

Public participation will be solicited by notifying affected interests through personal contacts and by mail. This project has been listed in the Uinta National Forests "Schedule of Proposed Actions" (*i.e.* NEPA Quarterly). News releases will also be utilized to give the public general notice. Comments concerning the Proposed Action and EIS should address environmental issues to be considered, feasible alternatives to examine, possible mitigation, and information relevant to or bearing on the Proposed Action.

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage, but are not raised until after completion of the final environmental impact statement, may be viewed or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in the proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can be meaningfully considered and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environment impact statement or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.
