

conspicuous notification of any change in service provider, including notification to the customer that a new provider has begun providing service,” (2) § 64.2401(a)(2)(ii) and (3) § 64.2401(d). The existing provisions of §§ 64.2401(a)(1), (a)(2)(i) and the portion of (a)(2) requiring “[w]here charges for two or more carriers appear on the same telephone bill, the charges must be separated by service provider,” will continue to take effect on April 1, 2000. Nothing in this order modifies the effective dates of existing §§ 64.2401(b) and (c). Upon their effective date, the rules, as amended, will supercede the existing rules. We take this action because we find that requiring carriers to comply with the existing rules for a short time prior to the effective date of today’s amendments would be unduly burdensome and that it could result in the very sort of consumer confusion that today’s amendments seek to avoid.”

BILLING CODE 6712-01-P

Atmospheric Administration (NOAA), Commerce.

ACTION: Extension and revision of emergency interim rules; revision to 2000 final harvest specifications; correction.

SUMMARY: This document contains a correction to the emergency interim rules implementing the American Fisheries Act (AFA) for the 2000 fishing year that was published in the **Federal Register** on June 23, 2000.

DATES: This correction is effective July 26, 2000.

FOR FURTHER INFORMATION CONTACT: Kent Lind, 907-586-7228 or kent.lind@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS published an extension and revision of emergency interim rules in the **Federal Register** on June 23, 2000 (65 FR 39107). Emergency interim rules, published on January 5, 2000, and January 28, 2000, were extended through December 24, 2000, and January 16, 2001, respectively. These actions included collection-of-information requirements subject to the Paperwork Reduction Act (PRA); however, PRA statements were inadvertently omitted.

Correction

In the final rule Emergency Interim Rules to Implement the American Fisheries Act; Extension of Expiration Dates published in 65 FR 39107, June 23, 2000, FR Doc. 00-15857, on page 39110, add to the Classification section in column 2 following the paragraph beginning “Because prior notice and opportunity for public comment * * *”, the following two paragraphs to read as follows:

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject

to the requirements of the PRA, unless that collection of information displays a currently valid OMB control number.

This rule extends collection-of-information requirements subject to the PRA. These requirements have been approved by OMB under control number 0648-0393. Public reporting burden for these collections of information is estimated to average 2 hours per permit application for a mothership, inshore processor, inshore cooperative, or catcher vessel permit; and 30 minutes for a replacement vessel permit application. These estimates include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding these burden estimates, or any other aspect of these data collections, including suggestions for reducing the burden, to NMFS (see **ADDRESSES**) and to OMB at the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC, 20503 (Attention: NOAA Desk Officer).

Dated: July 19, 2000.
