50 CFR Parts 25 and 32

RIN 1018-AG01

2000-2001 Refuge-Specific Hunting and Sport Fishing Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: We propose to add national wildlife refuges (refuges) to the list of areas open for hunting and/or sport fishing, along with pertinent refuge-specific regulations for such activities; and amend certain regulations on other refuges that pertain to migratory game bird hunting, upland game hunting, big game hunting, and sport fishing for the 2000-2001 season.

DATES: You should submit comments on or before August 9, 2000.

ADDRESSES: Submit written comments to Chief, Branch of Planning and Policy, Division of Refuges, U.S. Fish and Wildlife Service, 1849 C Street, NW, MS 670 ARLSQ, Washington, DC 20240. See **SUPPLEMENTARY INFORMATION** for information on electronic submission.

FOR FURTHER INFORMATION CONTACT: Leslie A. Marler, (703) 358-2397; Fax (703) 358-2248.

SUPPLEMENTARY INFORMATION: The National Wildlife Refuge System Administration Act of 1966 (NWRSA) closes national wildlife refuges to all uses until we open them. The Secretary of the Interior (Secretary) may open refuge areas to any use, including hunting and/or fishing upon a determination that such uses are compatible with the purposes of the refuge. The action also must be in accordance with provisions of all laws applicable to the areas, must be consistent with the principles of sound fish and wildlife management and administration, and otherwise must be in the public interest. These requirements ensure that we maintain the biological integrity, diversity, and environmental health of the National Wildlife Refuge System (System) for the

benefit of present and future generations of Americans.

We review refuge hunting and fishing programs annually to determine whether to include additional refuges or whether individual refuge regulations governing existing programs need modifications, deletions, or additions made to them. Changing environmental conditions, State and Federal regulations, and other factors affecting wildlife populations and habitat may warrant modifications to ensure the continued compatibility of hunting and fishing programs and that these programs will not materially interfere with or detract from the fulfillment of the mission of the System or the purposes of the refuge.

You may find provisions governing hunting and fishing on national wildlife refuges in 50 CFR part 32. We regulate hunting and fishing on refuges to:

- Ensure compatibility with the purpose(s) of the refuge;
- Properly manage the fish and wildlife resource;
- Protect other refuge values; and
- Ensure refuge user safety.

On many refuges where we decide it is proper to open them for hunting and fishing, our general policy of adopting regulations identical to State hunting and fishing regulations is adequate in meeting these objectives. On other refuges, we must supplement State regulations with more restrictive Federal regulations to ensure that we meet our management responsibilities, as outlined under the section entitled "Statutory Authority." We issue refuge-specific hunting and sport fishing regulations when we open wildlife refuges to either migratory game bird hunting, upland game hunting, big game hunting, or sport fishing. These regulations list the wildlife species that you may hunt or those species subject to sport fishing, seasons, bag limits, methods of hunting or fishing, descriptions of open areas, and other provisions as appropriate. You may find previously issued refuge-specific regulations for hunting and fishing in 50 CFR part 32. In this rulemaking, we are promulgating many of the amendments to these sections to standardize and clarify the existing language of these regulations.

Some refuges make seasonal information available in brochures or leaflets to supplement these refuge-specific regulations, which we provide for in 50 CFR 25.31.

Plain Language Mandate

In this rule the vast majority of the revisions to the individual refuge units are to comply with a Presidential

mandate to use plain language in regulations and do not modify the substance of the previous regulations. These types of changes include using "you" to refer to the reader and "we" to refer to the Service and using the word "allow" instead of "permit" when we do not require the use of a permit for an activity.

Statutory Authority

The National Wildlife Refuge System Administration Act (NWRSA) of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee), and the Refuge Recreation Act (RRA) of 1962 (16 U.S.C. 460k-460k-4) govern the administration and public use of national wildlife refuges.

