NATIONAL COUNCIL ON DISABILITY

Sunshine Act: Meeting

TYPE: Community briefings.

AGENCY: National Council on Disability.

SUMMARY: This notice sets forth the schedule of the forthcoming community briefings of the National Council on Disability. Notice of this meeting is required under Section 522b(e)(1) of the

Government in the Sunshine Act, (P.L. 94-409).

BACKGROUND: In May and June 2000, NCD conducted a think tank and civil rights retreat in Washington, DC, June 27-29, 2000. From those meetings a disability civil rights agenda was developed that includes a strategic action plan for disability civil rights enforcement for the next decade. The purpose of these 13 community briefings is to share and solicit input on the plan from grassroots stakeholders in every region of the country.

AGENCY MISSION: The National Council on Disability is an independent federal agency composed of 15 members appointed by the President and confirmed by the U.S. Senate. Its overall purpose is to promote policies, programs, practices, and procedures that guarantee equal opportunity for all people with disabilities, regardless of the nature or severity of the disability; and to empower people with disabilities to achieve economic self-sufficiency, independent living, and inclusion and integration into all aspects of society.

ACCOMMODATIONS: Those needing interpreters or other accommodations should notify the National Council on Disability prior to this meeting.

ENVIRONMENTAL ILLNESS: People with environmental illness must reduce their exposure to volatile chemical substances in order to attend this meeting. In order to reduce such exposure, we ask that you not wear perfumes or scents at the meeting. We also ask that you smoke only in designated areas and the privacy of your room. Smoking is prohibited in the meeting room and surrounding area.

OPEN MEETING: These community briefings of the National Council on Disability will be open to the public.

Records will be kept of all National Council on Disability proceedings and will be available after the meeting for public inspection at the National Council on Disability.

Signed in Washington, DC, on July 19, 2000.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-443]

In the Matter of United Illuminating Company (Seabrook Station, Unit 1); Order Approving Application Regarding Restructuring of United Illuminating Company

I

United Illuminating Company (UI) holds 17.5-percent ownership interest in Seabrook Station, Unit 1. Ten other investor-owned and municipal entities unaffiliated with UI are co-owners of Seabrook Station, Unit 1.

In connection with its ownership interest, UI is a co-holder of Facility Operating License No. NPF-86 issued by the U.S. Nuclear Regulatory Commission (NRC) pursuant to 10 CFR Part 50 on March 15, 1990, for Seabrook Station, Unit 1. Under this license, North Atlantic Energy Service Corporation, an affiliate of Northeast Utilities, has the exclusive authority to operate Seabrook Station, Unit 1. Seabrook Station is located in Rockingham County, New Hampshire.

II

Pursuant to 10 CFR 50.80, UI filed an application dated February 17, 2000, which was supplemented by letters dated March 1, April 24, April 28, and May 10, 2000 (collectively herein referred to as the application). In the application, UI informed the Commission that it was in the process of implementing a corporate restructuring under which UIL Holdings Corporation (Holdings) would become the parent corporation to, and sole owner of UI. In addition, unregulated subsidiaries of UI would become direct or indirect subsidiaries of Holdings. UI would continue to hold its respective ownership percentage of and possession only license for Seabrook Station, Unit 1. UI would remain an "electric utility" as defined in 10 CFR 50.2, engaged in the generation, transmission, and distribution of electric energy for wholesale and retail sale. No physical

changes to the facility or operational changes are being proposed in the application, and none of the other co-owners of Seabrook Station, Unit 1, are involved in the proposed restructuring of UI. UI requested the Commission's approval of the indirect transfer of the license as held by UI to Holdings, to the extent effected by the proposed corporate restructuring, pursuant to 10 CFR 50.80. Notice of this request for approval was published in the **Federal Register** on May 8, 2000 (65 FR 26640). No hearing requests were received.

Under 10 CFR 50.80, no license shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission gives its consent in writing. Upon review of the information submitted in the application, and other information before the Commission, the NRC staff has determined that the proposed corporate restructuring will not affect the qualifications of UI as a holder of the license, and that the indirect transfer of the license, to the extent effected by the restructuring, is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission, subject to the conditions set forth herein. These findings are supported by a Safety Evaluation dated July 18, 2000.

III

Accordingly, pursuant to Sections 161b, 161i, 161o, and 184 of the Atomic Energy Act of 1954 (the Act), as amended, 42 U.S.C. 2201(b), 2201(i), 2201(o), and 2234; and 10 CFR 50.80, *it is hereby ordered* that the application regarding the proposed corporate restructuring of UI and the indirect transfer of the license held by UI is approved, subject to the following conditions:

(1) UI shall provide the Director of the Office of Nuclear Reactor Regulation a copy of any application, at the time it is filed, to transfer (excluding grants of security interests or liens) from UI to its proposed parent or to any other affiliated company, facilities for the production, transmission, or distribution of electric energy having a depreciated book value exceeding ten percent (10%) of UI's consolidated net utility plant, as recorded on UI's books of account, and (2) should the corporate restructuring of UI not be completed by June 30, 2001, this Order shall become null and void, provided, however, on application and for good cause shown, such date may be extended.

This Order is effective upon issuance.

For further details with respect to this action, see the initial application dated February 17, 2000, and supplements

thereto dated March 1, April 24, April 28, and May 10, 2000, and the Safety Evaluation dated July 18, 2000, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.NRC.gov>).

Dated at Rockville, Maryland this 8th day of July, 2000.

For the Nuclear Regulatory Commission.

Samuel J. Collins,

Director, Office of Nuclear Reactor Regulation.
