SUPPLEMENTARY INFORMATION:

I. Abstract

This mandatory reporting requirement expires November 30, 2000, and is being renewed under authority of 50 CFR Part 622.4. The wreckfish fishery for the South Atlantic is managed under an Individual Transferable Quota System. Under this system fishermen are issued a share of the fishery and an individual annual quota. Shares are issued by certificate and may be bought and sold. Buying and selling of shares are not completed until the transfer is recorded by the National Marine Fisheries Service (NMFS). The information in this collection is necessary so the NMFS can record the sale and thereby monitor the fishery to provide for better conservation and management.

II. Method of Collection

When shares in the wreckfish fishery are sold, information concerning the sale is recorded on the back of the share certificate and sent to the NMFS. The transfer of ownership is recorded and new share certificates issued.
