Statute and Regulations

Pursuant to sections 751(c) and 752 of the Act, an antidumping ("AD") or countervailing duty ("CVD") order will be revoked, or the suspended investigation will be terminated, unless revocation or termination would be likely to lead to continuation or recurrence of (1) Dumping or a countervailable subsidy, and (2) material injury to the domestic industry.

The reviews will be conducted pursuant to sections 751(c) and 752 of the Act. The Department's procedures for the conduct of sunset reviews are set forth in Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders, 63 FR 13516 (March 20, 1998) ("Sunset Regulations") and in 19 CFR Part 351 (1999) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98:3—Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders; Policy Bulletin, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

Filing Information

As a courtesy, we are making information related to sunset proceedings, including copies of the Sunset Regulations and Sunset Policy Bulletin, the Department's schedule of sunset reviews, case history information (e.g., previous margins, duty absorption determinations, scope language, import volumes), and service lists, available to the public on the Department's sunset internet website at the following address: "http://www.ita.doc.gov/import_admin/records/sunset/".

All submissions in the sunset reviews must be filed in accordance with the Department's regulations regarding format, translation, service, and certification of documents. These rules can be found at 19 CFR 351.303 (2000). Also, we suggest that parties check the Department's sunset website for any updates to the service list before filing any submissions. We ask that parties notify the Department in writing of any

additions or corrections to the list. We also would appreciate written notification if you no longer represent a party on the service list.

Because deadlines in a sunset review are, in many instances, very short, we urge interested parties to apply for access to proprietary information under administrative protective order ("APO") immediately following publication in the **Federal Register** of the notice of initiation of the sunset review. The Department's regulations on submission of proprietary information and eligibility to receive access to business proprietary information under APO can be found at 19 CFR 351.304–306 (see Antidumping and Countervailing Duty Proceedings: Administrative Protective Order Procedures; Procedures for Imposing Sanctions for Violation of a Protective Order, 63 FR 24391 (May 4, 1998)).

Information Required From Interested Parties

Domestic interested parties (defined in 19 CFR 351.102 (2000)) wishing to participate in the sunset reviews must respond not later than 15 days after the date of publication in the **Federal Register** of the notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth in the Sunset Regulations at 19 CFR 351.218(d)(1)(ii). In accordance with the Sunset Regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the orders without further review.

If we receive a notice of intent to participate from a domestic interested party, the Sunset Regulations provide that all parties wishing to participate in the sunset review must file substantive responses not later than 30 days after the date of publication in the **Federal Register** of the notice of initiation. The required contents of a substantive response are set forth in the Sunset Regulations at 19 CFR 351.218(d)(3). Note that certain information requirements differ for foreign and domestic parties. Also, note that the

Department's information requirements are distinct from the International Trade Commission's information requirements. Please consult the Sunset Regulations for information regarding the Department's conduct of sunset reviews.¹ Please consult the Department's regulations at 19 CFR Part 351 (2000) for definitions of terms and for other general information concerning antidumping duty order proceedings at the Department.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218(c).

Dated: June 16, 2000.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

Dean John A. Knauss Marine Policy Fellowship, National Sea Grant College Program

Purpose of the Fellowship Program

In 1979, the National Sea Grant Office (NSGO), NOAA, in fulfilling its broad educational responsibilities, initiated a program to provide a unique educational experience in the policies and processes of the Legislative and Executive Branches of the Federal Government to graduate students who have an interest in ocean, coastal and Great Lakes resources and in the national policy decisions affecting these resources. The U.S. Congress recognized the value of this program and in 1987, Public Law 100-220 stipulated the Sea Grant Federal Fellows Program was to be a formal part of the National Sea Grant College Program Act. The recipients are designated Dean John A. Knauss Marine Policy Fellows pursuant to 33 U.S.C. 1127(b).

Announcement

Fellows program announcements are sent annually to all participating Sea Grant institutions and campuses by the local sea Grant program upon receipt of notice from the NSGO.

Eligibility

Any student who, on September 26, 2000, is in a graduate or professional program in a marine or aquatic-related field at a United States accredited institution of higher education may apply to the NSGO through their local Sea Grant program. Applicants from states not served by a Sea Grant program should obtain further information by contacting the Knauss Fellows Program Manager at the NSGO. NOAA makes financial assistance funds available to the Sea Grant programs nationwide to implement the fellowship program. The National Sea Grant program is listed in the *Catalog of Federal Domestic Assistance* under number 11.417: Sea Grant Support.

How To Apply

Interested students should discuss this fellowship with their local Sea Grant Program Director. Applications must be submitted with signature to the local Sea Grant program by the deadline set in the announcement (usually early to mid-September). Each Sea Grant program may select and forward to the NSGO no more than five (5) applicants selected according to criteria used by the NSGO in the national competition.

