Virginia: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed Rule.

SUMMARY: Virginia has applied to EPA for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to Virginia. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we get written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

DATES: Send your written comments by August 30, 2000.

MDS and ITFS Two-Way Transmissions

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Previously, the Commission adopted a series of legal and technical rule changes to enhance the ability of Multipoint Distribution Service ("MDS") and Instructional Television Fixed Service ("ITFS") licensees to provide non-video services, including transmission of high speed computer data applications such as Internet access. We later expanded the streamlined application processing system to cover all major modifications of ITFS facilities, modified certain rules related to interference issues, modified certain other rules related to the obligations of ITFS licensees and clarified certain other rules. The FCC is taking two actions. The first action, a rule, which is published elsewhere in this issue of the **Federal Register**, modifies rules related to ITFS leases, modifies some technical rules and clarifies other rules. The second action, which is described in detail below, is the proposed rulemaking. The proposed rulemaking is limited to addressing the issue of possible Gaussian noise interference that can occur in certain limited circumstances.
