DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

Notice of Scoping Meetings and Site Visit and Soliciting Scoping Comments

Take notice that the following hydroelectric applications have been filed with Commission and are available for public inspection:

a. Type of Applications: New Major Licenses.
b. Projects: (1) the 103-foot-high and 433-foot-long concrete gravity Soda Dam that creates a 250 acre-feet usable storage capacity forebay; (2) a 26,000-foot-long flowline and surge tanks; and (3) a powerhouse with three units with total installed capacity of 33 MW. The Coke Development consists of: (1) a 26.5-foot-high and 141-foot-long concrete dam creating a 60-acre-foot forebay; (2) a 6,125-foot-long concrete and wood flume; (3) a 500-foot-long steel penstock; and (4) a powerhouse with a 7.5-MW unit.

c. Date filed: September 27, 1999.
d. Applicant: PacifiCorp.
e. Location: On the Bear River in Caribou and Franklin Counties, Idaho.
f. Filed Pursuant to: Federal Power Act, 16 USC 791(a)–825(s).
g. Applicant Contact: Randy Landolt, Director, Hydro Resources, PacifiCorp.
h. FERC Contact: Susan O’Brien, susan.obrien@ferc.fed.us, (202) 219–2840.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

The Commission’s Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

This application is not ready for environmental analysis at this time.

The existing Grace Development consists of: (1) a 51-foot-high and 180-foot-long rock filled timber crib dam that creates a 250 acre-feet usable storage capacity forebay; (2) a 26,000-foot-long flowline and surge tanks; and (3) a powerhouse with three units with total installed capacity of 33 MW. The Cove Development consists of: (1) a 26.5-foot-high and 141-foot-long concrete dam creating a 60-acre-foot forebay; (2) a 6,125-foot-long concrete and wood flume; (3) a 500-foot-long steel penstock; and (4) a powerhouse with a 7.5-MW unit.

The existing Oneida Project consists of: (1) the 111-foot-high and 456-foot-long concrete gravity Oneida Dam; (2) the Oneida Reservoir with an active storage of 10,880 acre-feet and a surface area of 480 acres; (3) an 16-foot-diameter, 2,240-foot-long flowline; (4) a surge tank; (5) three 12-foot-diameter, 120-foot-diameter, 120-foot-long steel penstocks; (6) the Oneida Powerhouse with three units with a total installed capacity of 30 MW; and (7) other appurtenances.

A copy of the application is available for inspection and reproduction at the Commission’s Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, DC 20426, or by calling (202) 208–1371. The application may be viewed on http://www.ferc.fed.us/rims.htm (call (202) 208–2222 for assistance). A copy is also available for inspection and reproduction at the address in item g. above.

m. Scoping Process

The Commission intends to prepare an Environmental Impact Statement (EIS) on the project in accordance with the National Environmental Policy Act. The EIS will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Scoping Meetings and Site Visit

A scoping meeting will be held on Tuesday, August 14, 2000 from 7:00 p.m. until 10 p.m. at the Caribou County Senior Citizens Center, 60 South Main Street, Soda Springs, Idaho. A project site visit will be scheduled for Tuesday, August 14, 2000 at 9 am, if there is any interest. If you would like to attend, please call Susan O’Brien, FERC Team Leader, at (202) 219–2840, no later than Thursday, July 27, 2000.

Copies of the Scoping Document (SDI) outlining the subject areas to be addressed in the EIS were distributed to the parties on the Commission’s mailing list. Copies of the SDI will be available at the scoping meeting in August or may be viewed on http://www.ferc.fed.us/
