

Required Determinations

This rule does not contain any new collections of information other than those already approved under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and assigned Office of Management and Budget clearance number 1018-0094. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. For additional information concerning permit and associated requirements for endangered species, see 50 CFR 17.32.

Regulation Promulgation

Accordingly, we amend part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations, as follows:

PART 17—[AMENDED]

1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361-1407; 16 U.S.C. 1531-1544; 16 U.S.C. 4201-4245; Pub. L. 99-625, 100 Stat. 3500, unless otherwise noted.

2. In § 17.11(h), the table entry for “Albatross, short-tailed”, under BIRDS, is revised to read as follows:

§ 17.11 Endangered and threatened wildlife.

50 CFR Part 635

[I.D. 072100C]

Atlantic Highly Migratory Species Fisheries; Atlantic Bluefin Tuna

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Adjustment of General category daily retention limit on previously designated restricted fishing days.

SUMMARY: NMFS has determined that the Atlantic bluefin tuna (BFT) General category restricted-fishing day (RFD) schedule should be adjusted; i.e., certain RFDs should be waived, to allow for maximum utilization of the General category June-August subquota. Therefore, NMFS increases the daily retention limit from zero to one large medium or giant BFT on the following, previously designated RFDs for 2000: July 30 and 31, and August 6, 7, 13, 14, 20, 21, 27, and 28.

DATES: Effective July 26, 2000.
FOR FURTHER INFORMATION CONTACT: Pat Scida or Brad McHale, 978-281-9260.

SUPPLEMENTARY INFORMATION: Regulations implemented under the authority of the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*) and the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) governing the harvest of BFT by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 635. General category effort

controls (including time-period subquotas and RFDs) are specified annually under §§ 635.23(a) and 635.27(a). The 2000 General category effort controls were implemented July 7, 2000 (65 FR 42883, July 12, 2000).

Adjustment of Daily Retention Limit for Selected Dates

Under § 635.23 (a)(4), NMFS may increase or decrease the daily retention limit of large medium and giant BFT over a range from zero (on RFDs) to a maximum of three per vessel to allow for maximum utilization of the quota for BFT. Based on a review of dealer reports, daily landing trends, and the availability of BFT on the fishing grounds, NMFS has determined that adjustment to the RFD schedule is necessary to allow for full use of the subquota while ensuring an August fishery. Therefore, NMFS adjusts the daily retention limit for July 30 and 31, and August 6, 7, 13, 14, 20, 21, 27, and 28, 2000, previously identified as RFDs

to one large medium or giant BFT per vessel. NMFS has selected these days in order to give adequate advanced notice to fishery participants and NMFS enforcement.

The intent of this adjustment is to allow for maximum utilization of the June-August subquota (specified under § 635.27(a)) by General category participants in order to help achieve optimum yield in the General category fishery, to collect a broad range of data for stock monitoring purposes, and to be consistent with the objectives of the HMS FMP.

While catch rates have been low so far this season, NMFS recognizes that they may increase. In addition, due to the temporal and geographical nature of the fishery, certain gear types and areas are more productive at various times during the fishery. In order to ensure that the June-August subquota is not filled prematurely and to ensure equitable fishing opportunities in all areas and for all gear types, NMFS has not waived all of the RFDs in August. The remaining previously scheduled RFDs (which have not been waived) correspond to market closures in Japan and may promote better ex-vessel prices.

Classification

This action is taken under § 635.23(a)(4) and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 971 *et seq.* and 1801 *et seq.*

Dated: July 26, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 000119014-0137-02; I.D. 072400E]

Fisheries of the Northeastern United States; Summer Flounder Fishery; Commercial Quota Harvested for Connecticut

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Commercial quota harvest.

SUMMARY: NMFS announces that the summer flounder commercial quota available to the State of Connecticut has

been harvested. Vessels issued a commercial Federal fisheries permit for the summer flounder fishery may not land summer flounder in Connecticut for the remainder of calendar year 2000, unless additional quota becomes available through a transfer. Regulations governing the summer flounder fishery require publication of this notification to advise the State of Connecticut that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial quota is available for landing summer flounder in Connecticut.

DATES: Effective 0001 hours, July 31, 2000, through 2400 hours, December 31, 2000.

FOR FURTHER INFORMATION CONTACT: Paul H. Jones, Fishery Policy Analyst, (978) 281-9273.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned on a percentage basis among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.100.

The initial total commercial quota for summer flounder for the 2000 calendar year was set equal to 11,109,214 lb (5,039,055 kg) (65 FR 33486, May 24, 2000). The percent allocated to vessels landing summer flounder in Connecticut is 2.25708 percent, or 250,788 lb (113,756 kg).

Section 648.101(b) requires the Administrator, Northeast Region, NMFS (Regional Administrator) to monitor state commercial quotas and to determine when a state's commercial quota is harvested. The Regional Administrator is further required to publish a notification in the **Federal Register** advising a state and notifying Federal vessel and dealer permit holders that, effective upon a specific date, the state's commercial quota has been harvested and no commercial quota is available for landing summer flounder in that state. The Regional Administrator has determined, based upon dealer reports and other available information, that the State of Connecticut has attained its quota for 2000.

The regulations at § 648.4(b) provide that Federal permit holders agree as a condition of the permit not to land summer flounder in any state that the Regional Administrator has determined no longer has commercial quota available. Therefore, effective 0001 hours, July 31, 2000, further landings of

summer flounder in Connecticut by vessels holding summer flounder commercial Federal fisheries permits are prohibited for the remainder of the 2000 calendar year, unless additional quota becomes available through a transfer and is announced in the **Federal Register**. Effective 0001 hours, July 31, 2000, federally permitted dealers are also advised that they may not purchase summer flounder from federally permitted vessels that land in Connecticut for the remainder of the calendar year, or until additional quota becomes available through a transfer.

Classification

This action is required by 50 CFR part 648 and is exempt from review under E.O. 12866.

Fisheries of the Exclusive Economic Zone Off Alaska; Pelagic Shelf Rockfish in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pelagic shelf rockfish in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2000 total allowable catch (TAC) of pelagic shelf rockfish in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), July 26, 2000, through 2400 hrs, A.l.t., December 31, 2000.

FOR FURTHER INFORMATION CONTACT: Thomas Pearson, 907-481-1780, fax 907-481-1781 or tom.pearson@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the