The National Wildlife Refuge System Improvement Act (NWRISA) of 1997 is the latest amendment to the NWRSA. It amends and builds upon the NWRSA in a manner that provides an improved "Organic Act" for the System similar to those that exist for other public lands. It serves to ensure that we effectively manage the System as a national network of lands, waters, and interests for the protection and conservation of our Nation's wildlife resources. The NWRSA states first and foremost that we focus the mission of the System on conservation of fish, wildlife, and plant resources and their habitat. This Act requires the Secretary, before initiating or allowing a new use of a refuge, or before expanding, renewing, or extending an existing use of a refuge, to determine that the use is compatible and promotes public safety. The NWRISA establishes as the policy of the United States that wildlife-dependent recreation, when it is compatible, is a legitimate and appropriate public use of the System, through which the American public can develop an appreciation for fish and wildlife. The NWRISA establishes six compatible wildlife-dependent recreational uses as the priority general public uses of the System. Those priority uses are: hunting, fishing, wildlife observation, wildlife photography, environmental education, and environmental interpretation.

The RRA authorizes the Secretary to administer areas within the System for public recreation as an appropriate incidental or secondary use only to the extent that doing so is practicable and not inconsistent with the primary purpose(s) for which Congress and the Service established the areas. This act requires that any recreational use of refuge lands be compatible with the primary purpose(s) for which we established the refuge and not

inconsistent with other previously authorized operations.

The NWRSA and RRA also authorize the Secretary to issue regulations to carry out the purposes of the acts and regulate uses.

We develop hunting and sport fishing plans for each refuge prior to opening it to hunting or fishing. In many cases, we develop refuge-specific regulations to ensure the compatibility of the programs with the purposes for which we established the refuge. We have ensured initial compliance with the NWRSA and the RRA for hunting and sport fishing on newly acquired refuges through an interim determination of compatibility made at the time of acquisition. This policy ensures that we make the determinations required by these acts prior to adding refuges to the lists of areas open to hunting and fishing in 50 CFR part 32. We ensure continued compliance by the development of Comprehensive Conservation Plans, long-term hunting and sport fishing plans, and by annual review of hunting and sport fishing programs and regulations.

In preparation for new openings, we include the following documents in the refuges' "opening package": an interim hunting and fishing management plan; a Section 7 determination pursuant to the Endangered Species Act that these openings will have no effect, or are not likely to have an adverse effect, on listed species or critical habitats; a letter of concurrence from the affected State(s); interim compatibility determinations; and refuge-specific regulations to administer the hunting and/or fishing programs. Upon review of these documents, we have determined that the opening of these national wildlife refuges to hunting and fishing is compatible with the principles of sound fish and wildlife management and administration and otherwise will be in the public interest.

We propose to allow the following wildlife-dependent recreational activities for the first time:

Hunting of migratory game birds on:

- Grand Bay National Wildlife Refuge, Alabama
 - Mandalay National Wildlife Refuge, Louisiana
 - Lake Umbagog National Wildlife Refuge, Maine and New Hampshire
 - McNary National Wildlife Refuge, Oregon
 - Balcones Canyonland National Wildlife Refuge, Texas
 - Lower Rio Grande Valley National Wildlife Refuge, Texas
 - Arid Lands National Wildlife Refuge Complex, Washington
- Upland game hunting on:

- Grand Bay National Wildlife Refuge, Alabama
 - Cameron Prairie National Wildlife Refuge, Louisiana
 - Lake Umbagog National Wildlife Refuge, Maine and New Hampshire
 - McNary National Wildlife Refuge, Oregon
 - Arid Lands National Wildlife Refuge Complex, Washington
- Big game hunting on:
- Grand Bay National Wildlife Refuge, Alabama
 - Mandalay National Wildlife Refuge, Louisiana
 - Lake Umbagog National Wildlife Refuge, Maine and New Hampshire
 - San Andres National Wildlife Refuge, New Mexico
 - McNary National Wildlife Refuge, Oregon and Washington
 - Lower Rio Grande Valley National Wildlife Refuge, Texas
 - Mackay Island National Wildlife Refuge, Virginia
 - Arid Lands National Wildlife Refuge Complex, Washington
- Sport fishing on:
- Atchafalaya National Wildlife Refuge, Louisiana
 - Bayou Cocardie National Wildlife Refuge, Louisiana
 - Rachel Carson National Wildlife Refuge, Maine
 - Sand Lake National Wildlife Refuge, South Dakota
 - Trinity River National Wildlife Refuge, Texas
 - Mackay Island National Wildlife Refuge, Virginia
 - Arid Lands National Wildlife Refuge Complex, Washington
- In accordance with NWRSA and the RRA, we have determined that these openings are compatible and consistent with the primary purposes for which we established the respective refuges.

