

Public participation has been an integral part of the planning process with the CSESA Draft Management Plan/Environmental Impact Statement and continues with this scoping process for the supplemental draft management plan (40 CFR 1501.7 and 43 CFR 1610.2), which defines:

1. Defining the scope of the analysis and nature of the decision to be made.
2. Identifying the issues and determining the significant issues for consideration and analysis within the environmental impact statement.
3. Defining the proper skills required for the interdisciplinary team.
4. Exploring possible alternatives.
5. Identifying potential environmental effects.
6. Determining potential cooperating agencies.
7. Identifying groups or individuals interested or affected by the decision.

Public participation will be solicited by mail to known interested and/or affected members of the public and key contacts. In addition, news releases will be used to give the public general notice. Comments from interested persons and organizations will be used in preparation of the supplemental draft environmental impact statement.

Local and regional groups differ over future management of the Cascade-Siskiyou National Monument. The presidential proclamation provided specific directions on minerals, commercial timber harvest, and off-road vehicle use in order to protect the objects for which the monument was designated. In addition, the proclamation directed the Secretary of the Interior to study the impacts of livestock grazing on the objects of biological interest in the monument in order to determine the compatibility of livestock grazing in protecting those objects. The formal designation also expanded the planning boundary and has the potential to have some off-site effects which were not addressed in the CSEEA Draft Management Plan/Environmental Impact Statement.

The completed management plan will provide direction for management of public lands within the Cascade-Siskiyou National Monument. Several management alternatives were identified and analyzed in the CSEEA Draft Management Plan/Environmental Impact Statement and, as a result of the monument designation, additional alternatives may be proposed. These alternatives will be developed based on internal staff discussions, public comments, and meeting with government agencies.

The BLM is seeking information, comments and assistance from federal,

state, and local agencies and other individuals or organization interested in or affected by management plan.

The analysis will be completed by an interdisciplinary team. Disciplines to be represented on the team include, but are not limited to, archaeology, anthropology, botany, fire management, fisheries, forestry, geology, hydrology, realty, recreation, rangeland management, wilderness, and soils. COMMENTS: Comments should be sent to Richard J. Dreihobl, Ashland Field Manager/Interim Monument Manager, Medford District Bureau of Land Management, 3040 Biddle Road, Medford, Oregon 97504.

FOR FURTHER INFORMATION CONTACT: Tom Sensenig (541) 618-2319 or Bill Yocum (541) 618-2384. Fax can be sent to Tom Sensenig or Bill Yocum at (541) 618-2400 and e-mails to <110mb@or.blm.gov>. Information concerning the analysis will be available at the BLM office in Medford at the address shown above.

Pursuant to 7 CFR Part 1, subpart B, Section 1.27, all written submissions in response to this notice, the published scoping newsletter, draft, supplemental, and final environmental impact statements will be made available for public inspection including the submitter's name and address, unless the submitter specifically requests confidentiality. Anonymous comments will not be accepted. All written submissions from business entities and organizations, submitted on official letterheads, will be made available for public inspection in their entirety.

Dated: July 25, 2000.

Richard J. Dreihobl,

Ashland Field Manager/Interim Monument Manager, Cascade-Siskiyou National Monument.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA-010-1220-00]

Meeting of the Central California Resource Advisory Council

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Meeting of the Central California Resource Advisory Council.

SUMMARY: Pursuant to the authorities in the Federal Advisory Committee Act (public law 92-463) and the Federal Land Policy and Management Act of 1976 (sec. 309), the Bureau of Land

Management Resource Advisory Council for Central California will meet in Bishop.

DATES: Friday and Saturday, August 11-12, 2000.

ADDRESSES: Patio Room, Tri-County Fairgrounds, Sierra Street and Fair Drive, Bishop, California.

