

University, at (415) 338-3703, or Matt Menashes, Estuarine Reserves Division, Office of Ocean and Coastal Resources Management, NOAA, at (301) 713-3132, extension 165.

SUPPLEMENTARY INFORMATION: In 1993, NOAA approved the nomination of a proposed multi-component National Estuarine Research Reserve (NERR) for San Francisco Bay. Research reserves provide natural coastal habitats as field laboratories for baseline ecological studies and education programs. Research and monitoring programs are designed to enhance scientific understanding of the coastal environment and aid in resource management decision making.

In early 1999 the original proposal approved by NOAA was modified. The modified proposal meets the principles established for inclusion of areas in the National Estuarine Research Reserve System. These include:

1. Biogeographic and typologic contribution,
2. Ecological characteristics,
3. Value of the sites for research, monitoring, education and interpretation,
4. Site management feasibility including (a) land ownership, (b) the ability to sustain reserve resources for long term research and education use, and (c) partnership potential.

The San Francisco Bay NERR is proposed to be administered by San Francisco State University (SFSU) in cooperation with partner agencies including Solano County Farmlands and Open Space Foundation, East Bay Regional Park District, and the California Department of Parks and Recreation.

SFSU has developed an outline of a preliminary draft management plan. That outline identifies specific needs and priorities related to research, monitoring, education, and resource protection at the proposed reserve. It also identifies needs for an administrative plan, volunteer program and facilities development needs, public access, and visitor use policies.

At the public meetings, SFSU and NOAA will provide a synopsis of the process for developing a DEIS/DMP and will solicit comments on significant environmental issues that will be incorporated into a DEIS.

Interested parties who wish to submit suggestions, comments or substantive information regarding the scope or content of the proposed DEIS/DMP are invited to attend either of the above meetings. Parties who wish to respond in writing should do so by August 15, 2000, to Dr. Todd Hopkins, Romberg

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limits for certain categories are being adjusted for carryover, carryforward used, swing and the recrediting of unused carryforward.

In a Memorandum of Understanding, dated May 25, 2000, the Governments of the United States and Pakistan agreed to increase the 2000 base limits for Categories 666-P and 666-S. These limits have been decreased by the amount of carryforward used in 1999. Also, swing into Categories 666-P and 666-S from Category 315 is increased, due to the higher base limits they now have.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 64 FR 71982, published on December 22, 1999). Also see 64 FR 68335, published on December 7, 1999.
