SUPPLEMENTARY INFORMATION: National Power Cooperative, a wholly owned subsidiary of the Ohio Rural Electric Cooperatives, proposes to construct the natural gas fired electric generation plant at one of two potential sites. One site is located in Van Wert County near Convoy, just southwest of the intersection of Mentzer Road and Shaner Road. The other site is located in Allen County, east of Cairo, north of the Lincoln Highway between Stewart Road and Slabtown Road.

The proposed project will be composed of three gas fired turbine generation units with an output of 170 megawatts each. The entire plant will require approximately 30 acres. No major natural gas pipeline or electric transmission line improvements will be needed at either site beyond the proposed site boundaries.

National Power Cooperative prepared an environmental analysis for RUS which describes the project and assesses its environmental impacts. RUS has conducted an independent evaluation of the environmental analysis and believes that it accurately assesses the impacts of the proposed project.