SUPPLEMENTARY INFORMATION: The 12 member Central California Resource Advisory Council is appointed by the Secretary of the Interior to advise the Bureau of Land Management on public land issues. On Friday, the Council will hear reports on the General Accounting Office investigation of the BLM. Land exchange program and local grazing issues in the Bishop area. Saturday's session will be taken up with a discussion of off-highway vehicle issues, with a presentation of a national OHV strategy by the BLM. There will be a public comment period at 10:45 a.m. Saturday on OHV issues only. There will be other opportunities on both Friday and Saturday for public comments on any public land issue. Written comments will also be accepted, either at the meeting or at the address below.

FOR FURTHER INFORMATION CONTACT: Larry Mercer, Public Affairs Officer, Bureau of Land Management, 3801 Pegasus Drive, Bakersfield, CA 93308, telephone 661-391-6010.

Dated: July 14, 2000.

Ron Fellows,

Field Manager.

Conveyance of Mineral Interests in California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of segregation.

SUMMARY: The private land described in this notice, aggregating 640.00 acres, is segregated and made unavailable for filings under the general mining laws and the mineral leasing laws to determine its suitability for conveyance of the reserved mineral interest pursuant to section 209 of the Federal Land Policy and Management Act of October 21, 1976.

The mineral interests will be conveyed in whole or in part upon favorable mineral examination.

The purpose is to allow consolidation of surface and subsurface of minerals ownership where there are no known mineral values or in those instances where the reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development.

FOR FURTHER INFORMATION CONTACT:

Kathy Gary, California State Office, Federal Office Building, 2800 Cottage Way, Room W-1928, Sacramento, California 95825, (916) 978-4677.

Serial No. CACA 41781.

T. 4 S., R. 17 E., Mount Diablo Meridian

Sec. 26, S $\frac{1}{2}$ SE $\frac{1}{4}$,
Sec. 35, W $\frac{1}{2}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$.
County-Mariposa.

Minerals Reservation—All coal and other minerals.

Upon publication of this Notice of Segregation in the **Federal Register** as provided in 43 CFR 2720.1-1(b), the mineral interests owned by the United States in the private lands covered by the application shall be segregated to the extent that they will not be subject to appropriation under the mining and mineral leasing laws. The segregative effect of the application shall terminate by publication of an opening order in the **Federal Register** specifying the date and time of opening; upon issuance of a patent or other document of conveyance to such mineral interest; or two years from the date of publication of this notice, whichever occurs first.

David McInay,

Chief, Lands Section.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of new information collection survey.

SUMMARY: To comply with the requirements of the Paperwork Reduction Act of 1995 (PRA), we are inviting comments on an information collection request (ICR) to conduct a new survey on "Gulf of Mexico Labor Needs." We are preparing an ICR, which we will submit to the Office of Management and Budget (OMB) for review and approval.

DATES: Submit written comments by September 29, 2000.

ADDRESSES: Mail or hand carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the rulemaking record, which we will honor to the extent allowable by law. There may be circumstances in which we would withhold from the record a respondent's identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT:

Alexis London, Rules Processing Team, telephone (703) 787-1600 for questions on the PRA information collection process or to obtain a copy of the survey. For information on the survey itself, contact Harry Luton in the Gulf of Mexico Regional Office, telephone (504) 736-2784.

SUPPLEMENTARY INFORMATION:

Title: Survey—Gulf of Mexico Labor Needs.

OMB Control Number: 1010-NEW.

Abstract: MMS is responsible for managing mineral resources on the Federal outer continental shelf (OCS). The National Environmental Policy Act (NEPA) of 1969, the Outer Continental Shelf Lands Act (OCSLA), as amended, the Coastal Zone Management Act (CZMA) of 1996, and the Endangered Species Act of 1973, require MMS to assess, mitigate, and monitor the effects of the OCS program on the environment.

The OCS oil and natural gas exploration and production industry impacts local and regional economies through many activities, including the demand for labor, the demand for services, and the demand for capital goods. Though thought to be in decline a decade ago, several mid-1990's changes have reinvigorated the industry. These include technical innovations such as three- and four-dimensional seismic surveys and subsurface completion systems that allow companies to operate in very deep
