced that it is revising the Agency's methodology for allocating indirect costs to Superfund sites. These steps will bring Superfund into compliance with cost accounting standards issued by the Federal Accounting Standards Advisory Board (FASAB) on July 31, 1995, (*Statement of Federal Financial Accounting Standards No. 4 (SFFAS No. 4)*).¹ The principal goal of those standards is to make it possible for Federal agencies to determine and report the true costs of their programs and activities. The Federal Financial Management Improvement Act of 1996 (Title VIII, Public Law 104-208)² requires all Federal agencies to develop and use cost accounting methodologies that are consistent with the SFFAS No. 4 and other applicable standards.³

¹ Available as *SFFAS 4* at www.financenet.gov/financenet/fed/fasab/concepts.htm.

² Available from the 104th Congress catalog at www.access.gpo.gov/nara/publaw/104publ.html.

³ "(5) To rebuild the accountability and credibility of the Federal Government, and restore public confidence in the Federal Government, agencies must incorporate accounting standards and reporting objectives established for the Federal Government into their financial management systems so that all the assets and liabilities, revenues, and expenditures or expenses, and the full costs of programs and activities of the Federal Government can be consistently and accurately recorded, monitored, and uniformly reported throughout the Federal Government.

(6) Since its establishment in October 1990, the Federal Accounting Standards Advisory Board

A copy of the OCFO memorandum announcing and describing EPA's implementation of an accounting methodology complying with the SFFAS No. 4 is attached with your reference (Attachment 1). That memorandum describes important background events and EPA's approach to implementing the revised methodology, defines many important accounting terms as they apply to EPA, lists preliminary estimated regional indirect rates based on the revised methodology, and states that OCFO will calculate actual indirect costs rates using the revised methodology (hereinafter "revised rates" or "revised indirect rates") for all fiscal years after 1989. The OCFO expects the revised rates to be completed and issued by October 2, 2000, at which time EPA will begin using the revised rates.

B. The Revised Rates and Superfund Site Costs

As described more fully in the attached OCFO memorandum, direct costs are costs an organization incurs when it produces a specific result. Most of the other costs of running the organization are indirect costs. EPA's current indirect cost accounting methodology allocates to Superfund sites only about one-third of the indirect costs that are incurred by EPA and properly allocable to sites. SFFAS No. 4 requires "full cost accounting," which means that Superfund indirect costs must be allocated to sites. For that reason, implementing an indirect cost methodology based on SFFAS No. 4 will increase the aggregate amount of indirect costs allocated to sites.

The effect of applying the revised rates will vary from site to site because the SFFAS-compliant methodology and the current methodology use different techniques for allocating indirect costs to individual sites. The SFFAS-compliant methodology allocates

(hereinafter referred to as the "FASAB") has made substantial progress toward developing and recommending a comprehensive set of accounting concepts and standards for the Federal Government. When the accounting concepts and standards developed by FASAB are incorporated into Federal financial management systems, agencies will be able to provide cost and financial information that will assist the Congress and financial managers to evaluate the cost and performance of Federal programs and activities, and will therefore provide important information that has been lacking, but is needed for improved decision making by financial managers and the Congress." (*Public Law 104-208, 110 STAT 3009-389-390*).

"Each agency shall implement and maintain financial management systems that comply substantially with Federal financial management systems requirements, applicable Federal accounting standards, and the United States Government Standard General Ledger at the transaction level." (*Id.*)
