Arkansas and Missouri Railroad Company—Lease and Operation Exemption—Union Pacific Railroad Company

Arkansas and Missouri Railroad Company (A&M), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to lease and operate 3.2 miles of rail line from Union Pacific Railroad Company (UP) at several locations near UP's Van Buren, Arkansas yard, in Sebastian County, AR. A&M states that there are no mileposts assigned to the area by UP.

Because A&M's projected annual revenues will exceed \$5 million, A&M has certified to the Board on June 8, 2000, that the required notice of the transaction was posted at the workplace of the employees on the affected lines on April 6, 2000. See 49 CFR 1150.42(e). A&M stated in its verified notice that the transaction was scheduled to be consummated on or about June 14, 2000.¹

¹ Due to the timing of A&M's certification to the Board, consummation under normal circumstances would have to be delayed until August 7, 2000 (60 days after A&M's certification to the Board that it had complied with the Board's rule at 49 CFR 1150.42(e)). In a decision in this proceeding served on June 29, 2000, however, the Board granted the request by A&M for waiver of the remainder of the 60-day period, as measured from the certification date to the Board, to allow consummation to occur as early as June 29, 2000, because rail employees
