

*Compliance Requirements.*¹³ This *FNPRM* requests comment and cost studies (1) that quantify the incremental costs of thousands-block number pooling; (2) that quantify shared industry and direct carrier-specific costs of thousands-block number pooling; and (3) that take into account the costs savings associated with thousands-block number pooling in comparison to the current number practices that result in more frequent area code changes.

16. *Recordkeeping.* None.

17. *Other Compliance Requirements.* None.

18. *Steps taken to Minimize Significant Economic Impact on Small Entities and Significant Alternatives Considered.* We have stated that section 251(e) does not exclude any class of carriers and that all telecommunications carriers must bear numbering administration costs on a competitively neutral basis.¹⁴ Therefore, we find that section 251(e)(2) requires us to ensure that the costs of numbering administration, including thousands-block number pooling, do not affect the ability of carriers to compete. As such, the costs of thousands-block number pooling should not give one provider an appreciable, incremental cost advantage over another when competing for a specific subscriber; and should not have a disparate effect on competing providers' abilities to earn a normal return.

19. *Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules.* None.
