

*Monday, July 10, 2000, 10:00 a.m.—
Capacity Committee*

Location: Holiday Inn, Mansfield, 31 Hampshire Street, Mansfield, MA 02048; telephone (508) 339-2200.

The Capacity Committee will review analyses of proposals to allow more flexible transfer of fishing permits among fisheries and effort allocations in the multispecies fishery. One proposal would allow multispecies permit holders to acquire additional days-at-sea (DAS) from other permit holders with different rates of reduction of DAS on the transfer of active and inactive DAS. Two other proposals would allow the transfer of fishing permits among different fisheries but not allow vessels in the monkfish, scallop and multispecies to acquire additional DAS. A fourth proposal would reduce unused DAS by a small percentage each year unless the DAS were put under a freeze until groundfish stocks were rebuilt. The committee will make recommendations on these proposals at the Groundfish Committee meeting on July 19, 2000 and at the New England Council meeting on July 25-27, 2000.

*Tuesday, July 11, 2000, 10:00 a.m.—
Scientific and Statistical Committee*

Location: Comfort Inn Airport, 1940 Post Road, Warwick, RI 02886; telephone: (401) 732-0470.

The committee will review scientific information and analyses in the draft Stock Assessment and Fishery Evaluation (SAFE) Report for 1999-2000 prepared by the Herring Plan Development Team (PDT). The committee also will review and comment on the annual specifications recommendations of the PDT for the 2001 fishing year.

*Wednesday, July 12, 2000, 9:30 a.m.—
Atlantic Herring Oversight Committee*

Location: Comfort Inn Airport, 1940 Post Road, Warwick, RI 02886; telephone: (401) 732-0470.

The committee will review the draft annual Herring SAFE Report prepared by the Herring PDT, including the comments of the Scientific and Statistical Committee meeting developed on July 11. The committee also will review the annual specifications recommendations of the PDT on optimum yield from the fishery (OY) and total allowable catch (TACs) for each management area for the 2001 fishing year, and develop recommendations to the Council.

*Thursday, July 13, 2000, 9:30 a.m.—
Joint Groundfish Oversight Committee
and Groundfish Advisory Panel*

Location: Comfort Inn Airport, 1940 Post Road, Warwick, RI 02886; telephone (401) 732-0470.

The committee and advisors will conduct a joint meeting to continue development of management options for Amendment 13 to the Northeast Multispecies FMP. If not completed at the July 6 meeting, they will continue to refine the alternatives developed within the context of the status quo measures. They will also develop area management and sector allocation alternatives.

*Wednesday, July 19, 2000, 9:30 a.m.—
Joint Groundfish Oversight Committee
and Groundfish Advisory Panel*

Location: Holiday Inn Express, Harborfront Center, 110 Middle Street, Fairhaven, MA 02719; telephone (508) 997-1281.

The committee and advisors will conduct a joint meeting to continue development of management options for Amendment 13 to the Northeast Multispecies FMP. They will receive a report from the Council's Capacity Committee that may suggest approaches for addressing excess capacity and latent effort issues in the groundfish fishery. They will review these proposals and determine which should be analyzed for inclusion in Amendment 13. These groups also may receive reports from the Overfishing Definition Panel. The committee and advisors will complete development of alternatives for Amendment 13 that will be presented for Council consideration. Subject to Council approval of the alternatives, these will be further analyzed and developed into a document for public hearings.

Although non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

DEPARTMENT OF DEFENSE

Department of the Navy

Public Hearings for the Draft Environmental Impact Statement (DEIS) for the North Pacific Acoustic Laboratory (NPAL)

AGENCY: Department of the Navy, DOD.

ACTION: Notice.

SUMMARY: The Department of the Navy, Office of Naval Research (ONR), has prepared and filed with the U.S. Environmental Protection Agency (EPA) a DEIS for the reuse of the sound source and cable previously installed by the Acoustic Thermometry of Ocean Climate (ATOC) Project for the NPAL. Public hearings will be held to provide information and to receive oral and written comments on the DEIS. Federal, state and local agencies, and interested individuals are invited to be present or represented at the hearings.

DATES AND ADDRESSES: Public hearings will be held in: (1) Lihue, Kauai, HI on July 5, 2000 from 7 PM—9:30 PM at the Kauai Community College Dining Room, 3-1901 Kaunualii Highway; (2) Honolulu, HI on July 6, 2000 from 7 PM—9:30 PM at the Hawaii Imin

International Conference Center, East-West Center, 2nd Floor, Pacific Room, 1777 East-West Road, and (3) Kilauea, Kauai, HI on July 8, 2000 from 1:30 PM—4 PM at the Kilauea Neighborhood Center, 2460 Keneke Street.

The evening meetings in Lihue and Honolulu will consist of an informational presentation at 7 PM, followed by a public hearing at 8 PM. The afternoon meeting in Kilauea will consist of an informational presentation at 1:30 PM, followed by a public hearing at 2:30 PM.

FOR FURTHER INFORMATION CONTACT: Ms. Kathleen Vigness Raposa, telephone (401) 847-7508.

SUPPLEMENTARY INFORMATION: In accordance with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4345) and its implementing regulations (40 CFR parts 1500 to 1508), and in accordance with the Hawaii Environmental Impact Statement (EIS) Law (Chapter 343, Hawaii Revised Statutes), ONR has prepared and filed with the EPA a joint state-federal DEIS for the reuse of the sound source and cable previously installed for use in ATOC research for NPAL.

A Notice of Intent for this EIS was published in the **Federal Register** on June 15, 1999. Public scoping meetings were held in Hanalei, Kauai, HI, on June 29, 1999; in Lihue, Kauai, HI, on June 30, 1999; and in Honolulu, HI, on July 1, 1999.

The proposed action is reuse of the ATOC sound source and cable for NPAL, an ONR basic research project, which would combine: a second phase of research on the feasibility and value of large-scale acoustic thermometry; long-range underwater sound transmission studies; and marine mammal monitoring and studies.

Under the proposed action, the seabed power cable and sound source would remain in their present locations, and transmissions would continue for a period of five years with approximately the same signal parameters and transmission schedule used in the ATOC project. The action would be carried out by Scripps Institution of Oceanography, University of California, San Diego, which is the applicant for necessary state and federal permits, and by the Applied Physics Laboratory of the University of Washington.

The DEIS addresses the potential effects of the transmissions on the marine environment, including potential auditory, behavioral, and physiological effects on marine mammals and other marine creatures. Alternatives developed and analyzed in
