

time. The comment period is extended from July 17, 2000 to August 16, 2000.

ADDRESSES: The consultation will be held at the Silver Legacy Resort, 407 North Virginia Street, Reno, Nevada 89501; telephone (775) 325-7143 or toll-free telephone number (800) 687-7733.

FOR FURTHER INFORMATION CONTACT: Karen Ketcher, Branch of Tribal Operations, Eastern Oklahoma Region, Department of the Interior, Bureau of Indian Affairs, 101 North 5th Street, Muskogee, OK 74401. You may also hand-deliver comments to us at Room 426, at the same address. For information about filing comments electronically, see the **SUPPLEMENTARY INFORMATION** section of the **Federal Register** published on April 18, 2000.

SUPPLEMENTARY INFORMATION: In keeping with Executive Order 13084, "Consultation with Indian Tribes," we are scheduling an additional consultation session on Thursday, June 29, 2000, beginning at 9 a.m. (and ending at approximately 4 p.m.) local time. The topic of discussion will be the proposed Certificate of Degree of Indian or Alaska Native Blood (CDIB) rules as published in the **Federal Register** on April 18, 2000 (65 FR 20775).

The meeting is open to the public, and all comments will be recorded and included in the record. We will go over the bases of the need for the proposed CDIB rule and briefly discuss the proposed new subparts 70.1 through 70.38, as well as the information collection procedures proposed for implementation of the proposed rule. This session is being held primarily for Indian tribal representatives from the states of Arizona, California, Nevada, Oregon, Utah, and Washington to attend. Indian tribal representatives who are interested but were not able to attend previous sessions held in Anchorage, Alaska (April 14), Rapid City, South Dakota (May 10) or Albuquerque, New Mexico (May 24) are also invited to attend. Oral and written comments given by individuals and organizations who attended previous sessions are part of the record.

Written comments and recommendations previously submitted for the record will be considered, along with any new testimony or comments. We ask that individuals who previously commented allow other persons the opportunity to provide their comments for the record.

Persons who wish to testify at the June 29 session are requested to observe the following: (1) In order to assist the transcriber and to ensure an accurate record, please give the transcriber a copy of your prepared testimony; (2) In

order to assist us in preparing appropriate responses or answers to your questions, and if you plan to testify, please submit an advance copy of your testimony to us at the address specified below, and plan to have a copy available for the transcriber. However, submission of an advance copy of your testimony is not required.

In response to requests from Indian tribes at our earlier public consultation sessions, we are extending the comment period an additional 30 days from the time period first announced in the **Federal Register** on April 18, 2000 (65 FR 20775). Therefore, comments must be received on or before August 16, 2000.

Dated: June 13, 2000.

Kevin Gover,

Assistant Secretary—Indian Affairs.

Lifetime Charitable Lead Trusts; Hearing Cancellation

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Cancellation of notice of public hearing on proposed rulemaking.

SUMMARY: This document provides notice of cancellation of a public hearing on proposed regulations relating to lifetime charitable lead trusts.

DATES: The public hearing originally scheduled for Tuesday, June 27, 2000, at 10 a.m., is canceled.

FOR FURTHER INFORMATION CONTACT: Guy Traynor of the Regulations Unit, Assistant Chief Counsel (Corporate), at (202) 622-7180 (not a toll-free number).

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking and notice of public hearing that appeared in the **Federal Register** on Wednesday, April 5, 2000 (65 FR 17835), announced that a public hearing was scheduled for June 29, 2000, at 10 a.m., in room 4718, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, DC. The subject of the public hearing is proposed regulations under sections 170, 2055, and 2522, of the Internal Revenue Code. The deadline for requests to speak and outlines of oral comments expired on June 8, 2000.

The notice of proposed rulemaking and notice of public hearing, instructed those interested in testifying at the public hearing to submit a request to speak and an outline of the topics to be addressed. As of June 12, 2000, no one has requested to speak. Therefore, the public hearing scheduled for June 29, 2000, is canceled.

