

and allows information for separate topics to be integrated to form a single, unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic-policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983 permitting levels of economic well-being and changes in these levels to be measured over time.

The 2000 Panel is currently scheduled for just over one year and will include 3 waves of interviewing. We are considering extending the panel to include 9 waves. A request for OMB clearance of the core questions and Wave 4 topical modules will be submitted if the panel is extended. Approximately 11,500 households are in the 2000 Panel. We estimate that each household will contain 2.1 persons, yielding 24,150 interviews in each wave. Interviews take 30 minutes on average. If the 2000 Panel is extended, three waves of interviewing would occur in the 2000 Panel during FY 2001. The total annual burden for 2000 Panel SIPP interviews would be 36,255 hours in FY 2001.

The topical modules for the 2000 Panel Wave 4 would collect information about:

- Annual Income and Retirement Accounts
- Child Care
- Work Schedule
- Taxes
- Children's Well-Being

Wave 4 interviews would be conducted from February 2001 through May 2001.

A 10-minute reinterview of 750 persons is conducted at each wave to ensure accuracy of responses. Reinterviews would require an additional 375 burden hours in FY 2001.

An additional 1,050 burden hours is requested in order to continue the SIPP Methods Panel testing which will be conducted during the period of Wave 4 interviewing. The test targets SIPP Wave 1 items and sections that require thorough and rigorous testing in order to improve the quality of core data.

II. Method of Collection

The SIPP is designed as a continuing series of national panels of interviewed

households that are introduced every few years with each panel having durations of 1 to 4 years. All household members 15 years old or over are interviewed using regular proxy-respondent rules. During the 2000 panel, respondents are interviewed at 4-month intervals making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit will be followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be interviewed; however, if these individuals move, they are not followed unless they happen to move along with a Wave 1 sample individual.

III. Data

OMB Number: 0607-0865.

Form Number: SIPP/CAPI Automated Instrument.

Type of Review: Regular.

Affected Public: Individuals or Households.

Estimated Number of Respondents: 24,150 persons per wave.

Estimated Time Per Response: 30 minutes per person on average.

Estimated Total Annual Burden Hours: 37,650.

Estimated Total Annual Cost: The only cost to respondents is their time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for the Office of Management and Budget approval of this information collection; they also will become a matter of public record.

Dated: July 10, 2000.

Madeleine Clayton,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

Census Bureau

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau
Department of Commerce.

Title: Annual Survey of Local Government Finances (School Systems).

Form Number(s): F-33, F-33-1, F-33-L1, F-33-L2, F-33-L3.

Agency Approval Number: 0607-0700.

Type of Request: Revision of a currently approved collection.

Burden: 3,737 hours.

Number of Respondents: 3,500.

Avg Hours Per Response: 1.1 hours average over all forms.

Needs and Uses: The Census Bureau collects education finance data as part of its Annual Survey of State and Local Governments. This survey is the only comprehensive source of public fiscal data collected on a nationwide scale using uniform definitions, concepts and procedures. The collection covers the revenues, expenditures, debt, and assets of all public school systems. This data collection has been coordinated with the National Center for Education Statistics (NCES). The NCES uses this collection to satisfy its need for school system level finance data.

Information on the finances of our public schools is vital to assessing their effectiveness. This data collection makes it possible to access a single database to obtain information on such things as per pupil expenditures and the percent of state, local, and federal funding for each school system. Recently, as exemplified by the establishment of the America 2000 education goals, there has been increased interest in improving the Nation's public schools. One result of this intensified interest has been a significant increase in the demand for school finance data.

In this request, six new "special processing" items have been added to the F-33 data collection form for state

payments made on behalf of the school systems. These items will make it possible for expenditure data to be more accurately reported at the functional level. Additionally, we are adding two new data collection forms. Form F-33-L2 is a supplemental letter that we will send to the school systems whose state education agencies cannot provide indebtedness information. Form F-33-L3 is a supplemental letter that we will send to the school systems whose state education agencies cannot provide assets and indebtedness information. This letter combines the items requested on the forms F-33-L1 and F-33-L2.

Affected Public: State, local, or Tribal government.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Sections 161 and 182.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at LEngelme@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: July 7, 2000.

