

package that was sent to the project mailing list and available at open houses in Petersburg and Kake, Alaska. The scoping process includes: (1) Identification of potential issues; (2) identification of issues to be analyzed in depth; and (3) elimination of insignificant issues or those which have been covered by a previous environmental review. For the Forest Service to best use the scoping input, comments should be received by July 7, 2000 (30 days from expected publication).

Based on results of scoping and the resource capabilities within the project area, alternatives including a "no action" alternative will be developed for the Draft Environmental Impact Statement. The Draft Environmental Impact Statement is projected to be filed with the Environmental Protection Agency (EPA) in the summer of 2000. Subsistence hearings as provided for in Title VIII, Section 810 of the Alaska National Interest Lands Conservation Act (ANILCA), will occur, if necessary, during the comment period on the Draft Environmental Impact Statement. The Final Environmental Impact Statement and Record of Decision are anticipated to be published in March, 2001.

The comment period on the Draft Environmental Impact Statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of Draft Environmental Impact Statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553, (1978). Environmental objections that could have been raised at the Draft Environmental Impact Statement stage may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the Final Environmental Impact Statement.

To assist the Forest Service in identifying and considering issues and concerns of the proposed action, comments during scoping and comments on the Draft Environmental Impact Statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the Draft Environmental Impact Statement. Comments may also address the adequacy of the Draft Environmental Impact Statement or the merits of the alternatives formulated and discussed in the statement.

Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points. Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Parts 215 or 217. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Requesters should be aware that, under FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within 7 days.

Permits required for implementation include the following:

1. U.S. Army Corps of Engineers.
 - Approval of discharge of dredged or fill material into the waters of the United States under Section 404 of the Clean Water Act;
 - Approval of the construction of structures or work in navigable waters of the United States under Section 10 of the Rivers and Harbors Act of 1899;
2. Environmental Protection Agency
 - National Pollutant Discharge Elimination System (402) Permit;
 - Review Spill Prevention Control and Countermeasure Plan;
3. State of Alaska, Department of Natural Resources
 - Tideland Permit and Lease or Easement;
4. State of Alaska, Department of Environmental Conservation

- Solid Waste Disposal Permit;
- Certification of Compliance with Alaska Water Quality Standards (401 Certification)

Responsible Official: Carol Jorgensen, Assistant Forest Supervisor, Tongass National Forest, PO Box 309, Petersburg, Alaska 99833, is the responsible official. The responsible official will consider the comments, response, disclosure of environmental consequences, and applicable laws, regulations, and policies in making the decision and stating the rationale in the Record of Decision.

Dated: May 22, 2000.

Carol J. Jorgensen,

Assistant Forest Supervisor.

BILLING CODE 3410-11-M

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Black Bayou Culverts Hydrologic Restoration Project (CS-29), Calcasieu Parish, LA

AGENCY: Natural Resources Conservation Service.

ACTION: Notice of finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); and the Natural Resources Conservation Service Regulation (7 CFR Part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Black Bayou Culverts Hydrologic Restoration Project (CS-29), Calcasieu Parish, Louisiana.

FOR FURTHER INFORMATION CONTACT:

Donald W. Gohmert, State Conservationist, Natural Resources Conservation Service, 3737 Governmental Street, Alexandria, Louisiana, 71302, telephone (318) 473-7751.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Donald W. Gohmert, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project consists of the installation of a set of culverts under Highway 384 at its intersection of Black Bayou. The culverts would re-establish a hydrologic connection in Black Bayou at Highway 384 to help give relieve to high water conditions within the fresh water marsh basin.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Bruce Lehto, Assistant State Conservationist/Water Resources, Natural Resources Conservation Service, 3737 Government Street, Alexandria, Louisiana 71302, telephone (318) 473-7756.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under NO.10.904, Watershed Protection and Flood Prevention, and is subject to the provision of Executive Order 12372, which requires intergovernmental consultation with State and local officials.)

Dated: May 24, 2000.

