

collection of information is estimated to average about 1.56 hours per response. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: 432.

Frequency of response: On occasion.

Estimated total/average number of responses for each respondent: One.

Estimated total annual burden hours: 675.

Estimated total annual burden costs: \$40,727.

VI. Are There Changes in the Estimates from the Last Approval?

There is a decrease of 139 hours (from 814 hours to 675 hours) in the total estimated respondent burden compared with that identified in the information collection request most recently approved by OMB. This change reflects a lower estimate of the number of employees at contracting firms that need to obtain clearance to access TSCA CBI.

VII. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
