SUPPLEMENTARY INFORMATION:

Representatives of the Department of the Interior, the Department of Health and Human Services and the tribes developed a joint rule, 25 CFR part 900, to implement section 107 of the Indian Self-Determination and Education Assistance Act, as amended by, Public Law 103-413, the Indian Self-Determination Contract Reform Act of 1994. Section 107(a)(2)(A)(ii) of the Indian Self-Determination Contract Reform Act requires the joint rule to permit contracts and grants be awarded to Indian tribes without the unnecessary burden or confusion associated with two sets of rules and information collection requirements when there is a single program legislation involved. The burden hours for this collection have been reduced as a result of tribes contracting multiple programs under a single contract, as authorized under 25 CFR 900.8, tribes administering 'mature' contracts which require fewer reports and, tribes entering into Self-Governance 'compacts,' under which Self-Governance tribes may combine all programs under a single self-governance compact.

The information requirements for this joint rule represent significant differences from other agencies in several respects. Both the Bureau of Indian Affairs and the Indian Health Service let contracts for multiple programs whereas other agencies usually award single grants to tribes. Under the Indian Self-Determination and Education Assistance Act, as amended by the Indian Self-

Determination Contract Reform Act of 1994, tribes are entitled to contract and may renew contracts annually where other agencies provide grants on a discretionary/competitive basis.

The proposal and other supporting documentation identified in this information collection is used by the Department of the Interior and the Department of Health and Human Services to determine applicant eligibility, evaluate applicant capabilities, protect the service population, safeguard Federal funds and other resources, and permit the Federal agencies to administer and evaluate contract programs. Tribal governments or tribal organizations provide the information by submitting Public Law 93-638 contract or grant proposals to the appropriate Federal agency. No third party notification or public disclosure burden is associated with this collection.

Request for Comments: The Department of the Interior and the Department of Health and Human Services request comments on this information collection particularly concerning: (1) The necessity of the information collection for the proper performance of the agencies' functions; (2) whether this information collection duplicates a collection elsewhere by the Federal Government; (3) whether the burden estimate is accurate or could be reduced using technology available to all respondents; (4) if the quality of the information requested ensures its usefulness to the agency(ies); (5) if the instructions are clear and easily understood, leading to the least burden on the respondents. A Federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Please submit any comments to the contact in the **ADDRESSES** section. Please submit a copy of comments on this information collection to the Bureau of Indian Affairs by telefax to (202) 208-5113. You may also hand deliver written comments or view comments at the address found in "**FOR FURTHER INFORMATION CONTACT.**" You may obtain a copy of this information collection document and the OMB submission at no charge by a written request to the same address, by telefaxing a request to the above number, or by calling (202) 208-5727. Please identify the information collection by, OMB #1076-0136. We make the comments and names and addresses of commentators available for public review during regular business hours. If you wish us to withhold your name and address, you

must state this prominently at the beginning of your comments. We will honor your request to the extent allowable by law.

Burden Statement: Respondents may be required to respond from 1 to 12 times per year, depending upon the number of programs they contract from the Bureau of Indian Affairs and the Indian Health Service. In addition, each Subpart concerns different parts of the contracting process. For example, Subpart C relates to provisions of initial contract proposal contents. The burden associated with this would not be used when contracts are renewed. Subpart F describes minimum standards for the management systems used by Indian tribes or tribal organizations under these contracts. Subpart G addresses the negotiability of all reporting and data requirements in the contract.

Total annual burden: 238,992 hours.

Total number of respondents: 550.

Total number of responses: 5,507.

Dated: June 21, 2000.

Kevin Gover,

*Assistant Secretary—Indian Affairs,
Department of the Interior.*

Dated: April 26, 2000.

Michael H. Trujillo,

Assistant Surgeon General, Director, Indian Health Service, Department of Health and Human Services.

Information Collection Submitted to the Office of Management and Budget for Renewal Under the Paperwork Reduction Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: We have submitted the information collection requirements to renew approval of the collection of information for special use permit applications on national wildlife refuges in Alaska to OMB for approval under the provisions of the Paperwork Reduction Act of 1995.

DATES: Submit comments on or before July 31, 2000.

