SUPPLEMENTARY INFORMATION:

Title: State Right-of-Way Operations Manuals.

Type of Request: New information collection, OMB Number 2125-XXXX.

Abstract: The Federal Highway Administration (FHWA) issued a notice of proposed rulemaking on December 24, 1998, and a final rule for the Right-of-Way Program on December 21, 1999, that revised the rules governing the use of Federal-aid funds for right-of-way acquisition, property management, and project development. The regulation reduces Federal regulatory requirements and places primary responsibility for a number of approval actions at the state level. The State Right-of-Way Manuals have been used through the years to describe how the State Departments of Transportation (STD) plan to perform real estate acquisition, property management, and maintain the integrity of the highway and related transportation systems. These manuals will need to be revised to reflect the revisions contained in the FHWA final rule. The STDs will be required to update their manuals to reflect the changes in Federal requirements for programs administered under Title 23 U.S.C., and to submit their manuals to FHWA for approval.

Estimated Total Annual Burden: 4,000 total hours for the STDs in the 50

States, the District of Columbia and Puerto Rico.

Frequency: Each State will submit its updated Right-of-Way manual to FHWA for approval by January 1, 2001, and afterwards will certify at five-year intervals that the manual represents its current procedures or submit an updated manual.

Issued on: June 16, 2000.