Selected applications are to be received in the NSGO from the sponsoring Sea Grant program, no later than 5 p.m. EST on September 26, 2000. The competitive selection process and subsequent notification to the Sea Grant programs will be completed by October 25, 2000.

Stipend and Expenses

The local Sea Grant program receives and administers the overall award of \$38,000 per student on behalf of each Fellow selected from their program. Of this award, the local Sea Grant program provides \$32,000 to each Fellow for stipend and living expenses (per diem). The additional \$6,000 will be used to cover mandatory health insurance for the Fellow and moving expenses. In addition, any remaining funds shall be used during the Fellowship year, first to satisfy academic degree-related travel, and second for Fellowship-related travel. Indirect costs are not allowable for either the Fellowships or for any costs associated with the Fellowships [15 CFR 917.11(e), Guidelines for Sea Grant Fellowships]. During the fellowship, the host may provide supplemental funds for work-related travel by the fellow.

Application

An application will include:

(1) Personal and academic curriculum vitae (not to exceed two pages using 12 pt. font).

(2) A personal education and career goal statement which emphasizes the applicant's abilities and the applicant's expectations from the experience in the way of career development (1000 words or less). Placement preference in the Legislature or Executive Branches of the Government may be stated; this preference will be honored to the extent possible.

(3) Two letters of recommendation, including one from the student's major professor.

(4) A letter of endorsement from the sponsoring Sea Grant Program Director.

(5) Copy of all undergraduate and graduate student transcripts.

It is our intent that all applicants be evaluated only on their ability. Therefore, letters of endorsements from members of Congress, friends, relatives or others; as well as thesis papers, publications, or other additional supporting documents will not be accepted.

Selection Criteria

The selection criteria will include:

(1) Quality of the applicant's personal education and career goal statement.

(2) Endorsement of the applicant's Sea Grant program director, and support of the applicant's major professor and second letter of recommendation.

(3) Strength of academic performance and diversity of educational background including extracurricular activities, awards and honors (from the curriculum vitae and transcripts).

(4) Experience in marine or aquatic-related fields, oral and written communication skills, and interpersonal abilities. Relative weights of the evaluation criteria are equal.

Selection

Applicants will be individually reviewed and ranked, according to the criteria outlined above, by a panel appointed by the Director of the NSGO with input from the Sea Grant Association and the National Sea Grant Review Panel. The panel will include representation from the Sea Grant Association and the current, and possibly past, class of Fellows. Once the entire class is selected, based on the criteria listed, the Knauss Program Manager will group the top-ranked applicants in each category, legislative and executive, based upon the applicant's stated preference and/or judgement of the panel based upon material submitted. Academic discipline and geographic representation may be considered by the

National Sea Grant Office to provide overall balance. The number of fellows assigned to the Congress will be limited to 10.

Federal Policies and Procedures

Fellows receive funds directly from their sponsoring Sea Grant Program and are considered to be subrecipients of Federal assistance subject to all Federal laws and Federal and Commerce Department policies, regulations, and procedures applicable to Federal financial assistance awards.

Past Performance

Unsatisfactory performance under prior Federal awards may result in an application not being considered for funding.

Pre-Award Activities

If applicants incur any cost prior to an award being made, they do so solely at their own risk of not being reimbursed by the Government. Notwithstanding any verbal or written assurance they may have been received, there is no obligation on the part of Department of Commerce to cover pre-award costs.

No Obligation for Future Funding

If an application is selected for funding, Department of Commerce has no obligation to provide any additional future funding in connection with that award. Renewal of an award to increase funding or extend the period of performance is at the total discretion of Department of Commerce.

Delinquent Federal Debts

No award of Federal funds shall be made to a Fellows applicant who has an outstanding delinquent Federal debt or fine until either:

- i. The delinquent account is paid in full,
- ii. A negotiated repayment schedule is established and at least one payment is received, or
- iii. Other arrangements satisfactory to Department of Commerce are made.

Name Check Review

All non-profit and for-profit applicants are subject to a name check review process. Title III of the Defense Production Act (DPA) of 1950 authorizes various forms of Government assistance to encourage expansion of production capacity and supply of industrial resources essential to national defense. The DPA Amendments of 1992 provide for the testing, qualification, and use of industrial resources manufactured or developed with assistance provided under Title III of the DPA.

FAR 34.1 and 52.234-1 require contractors, upon the direction of the contracting officer, to test Title III industrial resources for qualification, and provide the test results to the Defense Production Act Office. The FAR coverage also expresses Government policy to pay for such testing and provides definitions, procedures, and a contract clause to implement the policy.