Cynthia E. Grigsby,

Chief, Regulations Unit, Assistant Chief Counsel (Corporate).

Coast Guard

33 CFR Part 173

[USCG 1999-6094]

RIN 2115-AF87

Raising the Threshold of Property Damage for Reports of Accidents Involving Recreational Vessels

AGENCY: Coast Guard, DOT.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Coast Guard proposes to raise the threshold of property damage for reports of accidents involving recreational vessels to \$2,000 for Calendar Year 2001. We have also modified the methodology used to achieve the threshold, to better account for the rising cost of repairs on recreational vessels. This higher threshold would reduce the number of accident reports for minor or cosmetic damage, help us maintain statistics for future years comparable to those for past ones, and reduce the paperwork burden on the public to report such incidents.

DATES: Comments must reach the Docket Management Facility on or before October 18, 2000.

ADDRESSES: Identify your comments and related material by the docket number for this rulemaking [USCG 1999-6094]. To make sure they do not enter the docket more than once, please submit them by only one of the following means:

(1) By mail to the Docket Management Facility, U.S. Department of Transportation, room PL-401, 400 Seventh Street SW., Washington, D.C. 20590-0001.

(2) By delivery to room PL-401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The phone number is 202-366-9329.

(3) By fax to the Facility at 202-493-2251.

(4) Electronically through the web site for the Facility at <http://dms.dot.gov>.

The Facility maintains the public docket for this rulemaking. Comments and materials received from the public, as well as documents mentioned in this preamble as being available in the docket, will become part of this docket. They will be available for inspection or copying at room PL-401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC. Hours are between 10 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-366-9329. You may also find this docket on the Internet at <http://dms.dot.gov>. You may obtain a copy of this proposed rule by calling the U. S. Coast Guard Infoline at 1-800-368-5647, or read it on the Internet, at the Web Site for the Office of Boating Safety, at <http://www.uscgboating.org> or at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT:

With questions on this rulemaking, contact Bruce Schmidt, Project Manager, Office of Boating Safety, Program Management Division, Coast Guard, by e-mail at bschmidt@comdt.uscg.mil or by telephone at 202-267-0955.

With questions on viewing the docket, call Dorothy Walker, Chief, Dockets, Department of Transportation, telephone 202-366-9329.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking [USCG 1999-6094], and indicate the specific section of this document to which each comment applies, and give your reason for each comment. You may submit your comments and material by mail, delivery, fax, or electronic means to the Docket Management Facility at the address under **ADDRESSES**; but please submit them by only one means. If you submit them by mail or delivery, submit them in an unbound format, no larger than 8 1/2 by 11 inches, suitable for copying and electronic filing. If you submit them by mail and would like to know they reached the Facility, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for one to the Docket Management Facility at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

Regulatory Authority and History

46 U.S.C. 6101 requires the Secretary (who has delegated the authority to the Commandant) to prescribe rules on the reporting of "marine casualties". We use that authority to describe different types of marine casualties, including those involving certain amounts of property damage, that must be reported. 33 CFR Part 173, Subpart C, contains the rules applicable to recreational vessels.

In 1972, the original threshold of property damage for reports of accidents involving recreational vessels was \$100. In 1979, the effects of inflation on the original figure dictated that we raise the threshold to \$200. The purpose of this adjustment was to reduce the number of reports filed for minor incidents.

Even the threshold of \$200, however, eventually resulted in the submission of an excessive number of accident reports on minor incidents. This trend increased the reporting burden on the boating public and the administrative burden on both the States and the Coast Guard. On February 6, 1989, to reduce these burdens, we published a Final Rule [54 FR 5608] raising the threshold to \$500. As it had been in 1979, the effect of inflation on repair costs was the basis for this change.

The formula described in the preamble of the Final Rule of 1989 rested on a methodology allowing us to adjust the threshold annually by applying a deflator based on the Gross National Product (GNP) to account for inflation. In that preamble we also stated our intent to review the threshold annually and, if necessary, adjust the threshold each time it rose by another \$100.

