

between a domestic bank holding company and its subsidiaries in order to identify broad categories of intercompany transactions and balances that may affect the financial condition of the subsidiary bank. The report also collects information on income recognized by subsidiary banks from other bank holding company members as well as information on credit extended by subsidiary banks to other bank holding company members. Domestic top-tier bank holding companies with assets of \$300 million or more are required to file the FR Y-8 on a semiannual basis (June and December). Also, interim reporting is currently required within ten calendar days of certain large asset transfers.

Current actions: On May 19, 2000, a **Federal Register** notice (65 FR 31912) was issued for public comment to completely revise the FR Y-8. The Federal Reserve proposed to delete the current information on the FR Y-8 and collect fourteen items of information on Section 23A covered transactions. The Federal Reserve is now amending this **Federal Register** notice, with regard to the FR Y-8 respondent panel, to include foreign banking organizations that directly own U.S. subsidiary banks. The comment period on the May 19, 2000, notice is extended to August 7, 2000. The Federal Reserve proposes, at the same time, to discontinue the Report of Intercompany Transactions for Foreign Banking Organizations and Their U.S. Bank Subsidiaries (FR Y-8f; OMB. 7100-0127). The majority of the FR Y-8f respondents (foreign banking organizations that own U.S. bank subsidiaries through a domestic bank holding company) are included in the FR Y-8 panel proposed in the May 19 **Federal Register** notice; this amendment includes the remaining 22 foreign banking organizations (that directly own U.S. banks) in the respondent panel.

Abstract: This report provides the Federal Reserve System with information on intercompany transactions between foreign banking organizations and their U.S. bank subsidiaries. It enables the Federal Reserve to monitor and supervise intercompany flows of funds to ensure that U.S. subsidiary banks are not engaging in any unsafe and unsound practices with their foreign owners. In addition, it aids in determining whether a foreign banking organization serves as a source of strength to its U.S. subsidiary.
