SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC Form No.-538 "Gas Pipeline Certificates: Initial Service" (OMB No. 1902-0061) is used by the Commission to implement the statutory provisions of Sections 7(a), 10(a) and 16 of the Natural Gas Act (NGA) (Pub.L. 75-688)(15 U.S.C. 717-717w). In addition, the Commission reviews the supply data to determine if the pipeline company can provide the service without curtailing certain of its existing customers. The flow data and market data are also used to evaluate existing and future customer requirements on the system to find if sufficient capacity will be available.

Likewise, the cost of facilities and the rate data are used to evaluate the financial impact of the cost of the project to both the pipeline company and its customers. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 156.
