

The subject lands are administered pursuant to section 3 of the Taylor Grazing Act. Permittees in the Rockies Allotment are as follows: Robert Williams, P.O. Box 34, Teasdale, Utah 84773, Dyle Williams, P.O. Box 96, Teasdale, Utah 84773, Ted R. Taylor, HCR 61 Box 350, Fremont, Utah 84747, and Security Ranches, Gary Hallows, P.O. Box 13, Loa, Utah 84747. There are no grazing improvements of record on the subject lands. In accordance with 43 CFR 4110.4-2, the permittees shall be given two years prior notification before their grazing preferences may be reduced. Prior notification occurred upon publication of the Proposed Classification Decision in the **Federal Register** on July 10, 1998.

If these lands are clearlisted before July 10, 2000, the grazing may continue until that date. If the lands are clearlisted after July 10, 2000, this grazing use will be terminated at the time title to the land is transferred to the State. However, State law and School and Institutional Trust Land Administration procedures provide for the offering to holders of Bureau of Land Management grazing permits, licenses, or leases the first right to lease lands that are transferred to the State.

Threatened and Endangered Species and Cultural Resources Evaluations have been performed and the land approved for subject classification. Any cultural resources will be managed by the State of Utah in accordance with the State Historical Preservation Officer (SHPO).

A Mineral Report has been prepared to evaluate the mineral potential for the subject lands and to determine whether these lands are mineral in character. The lands are not encumbered by any mining claim, mineral lease, or authorized for mineral material disposal. The lands are not part of a Known Geothermal Resource Area, Known Geologic Structure, or any other known Leasing area. Strategic and critical mineral are not known or inferred to occur within the boundaries of the subject lands.

Rights-of-way granted by the Bureau of Land Management on the above lands will transfer with the land or may be reserved to the United States (see section 508 of FLPMA). Oil and gas leases (geothermal, other leasing act minerals) will remain in effect under the terms and conditions of the lease. (Upon expiration or termination of the leases, or any authorized extensions thereof, such rights shall automatically vest in the State.) Public lands classified by this notice are shown on maps on file and available for inspection in the Richfield Field Office.

For a period of 30 days from the date of publication in the **Federal Register**, this classification shall be subject to exercise of administrative review and modification by the Secretary of the Interior as provided for in 43 CFR 2461.3 and 2462.3. Interested parties may submit comments to the Secretary of the Interior, LLM 320, Washington, DC 20240.

Dated: June 12, 2000.

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Records Schedules; Availability and Request for Comments

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the

destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

**DATES:** Requests for copies must be received in writing on or before August 11, 2000. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

**ADDRESSES:** To request a copy of any records schedule identified in this notice, write to the Life Cycle Management Division (NWML), National Archives and Records Administration (NARA), 8601 Adelphi Road, College Park, MD 20740-6001. Requests also may be transmitted by FAX to 301-713-6852 or by e-mail to records.mgt@arch2.nara.gov. Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

**FOR FURTHER INFORMATION CONTACT:** Marie Allen, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 713-7110. E-mail: records.mgt@arch2.nara.gov.

**SUPPLEMENTARY INFORMATION:** Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its