We propose to remove Ankeny National Wildlife Refuge, Oregon, which had been open for migratory game bird hunting, from the list of refuges open for wildlife-dependent recreational activities.

We are correcting an administrative error that occurred when we inadvertently dropped "Sport Fishing" as an activity open to the public in Sand Lake National Wildlife Refuge in the State of South Dakota from 50 CFR 32.61. Sand Lake National Wildlife Refuge has been open to "Sport Fishing" since December 22, 1978.

We are making a technical correction to update 50 CFR 25.23 to reflect current information collection clearance numbers that the Office of Management and Budget (OMB) approved for: "Special Use Permit Application on National Wildlife Refuges Outside

Alaska" (1018-0102 which expires December 31, 2001), and "Special Use Permit Applications on National Wildlife Refuges In Alaska" (1018-0014, which expires August 31, 2000, and is currently at OMB for renewal).

Request for Comments

You may comment on this proposed rule by any one of several methods:

1. You may mail comments to: Chief, Branch of Planning and Policy, Division of Refuges, U.S. Fish and Wildlife Service, 1849 C Street, NW, MS 670 ARLSQ, Washington, DC 20240.

2. You may comment via the Internet to: Refuge_Specific_Comments@fws.gov. Please submit Internet comments as an ASCII file avoiding the use of special characters and any form of encryption. Please also include: "Attn: 1018-AG01" and your name and return address in your Internet message. If you do not receive a confirmation from the system that we have received your Internet message, contact us directly at (703) 358-1744.

3. You may fax comments to: Chief, Branch of Planning and Policy, Division of Refuges, (703) 358-2248.

4. Finally, you may hand-deliver comments to the address mentioned above.

We seek comments on this proposed rule and will accept comments by any of the methods described above. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the rulemaking record, which we will honor to the extent allowable by law. In some circumstances, we would withhold from the rulemaking record a respondent's identity, as allowable by law. If you wish for us to withhold your name and/or address, you must state this request prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Department of the Interior policy is, whenever practicable, to afford the public a meaningful opportunity to participate in the rulemaking process. We considered providing a 60-day rather than a 30-day comment period. However, we determined that an additional 30-day delay in processing these refuge-specific hunting and

fishing regulations would hinder the effective planning and administration of our hunting and fishing programs. That delay would jeopardize establishment of hunting and fishing programs this year, or shorten their duration. Many of these rules also relieve restrictions and allow the public to participate in recreational activities on a number of refuges. In addition, in order to continue to provide for previously authorized hunting opportunities while at the same time provide for adequate resource protection, we must be timely in providing modifications to certain hunting programs on some refuges.

When finalized, we will incorporate this regulation into Title 50 Code of Federal Regulations (50 CFR) parts 25 and 32. Part 25 contains the administrative provisions for the National Wildlife Refuge System. Part 32 contains general provisions and refuge-specific regulations for hunting and sport fishing on national wildlife refuges.

Clarity of This Regulation

Executive Order 12866 requires each agency to write regulations that are easy to understand. We invite your comments on how to make this rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the rule clearly stated? (2) Does the rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the rule (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more (but shorter) sections? (5) Is the description of the rule in the "Supplementary Information" section of the preamble helpful in understanding the rule? (6) What else could we do to make the rule easier to understand?

Regulatory Planning and Review

This document is not a significant rule subject to Office of Management and Budget review under Executive Order 12866. See explanation under Regulatory Flexibility Act.

a. This rule will not have an annual economic effect of \$100 million or adversely affect an economic sector, productivity, jobs, the environment, or other units of government. A cost-benefit and economic analysis is not required. This rule is administrative, legal, technical, and procedural in nature and makes minor modification to existing refuge public use programs. The rule will allow hunting on 10 refuges where we had prohibited hunting and allow fishing on 7 refuges where we had

prohibited that activity. We estimate that these changes will result in 9,440 additional visitor-hunting-days and 49,200 visitor-fishing-days. The appropriate measure for the net benefits of these changes is the additional net economic value experienced by the participants. The 1996 National Survey of Fishing, Hunting, and Wildlife-Associated Recreation measured net economic values by activity and region. Applying these estimates to the number of additional activity-days permitted by this rule yields an estimate of the national benefits from increased hunting of \$368,000 and from increased fishing of \$1.6 million (both in 1999 dollars). These estimates are below the threshold for a significant rule.