Donald W. Gohmert,
State Conservationist.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-580-812]

Dynamic Random Access Memory Semiconductors of One Megabit or Above From the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review and Notice of Intent Not To Revoke Order in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Preliminary Results of Antidumping Duty Administrative Review and Notice of Intent Not to Revoke Order in Part.

SUMMARY: In response to requests from one manufacturer/exporter and one U.S. producer of the subject merchandise, the Department of Commerce ("the Department") is conducting an administrative review of the

antidumping duty order on dynamic random access memory semiconductors of one megabit or above ("DRAMs") from the Republic of Korea ("Korea"). The review covers two manufacturers/exporters and four resellers of subject merchandise to the United States during the period of review ("POR"), May 1, 1998 through April 30, 1999. Based upon our analysis, the Department has preliminarily determined that dumping margins exist for both manufacturers/exporters and the four resellers during the POR. If these preliminary results are adopted in our final results of administrative review, we will instruct the United States Customs Service ("Customs") to assess antidumping duties as appropriate. Interested parties are invited to comment on these preliminary results. Parties who submit arguments in this proceeding are requested to submit with the argument (1) a statement of the issue, and (2) a brief summary of the argument.

EFFECTIVE DATE: June 6, 2000.

FOR FURTHER INFORMATION CONTACT:

Alexander Amdur or John Conniff, AD/CVD Enforcement, Group II, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-5346 or (202) 482-1009, respectively.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise stated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions as of January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all references to the regulations of the Department are to 19 CFR part 351 (1999).

Background

On May 10, 1993, the Department published in the **Federal Register** (58 FR 27250) the antidumping duty order on DRAMs from Korea. On May 28, 1999, the petitioner, Micron Technology Inc., ("Micron") requested an administrative review of Hyundai Electronics Industries Co., Ltd. ("Hyundai") and LG Semicon Co., Ltd. ("LG"), Korean manufacturers of DRAMs, and four Korean resellers of DRAMs, the G5 Corporation ("G5"), Kim's Marketing, Jewon Trading ("Jewon"), and Wooyang Industry Co., Ltd. ("Wooyang"), for the period May 1, 1998 through April 30, 1999. Additionally, the petitioner requested a

cost investigation of LG and Hyundai pursuant to section 773(b) of the Act. On May 28, 1999, LG requested that the Department conduct a review of its exports of the subject merchandise to the United States. On May 28, 1999, LG also submitted a timely request that the order be revoked with respect to LG. LG based its revocation request on its appeal of the Department's inclusion of unreported sales in the fourth review which, LG claimed, if successful, would result in a *de minimis* margin in the fourth review for LG; and the final results of the fifth review, which had not been issued at the time of LG's revocation request. On June 30, 1999 (64 FR 35124), the Department initiated an administrative review of Hyundai, LG, G5, Kim's Marketing, Jewon, and Wooyang, including cost investigations of Hyundai and LG, covering the POR. On November 17, 1999, Micron submitted a request for postponement of the preliminary results. On December 20, 1999, the Department published in the **Federal Register** (64 FR 7111) a notice extending the time for the preliminary results from January 30, 2000, until May 30, 2000. The Department is conducting this review in accordance with section 751 of the Act.

Scope of the Review

Imports covered by the review are shipments of DRAMs from Korea. Included in the scope are assembled and unassembled DRAMs. Assembled DRAMs include all package types. Unassembled DRAMs include processed wafers, uncut die, and cut die. Processed wafers produced in Korea, but packaged or assembled into memory modules in a third country, are included in the scope; wafers produced in a third country and assembled or packaged in Korea are not included in the scope.

The scope of this review includes memory modules. A memory module is a collection of DRAMs, the sole function of which is memory. Modules include single in-line processing modules ("SIPs"), single in-line memory modules ("SIMMs"), or other collections of DRAMs, whether unmounted or mounted on a circuit board. Modules that contain other parts that are needed to support the function of memory are covered. Only those modules which contain additional items which alter the function of the module to something other than memory, such as video graphics adapter ("VGA") boards and cards, are not included in the scope. The scope of this review also includes video random access memory semiconductors ("VRAMS"), as well as any future packaging and assembling of DRAMs; and, removable memory
