

considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, and the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Mr. Michael T. Markley (telephone 301/415-6885) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes to the agenda, etc., that may have occurred.

Dated: July 11, 2000.

Howard J. Larson,

Acting Associate Director for Technical Support, ACRS/ACNW.

NUCLEAR REGULATORY COMMISSION

Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission has issued a revision to a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the Commission's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

Revision 1 of Regulatory Guide 1.54, "Service Level I, II, and III Protective Coatings Applied to Nuclear Power Plants," provides guidance on practices and programs that are acceptable to the NRC staff for the selection, application, qualification, inspection, and maintenance of protective coatings applied in nuclear power plants. This guide endorses multiple standards of the American Society for Testing and Materials to provide this guidance.

Comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time. Written comments may be submitted to the Rules and Directives Branch, Division of Administrative Services, Office of

Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. For further information on the guide, contact A.W. Serkiz at (301) 415-6563 or by email at <AWS@NRC.GOV>.

Regulatory guides are available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC. Recent regulatory guides, both draft and active, may be read or downloaded from the NRC website at <http://www.nrc.gov>. Single copies of regulatory guides may be obtained free of charge by writing the Reproduction and Distribution Services Section, OCIO, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by fax to (301) 415-2289, or by email to <DISTRIBUTION@NRC.GOV>. Issued guides may also be purchased from the National Technical Information Service on a standing order basis. Details on this service may be obtained by writing NTIS, 5285 Port Royal Road, Springfield, VA 22161. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 6th day of July 2000.

For the Nuclear Regulatory Commission.

Margaret V. Federline,

Deputy Director, Office of Nuclear Regulatory Research.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Draft Supplementary Changes to Revision 8 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors;" Notice of Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability and extension of comment period.

SUMMARY: On March 20, 2000 (65 FR 15020), the Nuclear Regulatory Commission (NRC) issued for public comment and voluntary use, on a trial basis, a draft supplementary change to Revision 8 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The Commission uses NUREG-1021 to provide policy and guidance for the development, administration, and grading of written examinations and operating tests used to determine the qualifications of individuals who apply for operator and senior operator licenses at nuclear power plants pursuant to the Commission's regulations. NUREG-

1021 provides similar guidance for verifying the continued qualifications of licensed operators when the staff determines that NRC requalification examinations are necessary.

Based upon the small number of examinations that have thus far been prepared using the revised examination guidance, the NRC has decided to extend the trial use and public comment period for the draft supplementary change in order to allow additional opportunities for feedback that will support the issuance of the final supplement. This delay in preparing the final supplement has also created an opportunity to solicit comments on some additional changes that will bring NUREG-1021 into conformance with Revision 3 of Regulatory Guide (RG) 1.8, "Qualification and Training of Personnel for Nuclear Power Plants," which has been published since the original draft supplement was issued on March 20, 2000. Revision 3 of RG 1.8 has revised a long-standing regulatory position regarding operator license eligibility by endorsing, with additions, exceptions, and clarifications, the 1993 version of ANSI/ANS 3.1, "Selection, Qualification, and Training of Personnel for Nuclear Power Plants."

The draft supplement and the newly issued addendum are available for review via the NRC Public Electronic Reading Room (<http://www.nrc.gov/NRC/ADAMS/index.html>), on the NRC's Operator Licensing web site (<http://www.nrc.gov/NRC/REACTOR/OL/OLguidance.html>), and at the NRC Public Document Room, 2120 L Street NW, Washington, DC. If you do not have electronic access to NRC documents, you may request a single copy of the draft supplement by writing to the Office of the Chief Information Officer, Reproduction and Distribution Services Section, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001 (Facsimile: 301-512-2289). Telephone requests cannot be accommodated. NUREG documents are not copyrighted, and Commission approval is not required to reproduce them.

The draft supplement is being implemented on a voluntary, trial basis. The NRC will evaluate any comments and recommendations that are received and any lessons that are learned during the trial period, incorporate any additional changes, as appropriate, and, thereafter, publish final Supplement 1 for general use.

DATE: The comment period ends October 31, 2000. Comments received after this date will be considered if it is practical to do so, but the staff is able

to assure consideration only for comments received on or before this date.

