[Docket No. 000211039-0039-01; I.D. 071400D]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the West Yakutat District of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific ocean perch in the West Yakutat District of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2000 total allowable catch (TAC) of Pacific ocean perch in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), July 14, 2000, through 2400 hrs, A.l.t., December 31, 2000.

FOR FURTHER INFORMATION CONTACT: Thomas Pearson, 907-481-1780, fax 907-481-1781 or tom.pearson@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2000 TAC of Pacific ocean perch for the West Yakutat District was established as 840 metric tons (mt) in the Final 2000 Harvest Specifications of Groundfish for the GOA (65 FR 8298, February 18, 2000). See § 679.20(c)(3)(ii).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2000 TAC for Pacific ocean perch in the West Yakutat District will be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 790 mt, and is setting aside the remaining 50 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed

fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pelagic shelf rockfish in the West Yakutat District of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately to prevent overharvesting the 2000 TAC of Pacific ocean perch for the West Yakutat District of the GOA. A delay in the effective date is impracticable and contrary to the public interest. Further delay would only result in overharvest. NMFS finds for good cause that the implementation of this action should not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 14, 2000.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Central Aleutian District of the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific ocean perch in the Central Aleutian District of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2000 total allowable catch (TAC) of Pacific ocean perch in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), July 15, 2000, through 2400 hrs, A.l.t., December 31, 2000.

FOR FURTHER INFORMATION CONTACT:

Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2000 TAC of Pacific ocean perch for the Central Aleutian District was established as 3,247 metric tons (mt) in the Final 2000 Harvest Specifications of Groundfish for the BSAI (65 FR 8282, February 18, 2000). See § 679.20(c)(3)(iii).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2000 TAC for Pacific ocean perch in the Central Aleutian District will be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 2,947 mt, and is setting aside the remaining 300 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific ocean perch in the Central Aleutian District of the BSAI.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately to prevent overharvesting the 2000 TAC of Pacific ocean perch for the Central Aleutian District of the BSAI. A delay in the effective date is impracticable and contrary to the public interest. Further delay would only result in overharvest. Fisheries of the Exclusive Economic Zone Off Alaska; Emergency Interim Rules to Implement Major Provisions of the American Fisheries Act; Extension of Expiration Dates; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Emergency interim rules; correction.

SUMMARY: This document corrects Table 1 of the extension of expiration dates for the emergency interim rules to implement major provisions of the American Fisheries Act, which in part revises 2000 final harvest specifications.

DATES: The correction for the interim final rule published January 28, 2000, (65 FR 4520) is effective July 20, 2000, through January 16, 2001.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907-586-7228.

SUPPLEMENTARY INFORMATION: This document contains corrections to the interim final rule for the extension of the expiration dates of emergency interim rules to implement the American Fisheries Act. The extension of the effective date of an interim final rule provides inshore pollock cooperatives with allocations of pollock

for the second half of the 2000 fishing year and maintains sideboard restrictions to protect participants in other Alaska fisheries from negative impacts as a result of fishery cooperatives formed under the AFA.

Correction

In the interim final rule, Fisheries of the Exclusive Economic Zone Off Alaska, Emergency Interim Rules to Implement the American Fisheries Act: Extension of Expiration Dates, published on June 23, 2000 (65 FR 39107), FR Doc. 00-15857, corrections are made as follows:

1. In the document, Emergency Interim Rules to Implement the American Fisheries Act: Extension of Expiration Dates, published on June 23, 2000 (65 FR 39107), FR DOC 00-15857, on page 39109, mathematical errors were made in Table 1. Table 1 is corrected to read as follows:

* * * * *

TABLE 1.—FINAL C/D SEASON BERING SEA SUBAREA POLLOCK ALLOCATIONS TO THE COOPERATIVE AND OPEN ACCESS SECTORS OF THE INSHORE POLLOCK FISHERY. AMOUNTS ARE EXPRESSED IN METRIC TONS

	C/D season TAC	C season inside SCA ¹	D season inside SCA
Cooperative sector			
Vessels > 99 ft	n/a	n/a	53,502
Vessels ≤ 99 ft	n/a	n/a	8,192
Total	274,200	37,016	61,695
Open access sector	17,953	2,424	4,039 ²
Total inshore	292,153	39,440	65,734

¹ Steller sea lion conservation area established at § 679.22(a)(11)(iv).
² SCA limitations for vessels less than or equal to 99 ft LOA that are not participating in a cooperative will be established on an inseason basis in accordance with § 679.22(a)(11)(iv)(D)(2) which specifies that “the Regional Administrator will prohibit directed fishing for pollock by vessels catching pollock for processing by the inshore component greater than 99 ft (30.2 m) LOA before reaching the inshore SCA harvest limit during the A, B and D seasons to accommodate fishing by vessels less than or equal to 99 ft (30.2 m) inside the SCA for the duration of the inshore seasonal opening.”
