National Primary Drinking Water Regulations: Public Notification Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; technical correction.

SUMMARY: The Environmental Protection Agency published in the **Federal Register** of May 4, 2000, final regulations to revise the public notification requirements that public water systems must follow under the Safe Drinking Water Act. Inadvertently, the May 4 document had several incorrect regulatory citations and other formatting problems. Today's action corrects the regulatory citations and the formatting problems.

DATES: Effective on June 30, 2000.

FOR FURTHER INFORMATION CONTACT: For technical inquiries, contact Carl B. Reeverts at (202) 260-7273 or e-mail:

reeverts.carl@epa.gov. Contact the Safe Drinking Water Hotline, toll free (800) 426-4791 for general information about the rule and this correction notice.

SUPPLEMENTARY INFORMATION: The EPA published final public notification regulations in the **Federal Register** of May 4, 2000 (65 FR 25981). Several incorrect citations and formatting errors in the May 4, 2000 document are corrected by today's action. Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making today's rule final without prior proposal and opportunity for public comment, because today's action only corrects formatting errors and minor citation errors in the final rule published in the **Federal Register** on May 4, 2000 (65 FR 25981). Thus, notice and public procedure are unnecessary. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(B). For the same reasons, EPA is making the provisions of this rule effective upon promulgation, as authorized under section 553(d) of the APA.

I. Corrections to the Regulation

Correction to Part 9 Table

The amendment to part 9 in the May 4 document (65 FR 26021-22) revised the table under § 9.1, OMB approvals under the Paperwork Reduction Act, to insert the OMB Control Number for the new and revised public notification requirements contained in the final public notification rule. The May 4 document inadvertently amended a § 9.1 table that had already been superceded by a separate regulatory action.

Correction to CFR Citations to Conform to New Public Notification Subpart

Amendment 3 of the May 4 document (65 FR 26022) revised references to the public notification regulations in other parts of 40 CFR Part 141 from the existing citation (§ 141.32) to the new Subpart Q. The May 4 document in several places inadvertently included the incorrect CFR citation.

Correction to Incorrect Citation in Amendment 16

Amendment 16 of the May 4 document (65 FR 26035) revised the reporting requirements under the Interim Enhanced Surface Water

Treatment Rule to conform to the revised public notification regulations. The May 4 document included an incorrect citation.

Correct Format in § 141.201–§ 141.210 To Italicize Questions

In accordance with the plain language format of the final public notification regulations, the requirements in the new Subpart Q under § 141.201 to § 141.210 were presented in question and answer format. To make the presentation as clear and easy to read as possible, EPA chose to italicize the questions to highlight the presentation of the requirements. Inadvertently, the May 4 document (65 FR 26035–26039) included some but not all of the questions in italicized form. This notice restores the questions to the italicized form as intended.

Correcting Formatting Errors in Appendix B to Subpart Q

Appendix B to Subpart Q presents the standard health effects language for each regulated contaminant. Public water systems are to include the standard health effects language in their public notices for violations of an MCL or treatment technique requirement. The contaminant list in Appendix B is grouped into the major contaminant categories for ease of reference. Inadvertently, Appendix B in the May 4 document (65 FR 26043–26048) contained formatting errors requiring correction.

A. PART 9—[CORRECTED]

1. On page 26021 in the third column, under the “Authority” paragraph, insert a comma between “1326” and “1330”.

3. On page 26022 in the first column, in the table in § 9.1, the following corrections are made: a. Under the first column of the table, “142.14(a)–(e)” is corrected to read “142.14(a)–(d)(7)” and “142.15(b)–(d)” is corrected to read “142.15(b)–(c)(3)”.

II. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and is therefore not subject to review by the Office of Management and Budget. Because the agency has made a “good cause” finding that this action is not subject to notice-and-comment requirements under the Administrative Procedure Act or any other statute [see discussion under “Supplementary Information”], it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), or to Sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104–4). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in Sections 203 and 204 of UMRA. This rule also does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13084 (63 FR 27655, May 10, 1998). This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant. For all of these regulatory assessment provisions, EPA notes that today’s notice only corrects unintended errors and omissions in an earlier rulemaking.

This action does not involve technical standards; thus, the requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. The rule also does not involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). In issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct, as required by Section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996). This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). EPA’s compliance

with these statutes and Executive Orders for the underlying rule is discussed in the May 4, 2000 **Federal Register** notice.

The Congressional Review Act (CRA) (5 U.S.C. 801 *et seq.*), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement. (5 U.S.C. 808(2)). As stated previously, EPA has made such a good cause finding, including the reasons therefore, and established an effective date of June 30, 2000. EPA will submit a report containing this rule and other required information to the U.S. Senate, U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C.804(2).
