

The terms and conditions of the proposed long-term water service and repayment contracts represent Reclamation's preferred alternative described as the Negotiated Alternative in the FEIS. The Negotiated Alternative combines features of the Irrigation and Multi-Use alternatives that are designed to continue delivery of irrigation water and maintain limited reservoir recreation and fisheries. When compared to the No Action Alternative, there are no significant environmental, socioeconomic, or agricultural impacts associated with the Negotiated Alternative. The current operations of some of the reservoirs will be modified to establish a new minimum pool elevation to benefit reservoir recreation and fisheries.

Ten Indian tribes, the Mni-SOSE Intertribal Water Rights Coalition, and the Bureau of Indian Affairs, have been contacted regarding Indian trust assets that may be affected by the proposed action. No potentially-affected Indian trust assets have been identified.

The DEIS was issued on October 14, 1999. Responses to comments received from agencies, interested organizations, and individuals on the DEIS are addressed in the FEIS. No decision will be made on the proposed action until 30 days following the release of the FEIS. Following the 30-day waiting period, Reclamation will complete and sign a Record of Decision (ROD). The ROD will describe the action to be implemented and will discuss factors contributing to that decision.

**ACTION:** Reopening of the record and request for additional comments on the subject 5-year reviews.

**SUMMARY:** On June 8, 2000, the U.S. International Trade Commission (the Commission) reopened the record in the above reviews for the purpose of considering new factual information, submitted by any person and not already submitted for the record, regarding the agreement between Siderca SA of Argentina and the United Steelworkers of America concerning the planned reactivation of the steel tube mill located in Sault Ste. Marie, Ontario, Canada, formerly operated by Algoma Steel Inc. of Canada, for the production of oil country tubular goods (65 FR 37409, June 14, 2000).

The Commission hereby gives notice that it is reopening the record in these reviews for the additional purpose of considering new factual information, submitted by any person and not already submitted for the record, regarding the announced merger of Maverick Tube Corp. of the United States and Prudential Steel Ltd. of Canada.

The Commission is not reopening the record for any purpose other than to receive new factual information from any person on these issues only and comments from any party on this new factual information. The record reopened on June 8, 2000, and will close on June 14, 2000. On June 15, 2000, the Commission will make available to parties all information on which they have not had an opportunity to comment.

On or before June 19, 2000, parties may submit final comments, not to exceed 10 pages, double-spaced and single-sided, on stationery measuring 8½ by 11 inches, addressing only new factual information released to parties on June 15, 2000, regarding the two issues detailed above, but such final comments must not contain any new factual information not previously submitted for the record and must otherwise comply with section 207.68 of the Commission's rules.

All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain business proprietary information (BPI) must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's