How We Developed the New Methodology for Adjusting the Threshold

After analyzing the formula described in the preamble of the Final Rule of 1989, we determined that further adjustments both in the threshold and in the methodology used to determine it were necessary. Non-safety-related accident reports continued even after the threshold increased to \$500 in 1989. We now believe both that the threshold

was too low and that the methodology itself was amiss. An inflation index based on the GNP and applied to a base-year value of \$500 yields a threshold for 2001 still low enough for a significant number of cosmetic damages to be reported. We determined that it is necessary to adjust the base-year value of the threshold to reach the level only where accident damage becomes a safety issue.

The National Association of State Boating Law Administrators (NASBLA) is a professional association consisting of officials of States, commonwealths, and provinces having responsibilities for administering or enforcing the boating laws of those bodies. Within NASBLA, the Boating Accident Investigation, Reporting, and Analysis Committee (BAIRAC) has responsibility for accident reporting and analysis.

The Boating Law Administrators (BLAs) who serve on BAIRAC are experts in enforcement, education for boating safety, and investigation of boating accidents. Through their ongoing relationships with facilities that repair recreational boats, as well as through their experience with and knowledge of various types of boat damage and costs needed to repair it, they have strongly conveyed the need for the Coast Guard to raise the threshold of property damage for reports of accidents involving recreational vessels to a level that accurately reflects current prices of boats and costs of repair.

BAIRAC is calling on the Coast Guard to initiate rulemaking that would change the threshold for reports of accidents involving only property damage from \$500 to \$2,000 and would amend the reportable conditions to include all accidents involving collisions of multiple vessels. The BLAs and the Coast Guard concur that a threshold of \$2,000 for those accidents involving only property damage would enable States' accident investigators to focus on reports of safety-related damage and eliminate most of the reports of cosmetic damage.

Data within the Boating Accident Report Database (BARD) for 1998 show that 1,718 reported multi-boat collisions involved only property damage. Of those 1,718, 1,002 involved property damage below the proposed threshold of \$2,000. Taking a closer look at the data, we discover that nearly 90% of those 1,002 involve property damage at or below a threshold of \$1,500. We consider most of these more cosmetic than safety-related. So, recognizing the need to reduce the number of reports for minor or cosmetic damage, the need to reduce the administrative burden on the

public and the States of reports for such damage, and the need for States' accident investigators to focus on safety-related damage, we do not plan to mandate reports of all multi-boat collisions.

The proposed threshold of \$2,000 for reports of accidents with only property damage would be the minimum set by Federal regulation, but States would remain free to impose stricter requirements. Thus, a State could require reports of accidents involving collisions of multiple vessels, even if they resulted only in property damage below the proposed threshold of \$2,000.

We have also determined that it is necessary to find an inflation index that tracks the trends in the boat-repair industry more accurately than does the GNP. The GNP is the total market value of all final goods and services produced in the U.S. for a given year. It comprises spending by all sectors of the economy. Therefore, the GNP deflator measures all changes in prices affecting consumers, private industry, and government.

The Producer Price Index (PPI) is an indicator of inflation that measures the average change over time of prices received by sellers of domestic goods and services. The data constituting the PPI are organized by industry and product, making it possible to find specific data about prices of repairs to non-military boats. These data track the specific changes in prices of repairs to recreational boats. As this rulemaking concerns these very prices, we believe the PPI to be more suitable for measuring the changes in those prices with an appropriate threshold of property damage for reports of accidents involving those vessels.