ADDRESSES: Send comments and suggestions on specific requirements directly to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Department of the Interior Desk Officer, 725 17th Street, NW, Washington, DC

20503; and a copy to our Information Collection Clearance Officer, U.S. Fish and Wildlife Service [MS 222 ARLSQ], 1849 C Street, NW, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT:

Leslie Marler, Management Analyst, Branch of Policy and Planning, Division of Refuges, (703) 358-2397; or Tony Booth, Refuge Program Specialist, Division of Refuges, Anchorage, AK (907) 786-3384.

SUPPLEMENTARY INFORMATION: We submitted the following proposed information collection clearance requirement to OMB for review and approval under the Paperwork Reduction Act of 1995 (Pub. L. 104-13). OMB has up to 60 days to approve or disapprove information collection. To ensure maximum consideration, OMB should receive public comments by July 31, 2000. We may not conduct or sponsor a collection of information, and a person is not required to respond to a request for information unless it displays a currently valid OMB control number. We previously published a 60-day notice inviting public comment on this information collection in the **Federal Register** on February 9, 2000 (65 FR 6388). We received no comments.

We invite comments on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The National Wildlife Refuge System Improvement Act of 1997 (Pub. L. 105-57) that amends the National Wildlife Refuge Administration Act of 1966 (16 U.S.C. 668 dd-ee) requires that we authorize economic or other special

privileges on any national wildlife refuge by permit only when we determine the activity will be compatible with the purposes for which the refuge was established and the mission of the National Wildlife Refuge System. The Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3101 *et seq.*) provides for the disposition and use of national wildlife refuges and other federally owned lands in Alaska. Title III of ANILCA identifies the purposes for each Alaska refuge and requires that all uses we authorize on them first be found to be compatible with the refuge purposes. Section 1307 of ANILCA contains two provisions concerning persons and entities who we are to give special rights and preferences with respect to providing "visitor services" on national wildlife refuges in Alaska and certain other Federal lands. Other sections of ANILCA allow us to permit uses on national wildlife refuges in Alaska under certain conditions.

We will provide the permit applications as requested by interested Alaska citizens. We will use information provided on the required written forms and/or verbal applications to determine if the proposed activity is compatible with refuge purposes and ensure that the applicant is eligible for a permit. In the case of competitively awarded permits, we will use the information to determine the most qualified applicant to receive benefits of a refuge permit. In the case of "1307" permits, we will use the information to determine whether the applicant is: A member of a Native Corporation; a local resident; engaged in adequately providing visitors services on or before January 1, 1979; or eligible to receive Cook Inlet Region rights.

We make provision in our general refuge regulations for public entry for specialized purposes, including economic activities such as the operation of guiding and other visitor services on refuges by concessionaires or cooperators under appropriate contracts or legal agreements (found in 50 CFR 25.61) or special use permits (found in 50 CFR 26.22(b), 26.25, 36.37, and 36.41). These rules provide the authorities and procedures for selecting permittees on Alaska refuges, the vast

majority of which are providers of services and facilities to the public. We will issue permits for a specific period as determined by the type and location of the use or visitor service provided.

We are making several minor modifications to the Special Use Permit application form:

1. On page one, Part 1 of the form, we changed cc:mail address to e-mail address.
2. On page two, Part 2 of the form, we eliminated Aleutian Islands Unit/Alaska Maritime NWR from the list of National Wildlife Refuge Code Acronyms because there is no need for separate entry for the Aleutian Islands Unit of the refuge.
3. On page two, Part 2 of the form, we also revised the list of Activity Codes to provide more effective and clearer identification of the types of commercial visitor service uses that we most commonly permit on Alaska refuges. We changed the activity codes from two-letter codes to three-letter codes.
4. On page three, Part 4 of the form, we revised the instructions that state, "List the MAKE, MODEL, WHEEL/FLOAT/SKI, COLOR and TAIL NUMBER of all the aircraft you own/lease/operate:" We added to this statement the phrase, "* * * that you will use in your proposed activity:" to clarify that we only need information about aircraft the applicant will use for activities permitted on the refuge.
5. In addition to the revisions identified above, we made several minor editorial changes on the application form for clarification and plain language requirements. The editorial revisions do not affect information requirements of the application.
