

FR 217). We are adding a citation to entries for two American Petroleum Institute (API) Recommended Practices (RP) in the table of Documents Incorporated by Reference and correcting a section of the regulations to incorporate by reference the two documents.

EFFECTIVE DATE: February 3, 2000. The incorporation by reference of publications listed in the regulation is approved by the Director of the **Federal Register** as of February 3, 2000.

FOR FURTHER INFORMATION CONTACT: Alexis London, Rules Processing Team, Engineering and Operations Division, (703) 787-1600.

SUPPLEMENTARY INFORMATION:

Background

The final regulations that are the subject of these corrections updated one

API document incorporated by reference (API RP 500) and added a new document incorporated by reference (API RP 505). These regulations affect all operators and lessees on the Outer Continental Shelf.

The regulation at 30 CFR 250.410(e) on safety precautions in mud-handling areas currently incorporates by reference the out-of-date document "API RP 500B." The final regulations should have revised § 250.410(e) to reference "API RP 500" or "API RP 505" as it did for various other sections of our regulations. The list of citations for API RP 500 and API RP 505 in the table of documents incorporated by reference in § 250.198(e) should have then included § 250.410(e).

Need for Correction

As published, the final regulations contain errors that may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the publication of the final regulations on January 4, 2000, which were the subject of FR Doc. 00-26, is corrected as follows:

§ 250.198 [Corrected]

On pages 218 and 219, in the table for § 250.198(e), the entries for API RP 500 and API RP 505 are corrected to read as follows:

Conforming Amendments**

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This rule makes editorial and technical changes throughout Title 33 of the Code of Federal Regulations (CFR) to update the title before it is recodified on July 1, 2000. It corrects addresses, updates cross-references, makes conforming amendments, and makes other technical corrections. This rule will have no substantive effect on the regulated public.

DATES: This final rule is effective June 30, 2000.

ADDRESSES: Documents as indicated in this preamble are available for inspection or copying at the Docket Management Facility, [USCG-2000-7223], U.S. Department of Transportation, room PL-401, 400 Seventh Street SW., Washington, DC, 20590-0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. SUPPLEMENTARY INFORMATION:

Discussion of the Rule

Each year Title 33 of the Code of Federal Regulations is recodified on July 1. This rule makes editorial changes throughout the title, corrects addresses, updates cross-references, and makes other technical and editorial corrections to be included in the recodification. Some editorial changes are discussed individually in the following paragraphs. This rule does not change any substantive requirements of existing regulations.

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. This rule consists only of corrections and editorial and conforming amendments to Title 33 of the Code of Federal Regulations. These changes will have no substantive effect on the public and publishing an NPRM and providing an opportunity for public comment is

unnecessary. Under 5 U.S.C. 553(d)(3), the Coast Guard finds that, for the same reasons, good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

Section 20.304

The Coast Guard published an Interim Rule, Rules of Practice, Procedure, and Evidence for Administrative Proceedings of the Coast Guard, on May 24, 1999 [USCG-1998-3472] [64 FR 28054]. We published a correction to the Interim Rule, on June 28, 1999, that corrected Table 20.304(D)—How To Serve Filed Documents. With the publication of the July 1, 1999, codification of 33 CFR, we discovered that the table was still printed incorrectly. This rulemaking sets out the table the way it was intended.

Sections 127.611, 127.1511, 154.500, Appendix A, B, and C to Part 154, and Sections 183.114, and 183.516

On December 1, 1999, the Coast Guard published a Direct Final Rule, Update of Standards from the American Society for Testing and Materials (ASTM) [USCG-1999-5151] [64 FR 67170]. On March 1, 2000, we published a confirmation of effective date for the rule [65 FR 10943]. Because we did not change the sections in the CFR where the standard numbers did not contain a year date, we are now adding a cross-reference back to the Incorporation by reference section in each part for each of the sections listed.

