National Primary Drinking Water Regulations: Public Notification Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; technical correction.

SUMMARY: The Environmental Protection Agency published in the **Federal Register** of May 4, 2000, final regulations to revise the public notification requirements that public water systems must follow under the Safe Drinking Water Act. Inadvertently, the May 4 document had several incorrect regulatory citations and other formatting problems. Today's action corrects the regulatory citations and the formatting problems.

DATES: Effective on June 30, 2000.

FOR FURTHER INFORMATION CONTACT: For technical inquiries, contact Carl B. Reeverts at (202) 260-7273 or e-mail:

reeverts.carl@epa.gov. Contact the Safe Drinking Water Hotline, toll free (800) 426-4791 for general information about the rule and this correction notice.

SUPPLEMENTARY INFORMATION: The EPA published final public notification regulations in the **Federal Register** of May 4, 2000 (65 FR 25981). Several incorrect citations and formatting errors in the May 4, 2000 document are corrected by today's action. Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making today's rule final without prior proposal and opportunity for public comment, because today's action only corrects formatting errors and minor citation errors in the final rule published in the **Federal Register** on May 4, 2000 (65 FR 25981). Thus, notice and public procedure are unnecessary. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(B). For the same reasons, EPA is making the provisions of this rule effective upon promulgation, as authorized under section 553(d) of the APA.

I. Corrections to the Regulation

Correction to Part 9 Table

The amendment to part 9 in the May 4 document (65 FR 26021-22) revised the table under § 9.1, OMB approvals under the Paperwork Reduction Act, to insert the OMB Control Number for the new and revised public notification requirements contained in the final public notification rule. The May 4 document inadvertently amended a § 9.1 table that had already been superceded by a separate regulatory action.

Correction to CFR Citations to Conform to New Public Notification Subpart

Amendment 3 of the May 4 document (65 FR 26022) revised references to the public notification regulations in other parts of 40 CFR Part 141 from the existing citation (§ 141.32) to the new Subpart Q. The May 4 document in several places inadvertently included the incorrect CFR citation.

Correction to Incorrect Citation in Amendment 16

Amendment 16 of the May 4 document (65 FR 26035) revised the reporting requirements under the Interim Enhanced Surface Water
