

Transportation Report, or by other collection and dissemination methods. As the Board previously has noted, its goal is ultimately to provide comprehensive and contemporaneous transaction reports to the market.⁵

b. Description of Proposed Report

The proposed Comprehensive Transaction Report would provide information on individual municipal securities transactions. Data about each trade on the proposed Report would be similar to that on the current Daily Transaction Report. For each trade, the proposed Report would show the trade date, the CUSIP number of the issue traded, a short issue description, the par value traded, the time of trade reported by the dealer, the price of the transaction, and the dealer-reported yield of the transaction, if any. Each transaction would be categorized as a sale by a dealer to a customer, a purchase from a customer, or an inter-dealer trade.

C. Impact of Proposed Report on Transparency

The proposed Comprehensive Transaction Report would represent a substantial increase in the number of trades on which information is made available. An average of about 29,000 transactions per day would be included, which is more than three times as many as are included in the current T+1 daily reports. The number of issues reported would increase from about 1,600 on a typical day to about 14,000.⁶

In addition to information on infrequently traded issues, the proposed Report also would provide information on two other types of trades not in the current Daily Transaction Reports: trades reported late (after trade date), and corrected trades (trades reported incorrectly on trade date that subsequently are corrected by the dealer). These would improve the accuracy of the reported information as well as make it more comprehensive.⁷

⁵ See Securities Exchange Act Release No. 42090 (November 2, 1999), 64 FR 60865 (November 8, 1999).

⁶ These trade volume statistics are based on February 2000 market activity.

⁷ To enable the Board to compile a comprehensive trades database for enforcement purposes, dealers report certain data after trade date. These data are, of course, not available to the Board in time to be included in the T+1 daily reports. The post-trade date data also include "corrections" to trades that were initially reported inaccurately with regard to price, par, etc. All together, corrected and late trades in frequently traded issues amount to about six percent of the number of trades in the current T+1 daily reports.

d. Description of Proposed Service

The proposed Service would make the Comprehensive Transaction Report available once a month to subscribers. The Board would send subscribers each month a compact disk containing all trades effected during the previous calendar month. The Board plans to make sample disks with a single month's data available to prospective users without charge, so that they may determine whether they wish to subscribe.

The Board is establishing a fee for an annual subscription to the Service of \$2,000. The proposed fee is structured approximately to defray the Board's cost for production of 12 monthly data sets, transcription to compact disks, mailing, and subscription maintenance.

2. Statutory Basis

The Board believes the proposed rule change is consistent with the requirements of Section 15B(b)(2)(C) of the Act,⁸ which provides that the Board's rules shall be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in municipal securities, to remove impediments to and perfect the mechanism of a free and open market in municipal securities, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Board does not believe that the proposed rule change will impose any burden on competition because it applies equally to all dealers in municipal securities.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Board did not solicit nor receive written comments.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the MSRB consents, the Commission will:

⁸ 15 U.S.C. 78o-4(b)(2)(C).

- (A) by order approve such proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing will also be available for inspection and copying at the Board's principal offices. All submissions should refer to File No. SR-MSRB-00-08 and should be submitted by August 17, 2000.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁹

Jonathan G. Katz,
Secretary.

SUPPLEMENTARY INFORMATION:

A. General

The Computer Matching and Privacy Protection Act of 1988 (Public Law (Pub. L.) 100-503), amended the Privacy Act (5 U.S.C. 552a) by describing the manner in which computer matching involving Federal agencies could be performed and adding certain protections for individuals applying for and receiving Federal benefits. Section 7201 of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508) further amended the Privacy Act regarding protections for such individuals. The Privacy Act, as amended, regulates the use of computer matching by Federal agencies when records in a system of records are matched with other Federal, State, or local government records.

It requires agencies involved in computer matching programs to:

(1) Negotiate written agreements with the other agency or agencies participating in the matching programs;

(2) Obtain the Date Integrity Boards' approval of the match agreements;
