

### Major Issues Raised by the United States

The Philippines' Motor Vehicle Development Program (the "MVDP") provides tariff advantages to motor vehicle manufacturers located in the Philippines who meet certain requirements, including at least the following. First, manufacturers are required to use parts and components produced in the Philippines; the amount required varies by type and size of vehicle. Second, manufacturers are required to earn a percentage of the foreign exchange needed to import those parts and components by exporting finished vehicles; again, the percentage varies by type and size of vehicle. Compliance with these requirements entitles manufacturers to import parts, components and finished vehicles at a preferential rate. The United States also understands that foreign manufacturers' import licenses for parts, components and finished vehicles are conditioned on compliance with these requirements.

The MVDP appears to require outright that manufacturing firms in the motor vehicle sector must achieve specified levels of purchase or use of domestic content, and that they must achieve a neutralization of foreign exchange and balance the value of certain imports with the value of exports of motor vehicles and components. Moreover, it appears that manufacturing firms in the motor vehicle sector must comply with these requirements in order to obtain import licenses for certain motor vehicle parts and components; to obtain foreign exchange for those imports; and to obtain the right to import at preferential rates. Finally, it appears that the Philippines is providing a subsidy that is contingent upon the use of domestic or imported goods.

The Philippines notified the WTO in 1995 that it was applying these measures. The Philippines made that notification pursuant to Article 5.1 of the Agreement on Trade-Related Investment Measures, which allowed WTO Members to notify measures that were not in conformity with the provisions of that Agreement and thereby obtain an additional five years (until January 1, 2000) to bring such measures into conformity with that Agreement.

On May 23, 2000, the United States requested consultations with the Philippines under certain WTO agreements regarding those provisions of the MDVP. The U.S. consultation request alleged that these MVDP provisions are inconsistent with the Philippines' obligations under Articles III:4, III:5 and XI:1 of the GATT 1994,

Articles 2.1 and 2.2 of the Agreement on Trade-Related Investment Measures, and Article 3.1(b) of the Agreement on Subsidies and Countervailing Measures.

### Surface Transportation Board

[STB Docket No. AB-564]

#### Camas Prairie RailNet, Inc.— Abandonment—In Lewis, Nez Perce, and Idaho Counties, ID (Between Spalding and Grangeville, ID)

On May 26, 2000, Camas Prairie RailNet, Inc. (CSPR) filed with the Surface Transportation Board, Washington, DC 20423, an application for permission for the abandonment of a line of railroad known as the 2nd Subdivision or Grangeville Line extending from railroad milepost 0.00 near Spalding, ID, to railroad milepost 66.8 (end of track) near Grangeville, ID, a distance of 66.8 miles, in Lewis, Nez Perce, and Idaho Counties, ID. The line includes the stations of Lapwai (MP

3.3), Sweetwater (MP 5.3), Culesac (MP 12.1), Nucrag (MP 19.5), Ruebens (MP 26.1), Craigmont (MP 34.3), Ferdinand (MP 42.3), Cottonwood (MP 51.0), Fenn (MP 59.5), and Grangeville (MP 66.8), and traverses United States Postal Service ZIP Codes 83501, 83522, 83523, 83524, 83526, 83530, 83531, 83548, and 83640.

The line contains federally granted rights-of-way. Any documentation in the railroad's possession will be made available promptly to those requesting it. The applicant's entire case for abandonment (case-in-chief) was filed with the application.

This line of railroad has been included in the railroad's system diagram map or has been included in its narrative in category 1 since December 28, 1999.<sup>1</sup>

The interest of railroad employees will be protected by conditions imposed in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979).

Any interested person may file with the Surface Transportation Board written comments concerning the proposed abandonment or protests (including the protestant's entire opposition case), by July 10, 2000. All interested persons should be aware that following any abandonment of rail service and salvage of the line, the line may be suitable for other public use, including interim trail use. Any request for a public use condition under 49 U.S.C. 10905 (§ 1152.28 of the Board's rules) and any request for a trail use condition under 16 U.S.C. 1247(d) (§ 1152.29 of the Board's rules) must also be filed by July 10, 2000. The due date for applicant's reply to protests and its response to trail use requests is July 25, 2000. Persons who may oppose the abandonment or discontinuance but who do not wish to participate fully in the process by submitting verified statements of witnesses, containing detailed evidence, should file comments. Persons interested only in seeking public use or trail use conditions should also file comments. Persons opposing the proposed abandonment who wish to participate actively and fully in the process should file a protest.<sup>2</sup>

<sup>1</sup> Applicant inadvertently neglected to furnish a copy of its system diagram map (SDM) or narrative to the Idaho Transportation Department on December 28, 1999. Applicant corrected this omission by faxing and mailing a copy to that agency on January 27, 2000, 120 days before filing its abandonment application. The SDM or narrative contained a *de minimis* mistake indicating that the line terminates at milepost 66.5 rather than at the end of the track at milepost 66.8.

<sup>2</sup> By decision served June 9, 2000, requests for oral hearing in this proceeding were denied. The