How We Calculate the New Threshold

For 2001 and beyond, we would use the PPI for Standard Industrial Classification (SIC) 3732, "Boat Building and Repairing; Boat repairing, non-military boats", to reckon the threshold. The new value for 2001, of \$2,000, would serve as the base value. To reckon the value of the threshold for 2002 using 2001 as the base year, one should run the following calculation:

(Base threshold for 2001) \times [(PPI for 2002) / (PPI for 2001)]
For example, if the preliminary estimate of the PPI by the Bureau of Labor Statistics for 2002 were 191.0, and for 2001 it were 189.0, the calculation would run as follows:

$\$2,000 \times (191.0/189.0) = \$2,021.16$
Since this amount is below \$2,050, we would round down to the nearest \$100. Therefore, the reporting threshold for 2002 would remain at \$2,000. If the amount had been \$2,050 or above,

though, we would have rounded up to the nearest \$100. In that case, the threshold would have risen to \$2,100. We would adjust the threshold according to the results. We would review the new threshold every year; when it increased by \$500, we would raise it appropriately.

Regulatory Evaluation

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget (OMB) has not reviewed this rule under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040 (February 26, 1979)). We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary.

Cost of Rule

This proposed rule would impose no monetary costs on the operator or owner of a recreational vessel or on anyone else. On the contrary, it would relieve either of costs that the current rule imposes.

Benefits of Rule

Raising the threshold of property damage for reports of accidents involving recreational vessels to \$2,000 for the year 2001 would benefit owners and operators of recreational vessels, and officials of States and the Coast Guard, by reducing the current burden of submitting and administering accident reports. There were 3,836 accidents involving only property damage reported in 1998. We estimate that the proposed threshold would have rendered 1,997 of those accidents non-reportable. We further estimate that it would have rendered about 25% of all 8,061 reported accidents non-reportable.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. "Small entities" include small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

Because it expects the effects of this rule to be minimal, the Coast Guard certifies under 5 U.S.C. 605(b) that this

rule would not have a significant economic impact on a substantial number of small entities. Furthermore, as private citizens own the vast majority of recreational vessels and are not small entities, the Regulatory Flexibility Act does not even apply to most of the public that would be regulated by this rule.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 [Pub. L. 104-121], we offer assistance to small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. For clarification of the new threshold, they can consult Bruce Schmidt, Program Management Division, Office of Boating Safety, Coast Guard, telephone 202-267-0955 (email: bschmidt@comdt.uscg.mil).

The Small Business and Agriculture Regulatory Enforcement Ombudsman and 10 Regional Fairness Boards were established to receive comments from small businesses about Federal enforcement. The Ombudsman will annually evaluate the enforcement and rate each agency's responsiveness to small business. If you wish to comment on enforcement by the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247).

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 [44 U.S.C. 3501-3520]. In fact, it should result in an actual reduction of paperwork as it would require reports of fewer accidents.

Federalism

We have analyzed this proposed rule under E.O. 13132 and have determined that it would not have sufficient implications for federalism to warrant the preparation of a Federalism Assessment. States would remain free to impose stricter requirements for reports of accidents involving recreational vessels.

Unfunded Mandates Reform Act and Enhancing the Intergovernmental Partnership

The Unfunded Mandates Reform Act of 1995 [2 U.S.C. 1531-1538] and E.O. 12875, Enhancing the Intergovernmental Partnership [58 FR 58093 (October 28, 1993)], govern the issuance of Federal rules that impose unfunded mandates. An unfunded mandate is a requirement that a State, local, or tribal government or the private sector incur direct costs without the Federal Government's

having first provided the funds to pay those costs. This proposed rule would not impose an unfunded mandate.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have implications for taking under E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Reform of Civil Justice

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of E.O. 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under E.O. 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule would not be an economically significant rule and would not create or condone an environmental risk to health or safety that may disproportionately affect children.

Environment

We have considered the environmental impact of this proposed rule and concluded that under figure 2-1, paragraph (34)(a), of Commandant Instruction M16475.1C, the rule is categorically excluded from further environmental documentation. The rule would merely adjust the threshold of property damage for reports of accidents involving recreational vessels. A Determination of Categorical Exclusion has been prepared and is available in the docket where indicated under ADDRESSES.

List of Subjects in 33 CFR Part 173

Marine safety, Reporting and recordkeeping requirements.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 173 as follows:

Subpart C—Casualty and Accident Reporting

1. The citation of authority citation for part 173 continues to read as follows:

Authority: 46 U.S.C. 6101, 12302; 49 CFR 1.46.