Section 151.19

The Frequency of Inspection Final Rule [USCG-1999-4976], published on February 9, 2000 (65 FR 6494), established a 5-year Certificate of Inspection cycle to harmonize the Coast Guard's inspections with internationally required certificates. We published the final rule to establish the frequency of inspection requirements to meet the International Convention for the Safety of Life at Sea, 1974, and the International Convention on Load Line compliance date of February 3, 2000. This rule changes section 151.19 to conform to the February final rule.

Section 153.205

This rule updates the addresses and telephone numbers in Table 1, Addresses and Telephone Numbers of Coast Guard District Offices and EPA Regional Offices.

Section 154.1035

This rule sets out paragraph (e)(3)(iii) with the correct location of the words "classified" and "classification". The

words are reversed in the current codification.

Regulatory Evaluation

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. It has not been reviewed by the Office of Management and Budget under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. As this rule involves internal agency practices and procedures, it will not impose any costs on the public.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

We have analyzed this rule under E.O. 13132 and have determined that this rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those costs. This proposed rule would not impose an unfunded mandate.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of E.O. 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under E.O. 13045, Protection of Children from Environmental Health Risks and Safety

Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Environment

We considered the environmental impact of this rule and concluded that, under figure 2-1, paragraph (34)(a) and (b) of Commandant Instruction M16475.IC, this rule is categorically excluded from further environmental documentation. This exclusion is in accordance with paragraphs (34)(a) and (b), concerning regulations that are editorial or procedural and concerning internal agency functions or organization. A "Categorical Exclusion Determination" is available in the docket where indicated under

This is normally the District Commander of the District in which the violation is believed to have occurred, or the District in which the reporting unit or agency is found. The report is reviewed to determine if there is sufficient evidence to establish a prima facie case. The case is closed in situations in which the investigation has established that a violation did not occur, the violator is unknown, or there is little likelihood of discovering additional relevant facts. If it is determined that a prima facie case does exist, a case file is prepared and forwarded to the Hearing Officer, with a recommended action. 50 CFR Part 648

[Docket No. 991228354–0078–02; I.D. 062300C]

Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Closure of Fishery for *Loligo* Squid

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.
ACTION: Closure.

SUMMARY: NMFS announces that the directed fishery for *Loligo* squid in the exclusive economic zone (EEZ) will be closed. Vessels issued a Federal permit to harvest *Loligo* squid may not retain or land more than 2,500 lb (1.13 mt) per trip of *Loligo* squid for the remainder of the quota period. This action is necessary to prevent the fishery from exceeding the Period II quota and allow for rebuilding of this overfished stock, while allowing for fishing throughout the year.

DATES: Effective 0001 hours, July 2, 2000, through 0001 hours, September 1, 2000.

FOR FURTHER INFORMATION CONTACT: Allison Ferreira, Fishery Management Specialist, 978–281–9103, fax 978–281–9135, e mail allison.ferreira@noaa.gov.

SUPPLEMENTARY INFORMATION: Regulations governing the *Loligo* squid fishery are found at 50 CFR part 648. The regulations require annual specifications for initial optimum yield as well as the amounts for allowable biological catch, domestic annual harvest (DAH), domestic annual processing, joint venture processing, and total allowable levels of foreign fishing for the species managed under the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan. The procedures for setting the annual initial specifications are described in § 648.21.

The 2000 specification of DAH for *Loligo* squid was set at 13,000 mt (65 FR 16341, March 28, 2000). This amount is allocated by trimester based on the following table.

TABLE 2.—*Loligo* 4-MONTH PERIOD ALLOCATIONS

4-month Period	Percent	Metric Tons
I (Jan–Apr)	42	5,460
II (May–Aug)	18	2,340
III (Sep–Dec)	40	5,200
Total	100	13,000

Section 648.22 requires the closure of the directed *Loligo* squid fishery in the EEZ when 90 percent of the DAH for *Loligo* squid is harvested in either Period I or II, or 95 percent is harvested in Period III. NMFS is further required to notify, in advance of the closure, the Executive Directors of the Mid-Atlantic, New England, and South Atlantic Fishery Management Councils; mail notification of the closure to all holders of *Loligo* squid permits at least 72 hours