ADDRESSES: Written comments may be submitted to the Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. You may also provide comments via the NRC's Operator Licensing web site (<http://www.nrc.gov/NRC/REACTOR/OL/OLguidance.html>). Copies of comments received may be examined on the NRC Public Electronic Reading Room (<http://www.nrc.gov/NRC/ADAMS/index.html>) and at the NRC Public Document Room, 2120 L Street NW, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. S. Guenther by telephone at (301) 415-1056, or by e-mail sxg@nrc.gov.

Dated at Rockville, Maryland, this 6th day of July 2000.

For the Nuclear Regulatory Commission.

Glenn M. Tracy,

Chief, Operator Licensing, Human Performance and Plant Support Branch, Division of Inspection Program Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension: Rule 17g-1; SEC File No. 270-208; OMB Control No. 3235-0213.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 [44 U.S.C. 3501-3520], the Securities and Exchange Commission (the "Commission") has submitted to the Office of Management and Budget ("OMB") a request for extension of approval of rule 17g-1 [17 CFR 270.17g-1] under the Investment Company Act of 1940 (the "Act").

Rule 17g-1 governs the fidelity bonding of officers and employees of registered management investment companies ("funds") and their advisers. Rule 17g-1 requires, in part, the following:

- *Independent Directors' Approval Requirements.* At least annually, the independent directors of a fund must approve the form and amount of the fund's fidelity bond. Rule 17g-1 provides a schedule of minimum

amounts for fidelity bonds based on a fund's size. The independent directors also must approve the amount of any premium paid for any "joint bond" covering multiple funds or certain other affiliates of the fund.

- *Fidelity Bond Content*

Requirements. The fidelity bond must provide that it shall not be cancelled, terminated or modified except upon 60-days written notice to the affected party and to the Commission. In addition, a joint bond must provide that the fidelity insurance company will provide all funds covered by the bond with (i) a copy of the bond and any amendments to the bond; (ii) a copy of any formal filing of a claim on the bond; and (iii) notification of the terms of the settlement on any claim prior to execution of that settlement.

- *Joint Bond Agreement Requirement.*

A fund that is insured by a joint bond must enter into an agreement with all other parties insured by the joint bond regarding recovery under the joint bond.

- *Required Filings with the*

Commission. Upon execution of a fidelity bond or any amendment thereto, a fund must file with the Commission a copy of: (i) the executed fidelity bond; (ii) the resolution of the fund's independent directors approving the fidelity bond; and (iii) a statement as to the period for which the fidelity bond premiums have been paid. In the case of a joint bond, a fund also must file a copy of: (i) a statement showing the amount of a single insured bond the fund would have maintained under the rule had it not been named under a joint bond; and (ii) each agreement between the fund and all other insured parties. A fund also must notify the Commission in writing within 5 days of any claim and settlement on a claim made under a fidelity bond.

- *Required Notices to Directors.* A fund must notify by registered mail each member of its board of directors of (i) any cancellation, termination or modification of the fidelity bond at least 45 days prior to the effective date; and (ii) the filing or settlement of any claim under the fidelity bond when the notification is filed with the Commission.

Rule 17g-1's independent directors' annual review requirements, fidelity bond content requirements, joint bond agreement requirement and required notices to directors are designed to ensure the safety of fund assets against losses due to the conduct of persons who may obtain access to those assets. These requirements also facilitate oversight of a fund's fidelity bond. The rule's required filing with the Commission are designed to assist the

Commission in monitoring funds' compliance with the fidelity bond requirements.

The Commission staff estimates that approximately 3500 funds are subject to the requirements of rule 17g-1, and that on average a fund spends approximately one hour per year complying with the rule's paperwork requirements. The Commission staff therefore estimates the total annual burden of the rule's paperwork requirements to be 3500 hours.

These estimates of average burden hours are made solely for the purposes of the Paperwork Reduction Act. These estimates are not derived from a comprehensive or even a representative survey or study of Commission rules. The collection of information required by rule 17g-1 is mandatory and will not be kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Please direct general comments regarding the information above to: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; and (ii) Michael Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Comments must be submitted to OMB within 30 days of this notice.

Dated: July 11, 2000.

Margaret H. McFarland,

Deputy Secretary.