2. Revise § 173.55(a)(3) to read as follows:

§ 173.55 Report of casualty or accident.

(a) * * *

(3) Damage to vessels and other property totals more than \$2,000 an accident or there is a complete loss of any vessel; or

* * * * *

Dated: June 12, 2000.

Terry M. Cross,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Operations.

[FR Doc. 00-15530 Filed 6-19-00; 8:45 am]

BILLING CODE 4910-15-U

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FL-83-200009c; FRL-6719-4]

Approval and Promulgation of Implementation Plans; Florida: Approval of Revisions to the Florida State Implementation Plan; Reopening of Comment Period and Notice of Public Hearing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; announcement of public hearing and reopening of the comment period.

SUMMARY: EPA is announcing the date, time, and location of a public hearing to accept oral comments on EPA's proposed approval of revisions to the Florida State Implementation Plan (SIP) concerning revisions to the ozone air quality maintenance plans for the Jacksonville (Duval County) and Southeast Florida (Broward, Dade, and Palm Beach Counties) areas. This proposed revision removes the emission reduction credits attributable to the Motor Vehicle Inspection Program from the future year emission projections contained in those plans. EPA is also reopening the comment period for a proposed rule published March 17, 2000 (65 FR 14506) concerning this Florida SIP revision.

DATES: Written comments must be received by EPA on or before August 4, 2000. EPA will hold a public hearing at the following time and at the address listed below: July 20, 2000, at the South Florida Water Management District Auditorium, 3301 Gun Club Road, West Palm Beach, Florida, starting at 6:00 p.m.

ADDRESSES: Comments should be submitted to Joey Levasseur at the EPA, Region 4 Air Planning Branch, 61 Forsyth Street, SW, Atlanta, Georgia 30303

FOR FURTHER INFORMATION CONTACT: Joey Levasseur at 404/562-9035 (email at levasseur.joey@epa.gov).

SUPPLEMENTARY INFORMATION: On March 17, 2000, we solicited public comment on a proposal for approval of revisions to the Florida SIP concerning revisions

to the ozone air quality maintenance plans for the Jacksonville (Duval County) and Southeast Florida (Broward, Dade, and Palm Beach Counties) areas. This proposed revision removes the emission reduction credits attributable to the Motor Vehicle Inspection Program from the future year emission projections contained in those plans. In response to requests from the American Lung Association of Florida, Inc., Environmental Defense, and David B. Rivkin, Jr. as counsel for Environmental Systems Products, Inc., on April 13, 2000 (65 FR 19865), EPA extended the comment period until May 17, 2000. EPA subsequently received requests to extend the comment period further and to hold a public hearing.

Based on letters received in response to proposal, we believe there is significant public interest in the proposed Florida SIP revision. EPA has therefore decided to hold a public hearing on the proposed revision to the Florida SIP. The public hearing will be held on July 20, 2000, at the South Florida Water Management District Auditorium, 3301 Gun Club Road, West Palm Beach, Florida, starting at 6:00 p.m.

Persons planning to present oral testimony at the hearing should notify Joey Levasseur, EPA Region 4 Air Planning Branch, 61 Forsyth Street, SW, Atlanta, Georgia 30303, telephone 404/562-9035, email levasseur.joey@epa.gov no later than July 17, 2000. Oral testimony will be limited to five minutes for each presenter. Any member of the public may file a written statement before, during, or by the close of the comment period. Written statements (duplicate copies preferred) should be submitted to Joey Levasseur referencing Docket FL-83-200009c at the above address. A verbatim transcript of the hearing and written statements will be made available for copying during normal working hours at the Region 4 office listed in the address section. A reasonable charge may be assessed for copying of docket materials.

To accommodate the public hearing, we are also extending the deadline for receiving written public comments on the proposal until August 4, 2000, 15 days after the public hearing. Interested persons are invited to attend the public hearing and to comment on all aspects of EPA's proposed rulemaking.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements.