b. This rule will not create inconsistencies with other agencies' actions. Before proposing regulations, we coordinate recreational use on national wildlife refuges with State governments as well as other Federal agencies having adjoining or overlapping jurisdiction. The regulation is consistent with, and not less restrictive than, other agencies' rules.

c. This rule will not materially affect entitlements, grants, user fees, loan programs, or the rights and obligations of their recipients. The provisions of this rule only apply to persons involved in wildlife-dependent public use, including regulated hunting and sport fishing, on national wildlife refuges, which is a privilege and not a right. User fees will not change as a result of this rule.

d. This rule will not raise novel legal or policy issues. This rule continues the practice of requiring public use of refuges to be compatible with the primary purpose of the refuge.

Regulatory Flexibility Act

The Department of the Interior certifies that this rule will not have a significant economic effect on a substantial number of small entities such as businesses, organizations, and governmental jurisdictions in the area as defined under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). A final Regulatory Flexibility Analysis is not attached, and a Small Entity Compliance Guide is not required.

This rulemaking will not have a significant economic impact on a substantial number of small entities (refer to paragraph a. above for the net economic values). Congress created the National Wildlife Refuge System to conserve fish, wildlife, and plants and their habitats. They facilitated this conservation mission by providing Americans opportunities to visit and participate in compatible wildlife-

dependent recreation, including hunting, fishing, wildlife observation, wildlife photography, environmental education, and environmental interpretation as priority public uses on national wildlife refuges and to better appreciate the value of, and need for, fish and wildlife conservation.

This rule is administrative, legal, technical, and procedural in nature and provides for minor changes to the methods of hunting and fishing permitted but does not stop the overall use allowed. This rule will not significantly change the number of visitors using refuges or their spending and, therefore, will have no significant impact on the local economies in their vicinity.

Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act, as discussed in the Regulatory Planning and Review section above. This rule:

a. Does not have an annual effect on the economy of \$100 million or more [This regulation will affect only visitors at national wildlife refuges. It will cause a slight change in the number of visitors using the refuge (9,440 additional visitor-hunting days and 49,200 visitor-fishing days).];

b. Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

c. Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Unfunded Mandates Reform Act

Since this rule applies to public use of federally owned and managed refuges, it does not impose an unfunded mandate on State, local, or Tribal governments or the private sector of more than \$100 million per year. The rule does not have a significant or unique effect on State, local, or Tribal governments or the private sector. A statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*) is not required.

Takings (Executive Order 12630)

In accordance with Executive Order 12630, the rule does not have significant takings implications. This regulation will affect only visitors at national wildlife refuges and limit what they can do while they are on a refuge.

Federalism (Executive Order 13132)

As discussed in the Regulatory Planning and Review and Unfunded Mandates Reform Act sections above, this rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment under Executive Order 13132. In preparing this proposed rule, we worked with State governments.

Civil Justice Reform (Executive Order 12988)

In accordance with Executive Order 12988, the Office of the Solicitor has determined that the rule does not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order. The regulation will clarify established regulations and result in better understanding of the regulations by refuge visitors.

Paperwork Reduction Act

This regulation does not contain any information collection requirements other than those already approved by the Office of Management and Budget under the Paperwork Reduction Act. See 50 CFR 25.23 for information concerning that approval.

Section 7 Consultation

In preparation for new openings, we include Section 7 consultation documents approved by the Services' Ecological Services program in the refuge's "openings package" for Regional review and approval from the Washington Office. We reviewed the changes in hunting and fishing regulations herein with regard to Section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1531-1543). For the national wildlife refuges proposed to open for hunting and/or fishing the Service has determined that Bayou Cocodrie, Lake Umbagog, Grand Bay, Lower Rio Grande, and McNary will not likely adversely affect and Rachel Carson, Atchafalaya, San Andres, and Mandalay will not affect the continued existence of any endangered or threatened species or result in the destruction or adverse modification of habitat of such species within the System.

Arid Lands is opening with no Section 7 under an existing record of decision with the Department of Energy, who has primary jurisdiction.

We comply with Section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) when developing Comprehensive Conservation Plans, management plans for public use of refuges, and prior to implementing any new or revised public recreation program on a refuge as identified in 50

CFR 26.32. We also make determinations required by the Endangered Species Act on a case-by-case basis before the addition of a refuge to the lists of areas open to hunting or fishing as contained in 50 CFR 32.7.

