**ACTION:** Notice of availability of an environmental assessment (EA) to erect a wireless telecommunications facility (cellular telephone monopole with support facility) that Bell Atlantic Mobile (BAM) has proposed for location on National Park Service (NPS) property at Great Falls Park, Virginia, which is managed by the George Washington Memorial Parkway.

**SUMMARY:** Pursuant to the Council on Environmental Quality regulations and National Park Service policy, NPS has completed an EA which analyzes five alternatives and discusses others which were considered but rejected. The five alternatives analyzed include: (1) 125-foot monopole; (2) 150-foot monopole as proposed by BAM; (3) 150-foot monopole with two larger co-locator buildings; (4) Alternative technology; and, (5) No action. The specific location proposed by BAM is the site where an existing 85-foot NPS antenna tower is located along the Ridge Trail approximately one-half mile from the junction of Old Dominion Drive and Georgetown Pike as one enters the park headed north along Old Dominion. NPS is soliciting comments on this EA. These comments will be considered in evaluating it and in making decisions pursuant to the National Environmental Policy Act.

This meeting is open to the public. Interested persons may make oral statements to the Delta Drinking Water Council or may file written statements for consideration.

**DATES:** The Bay-Delta Advisory Council's Delta Drinking Water Council meeting will be held from 12 noon to 3:30 p.m. on Wednesday, June 28, 2000.

**ADDRESSES:** This meeting will be held at the Resources Building, 1416 Ninth Street, Room 1142, Sacramento, Calif. 95814.

**FOR FURTHER INFORMATION CONTACT:** Judy Heath, CALFED Bay-Delta Program, at (916) 653–2994. If reasonable accommodation is needed due to a disability, please contact the Equal Employment Opportunity Office at (916) 653–6952 or TDD (916) 653–6934 at least one week prior to the meeting.

**SUPPLEMENTARY INFORMATION:** The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the state of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy

direction of CALFED. The Program is exploring and developing a long-term solution for a cooperative planning process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay-Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long-term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA). The BDAC provides advice to CALFED on the program mission, problems to be addressed, and objectives for the Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff. BDAC has established a subcommittee called the Delta Drinking Water Council to advise the CALFED Program and the CALFED Policy Group through BDAC on necessary adaptations to the Program's Drinking Water Quality Improvement Strategy to achieve CALFED's drinking water objectives.

Minutes of the meeting will be maintained by the Program, 1416 Ninth Street, Suite 1155, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday, within 30 days following the meeting.
