Fisheries of the Northeastern United States Northeast Multispecies; Framework Adjustment 33 to the Northeast Multispecies Fishery Management Plan; Reporting Requirement

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; effectiveness of collection-of-information requirement.

SUMMARY: NMFS announces approval by the Office of Management and Budget (OMB) of a collection-of-information requirement contained in Framework Adjustment 33 to the Northeast Multispecies Fishery Management Plan (FMP) and issues a final rule to make effective the restrictions and related prohibitions contained in Framework 33 for charter/party vessel operators fishing in the Gulf of Maine closed areas and the Nantucket Lightship Closed Area. Charter/party vessels are required to obtain a certificate in exchange for access to the Gulf of Maine closed areas. As a condition of the certificate, the vessel owner must agree to abide by charter/party regulations and to not utilize days at sea during the 3 months covered by the certificate. This final rule also codifies the OMB control number for the approved information collection in 50 CFR part 902. The intent of this final rule is to inform the public of the effective date of the charter/party vessel requirements and publish the OMB control number for the related collection-of-information requirement. **DATES:** Sections 648.14(b)(2), 648.81(g)(2)(iii), and 648.89(e) published at 65 FR 21658 (April 24, 2000) and 15 CFR 902.1 are effective on August 28, 2000.

ADDRESSES: Any comments regarding burden-hour estimates for collection-of-information requirements contained in this final rule should be sent to Patricia Kurkul, Regional Director, Northeast Regional Office, National Marine Fisheries Service, One Blackburn Drive, Gloucester, MA 01930, and to the Office of Information and Regulatory Affairs,

Office of Management and Budget, Washington, DC 20503 (ATTN: NOAA Desk Officer).

FOR FURTHER INFORMATION CONTACT: Rick Pearson, Fishery Policy Analyst, 978–281–0279.

SUPPLEMENTARY INFORMATION: A final rule that implemented the measures contained in Framework 33 to the Northeast Multispecies FMP was published in the **Federal Register** on April 24, 2000 (65 FR 21658), and most of the measures were made effective on May 1, 2000. However, because OMB approval of the reporting requirement contained in Framework 33 had not yet been received as of the effective date of that rule, effectiveness of the Charter/party vessel requirements and related prohibitions contained in the framework was delayed. OMB approval for those measures was received on June 20, 2000. Consequently, this rule makes §§ 648.14(b)(2), 648.81(g)(2)(iii), and 648.89(e), which were codified in the April 24, 2000, final rule, effective.

NOAA codifies its OMB control numbers for information collection at 15 CFR part 902. Part 902 collects and displays the control numbers assigned to information collection requirements of NOAA by OMB pursuant to the Paperwork Reduction Act (PRA). This final rule codifies OMB control number 0648–0412 for §§ 648.81 and 648.89.

Under NOAA Administrative Order 205–11, dated December 17, 1990, the Under Secretary for Oceans and Atmosphere, NOAA, has delegated to the Assistant Administrator for Fisheries, NOAA, the authority to sign material for publication in the **Federal Register**.

Classification

This rule has been determined to be not significant for the purposes of Executive Order 12866.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB control number.

This rule contains a collection-of-information requirement subject to the PRA that has been approved by OMB under 0648–0412. The estimated time per response for a telephone call to request a Multispecies Charter/party Gulf of Maine Closed Area Exemption Certificate is 2 minutes.

The estimated response time includes the time needed for reviewing instructions, searching existing data sources, gathering and maintaining the

data needed, and completing and reviewing the collection of information. Send comments regarding these reporting burden estimates or any other aspect of the collection-of-information, including suggestions for reducing the burden, to NMFS and OMB (see ADDRESSES).

SUPPLEMENTARY INFORMATION:

Notice Clarifying Filing Procedures for Order No. 637 Compliance Filings

In Order No. 637-A, issued on May 19, 2000,¹ the Federal Energy Regulatory Commission (Commission) established procedures for filing *pro forma* tariff sheets in compliance with the order electronically through Internet E-Mail. Pipelines are to make the required filings on June 15, July 17, and August 15, 2000.² According to the

¹ Regulation of Short-Term Natural Gas Transportation Services and Regulation of Interstate Natural Gas Transportation Services, Order No. 637-A, 65 FR 35706, 35764 (Jun. 5, 2000), III FERC Stats. & Regs. Regulations Preambles ¶ 31,099, at 31,649 (May 19, 2000).

² Regulation of Short-Term Natural Gas Transportation Services, 91 FERC ¶ 61,020 (2000).

procedures, pipelines may file the electronic *pro forma* tariff sheets through Internet E-Mail to 637FASTR@ferc.fed.us in the following format: on the subject line, specify the name of the filing entity; in the body of the E-Mail, specify the name, telephone number, and E-Mail address of a contact person; the *pro forma* tariff sheets should be attached to the E-Mail message. Pipelines not filing using Internet E-Mail are to file the *pro forma* tariffs on diskette along with the paper filing and must label the diskette as containing *pro forma* tariff sheets.

During the first set of compliance filings, questions about the procedures were raised. The following is intended to clarify the procedures for the last two sets of filings.

1. To identify the Pro Forma tariff sheets, the word “Pro Forma” should appear on each sheet before the volume name, e.g., Pro Forma Second Revised Volume No. in the upper left hand side of each sheet. The word Pro Forma need not appear before the sheet number on the upper right hand side of each sheet.

2. The E-mail file containing the Pro Forma tariff sheets should be labeled <company name, or abbreviation, limited to two words> followed by 637.asc. For example, Columbiagulf637.asc; MIGC637.asc; or Transco637.asc is acceptable.

3. A diskette containing an electronic copy of the notice of filing is not required for the initial Order No. 637 compliance filing. A basket notice will be issued identifying all pipelines filing on July 17 and August 15, 2000. However, if the initial Order No. 637 application is amended, the amended filing must contain a diskette with a copy of the notice. The electronic notice for an amended application should not be filed as part of the E-mail filing which should only contain the Pro Forma tariff sheets.

4. For the purpose of paginating tariff sheets, the Pro Forma tariff sheet is for informational purposes and is not an effective tariff sheet. The Pro Forma tariff sheet cannot be superseded, so the pagination of any subsequent live tariff filing should be made as if the Pro Forma Sheet had not been filed.

David P. Boergers,

Secretary.