National Environmental Policy Act

We analyzed this rule in accordance with the criteria of the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4332(C)) and 516 DM 6, Appendix 1. This rule does not constitute a major Federal action significantly affecting the quality of the human environment. An environmental impact statement/assessment is not required.

A categorical exclusion from NEPA documentation covers this amendment of refuge-specific hunting and fishing regulations since it is technical and procedural in nature, and the environmental effects are too broad, speculative, or conjectural to lend themselves to meaningful analysis (516 DM 2, Appendix 1.10).

Prior to the addition of a refuge to the list of areas open to hunting and fishing in 50 CFR part 32, we develop hunting and fishing plans for the affected refuges. We incorporate these proposed refuge hunting and fishing activities in the refuge Comprehensive Conservation Plans and/or step-down management plans, pursuant to our refuge planning guidance in 602 FW 1-3. We prepare these plans in compliance with section 102(2)(C) of NEPA, and the Council on Environmental Quality's regulations for implementing NEPA in 40 CFR parts 1500-1508. We invite the affected public to participate in the review, development, and implementation of these plans.

50 CFR Part 32

Fishing, Hunting, Reporting and recordkeeping requirements, Wildlife, Wildlife refuges.

For the reasons set forth in the preamble, we propose to amend Title 50, Chapter I, subchapter C of the Code of Federal Regulations as follows:

PART 25—[AMENDED]

1. The authority citation for part 25 continues to read as follows:

Authority: 5 U.S.C. 301; 16 U.S.C. 460k, 664, 668dd, and 715i, 3901 *et seq.*; and Pub. L. 102-402, 106 Stat. 1961.

2. By revising § 25.23 to read as follows:

§ 25.23 What are the general regulations and information collection requirements?

The Office of Management and Budget has approved the information collection requirements contained in subchapter C, parts 25, 32, and 36 under 44 U.S.C. 3501 *et seq.* and assigned the following clearance numbers: Special Use Permit Applications on National Wildlife Refuges in Alaska (SUP-*AK*), clearance number 1018-0014; Special Use Permit Applications on National Wildlife Refuges Outside Alaska (SUP), clearance number 1018-0102. See § 36.3 of this subchapter for further information on Special Use Permit Applications on National Wildlife Refuges in Alaska. We are collecting the information to assist us in administering these programs in accordance with statutory authorities that require that recreational uses be compatible with the primary purposes for which the areas were established. We require the information requested in the application form for the applicant to obtain a benefit. We estimate the public reporting burden for the SUP application form to be 30 minutes per response. This includes time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments on the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 222 ARLSQ, Washington, DC 20240 (1018-0014 or 1018-0102).

PART 32—[AMENDED]

3. The authority citation for part 32 continues to read as follows:

Authority: 5 U.S.C. 301; 16 U.S.C. 460k, 664, 668dd-668ee, and 715i.

§ 32.7 [Amended]

- 4. In § 32.7 by:
 - a. Alphabetically adding “Grand Bay National Wildlife Refuge” in the State of Alabama;
 - b. Revising the listing of “Walnut Creek National Wildlife Refuge” under the State of Iowa to read “Neal Smith National Wildlife Refuge;”
 - c. Alphabetically adding “Lake Umbagog National Wildlife Refuge” in the State of Maine;

- d. Alphabetically adding “Lake Umbagog National Wildlife Refuge” in the State of New Hampshire;
 - e. Alphabetically adding “San Andres National Wildlife Refuge” in the State of New Mexico;
 - f. Removing “Ankeny National Wildlife Refuge” in the State of Oregon;
 - g. Revising the listing of “Klamath Forest National Wildlife Refuge” to read “Klamath Marsh National Wildlife Refuge” in the State of Oregon.
 - h. Alphabetically adding “McNary National Wildlife Refuge” in the State of Oregon;
 - i. Alphabetically adding “Lower Rio Grande Valley National Wildlife Refuge” in the State of Texas;
 - j. Alphabetically adding “Trinity River National Wildlife Refuge” in the State of Texas;
 - k. Alphabetically adding “Mackay Island National Wildlife Refuge” in the State of Virginia; and
 - l. Alphabetically adding “Arid Lands National Wildlife Refuge Complex” in the State of Washington.