Madeleine Clayton,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

Bureau of Export Administration

Technical Advisory Committees; Notice of Recruitment of Private-Sector Members

Summary: Six Technical Advisory Committees (TACs) advise the Department of Commerce on the technical parameters for export controls applicable to dual-use commodities and technology and on the administration of those controls. The TACs are composed of representatives from industry and Government representing diverse points of view on the concerns of the exporting community. Industry representatives are selected from firms producing a broad range of goods, technologies, and software presently controlled for

national security, foreign policy, non-proliferation, and short supply reasons or that are proposed for such controls, balanced to the extent possible among large and small firms.

TAC members are appointed by the Secretary of Commerce and serve terms of not more than four consecutive years. The membership reflects the Department's commitment to attaining balance and diversity. TAC members must obtain secret-level clearances prior to appointment. These clearances are necessary so that members can be permitted access to the classified information needed to formulate recommendations to the Department of Commerce. Each TAC meets approximately 4 times per year. Members of the Committees will not be compensated for their services.

The six TACs are responsible for advising the Department of Commerce on the technical parameters for export controls and the administration of those controls within the following areas: Information Systems TAC: Control List Categories 3 (electronics—semiconductor section), 4 (computers), and 5 (telecommunications and information security); Materials TAC: Control List Category 1 (materials, chemicals, microorganisms, and toxins); Materials Processing Equipment TAC: Control List Category 2 (materials processing); Regulations and Procedures TAC: the Export Administration Regulations (EAR) and procedures for implementing the EAR; Sensors and Instrumentation TAC: Control List Categories 3 (electronics—instrumentation section) and 6 (sensors and lasers); Transportation and Related Equipment TAC: Control List Categories 7 (navigation and avionics), 8 (marine technology), and 9 (propulsion systems, space vehicles, and related equipment).

To respond to this recruitment notice, please send a copy of your resume. Please use the fax number or e-mail address below.

Deadline: This Notice of Recruitment will be open for one year from its date of publication in the **Federal Register**.

For More Information Contact: Ms. Lee Ann Carpenter on (202) 482-2583. Resumes may be faxed to her at (202) 501-8024 or e-mailed to her at lcarpent@bxa.doc.gov

Dated: July 6, 2000.

R. Roger Majak,

Assistant Secretary for Export Administration.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 34-2000]

Proposed Foreign-Trade Zone— Pensacola/Escambia County, Florida Area Application and Public Hearing

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the Pensacola-Escambia County Promotion and Development Commission, a Florida public corporation, to establish a general-purpose foreign-trade zone at sites in the Pensacola and Escambia County, Florida area, within/adjacent to the Pensacola Customs port of entry. The application was submitted pursuant to the provisions of the FTZ Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on July 6, 2000. The applicant is authorized to make the proposal under Section 288.36, Florida Statutes 1999.

The proposed new zone would consist of five sites covering 1,660 acres in the Escambia County and Pensacola metropolitan area: *Site 1* (40 acres)—Port of Pensacola (owned by the City of Pensacola), 700 S. Barracks Street, Pensacola; *Site 2* (1,400 acres)—Pensacola Regional Airport complex (owned by the City of Pensacola), 2430 Airport Boulevard, Pensacola; *Site 3* (70 acres)—Pensacola Shipyard Marine Complex (owned by FDC Holdings, Inc.), 700 South Myrick Street, Pensacola; *Site 4* (10 acres)—FDC Industrial Warehouse site (owned by FDC Holdings, Inc.), 10 Spruce Street, Pensacola; and, *Site 5* (140 acres)—Century Industrial Park (owned by the Town of Century), Escambia County Road 4 and Industrial Boulevard, Century. *Site 4* is in a brownfield redevelopment area that is being funded by EPA and the State of Florida. *Site 5* is located in an enterprise zone.

The application indicates a need for additional foreign-trade zone services in the Pensacola and Escambia County, Florida area. Several firms have indicated an interest in using zone procedures for warehousing/distribution of such items as forest products, paper products, cabinets, marine electrical systems and components, and custom modified gas chromatography equipment for the petroleum, chemical and petrochemical industries. Specific manufacturing approvals are not being sought at this time. Requests would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations, a member of the FTZ Staff
