

(11) Include data considered pertinent and indicate expected date for placement of contract. If less than full and open competition is involved, indicate the authority being used, identify the firm(s) to which the procurement is being limited, and indicate the current status of the justification document. Include the names and telephone numbers of the cognizant installation procurement person and technical representative. Indicate if the procurement will result in a bundled contract as defined in FAR 2.101.

[Docket No. 000119014–0137–02; I.D. 072600E]

Fisheries of the Northeastern United States; Scup Fishery; Commercial Quota Harvested for Summer Period

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Commercial quota harvested for summer period.

SUMMARY: NMFS announces that the scup commercial quota available in the summer period to the coastal states from Maine to North Carolina has been harvested. Federally-permitted commercial vessels may not land scup in these states for the remainder of the 2000 summer quota period (through October 31, 2000). Regulations governing the scup fishery require publication of this notification to advise the coastal states from Maine through North Carolina that the quota has been harvested and to advise Federal vessel permit holders and Federal dealer permit holders that no commercial quota is available for landing for the remainder of the summer period.

DATES: Effective 0001 hours, August 1, 2000 through 2400 hours, October 31, 2000.

FOR FURTHER INFORMATION CONTACT: Paul H. Jones, Fishery Policy Analyst, (978) 281–9273.

SUPPLEMENTARY INFORMATION:

Regulations governing the scup fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is allocated into three quota periods. The summer commercial quota (May through October) is distributed to the coastal states from Maine through North

Carolina on a coastwide basis. The process to set the annual commercial quota and the seasonal allocation is described in § 648.120.

The total commercial quota for scup for the 2000 calendar year was set at 2,534,160 lb (1,149,476 kg) (65 FR 33486; May 24, 2000). The summer period quota was initially set at 987,055 lb (447,721 kg). As specified in § 648.120, landings in excess of the commercial quota in the 1999 summer period were deducted from the summer period allocation this year, resulting in a final summer quota allocation of 685,628 lb (310,996 kg).

Section 648.121 requires the Administrator, Northeast Region, NMFS (Regional Administrator) to monitor the commercial scup quota for each quota period and, based upon dealer reports, state data, and other available information, to determine when the commercial quota for a period has been harvested. NMFS is required to publish notification in the **Federal Register** advising that, effective upon a specific date, the scup commercial quota has been harvested, and notifying vessel and dealer permit holders that no commercial quota is available for landing scup for the remainder of the period. The Regional Administrator has determined, based upon dealer reports and other available information, that the scup commercial quota for the 2000 summer period has been harvested and no further quota is available through October 31, 2000.

The regulations at § 648.4(b) provide that Federal scup moratorium permit holders agree as a condition of the permit not to land scup in any state after NMFS has published a notification in the **Federal Register** stating that the commercial quota for the period has been harvested and that no commercial quota for scup is available. Therefore, effective 0001 hours, August 1, 2000, further landings of scup by vessels holding Federal scup moratorium permits are prohibited through October 31, 2000. The Winter II period for commercial scup harvest will open on November 1, 2000. Effective 0001 hours, August 1, 2000, federally-permitted dealers are also advised that they may not purchase scup from federally-permitted vessels that land in coastal states from Maine through North Carolina for the remainder of the summer period (through October 31, 2000).

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

[Docket No. 000426114–0114–01; I.D. 072600D]

Fisheries of the Northeastern United States; Spiny Dogfish Fishery; Commercial Quota Harvested for Period 1

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Commercial quota harvest for period 1.

SUMMARY: NMFS announces that the spiny dogfish commercial quota available in period 1 to the coastal states from Maine through Florida has been harvested. Commercial vessels may not land spiny dogfish from Maine through Florida for the remainder of the 2000 quota period 1 (through October 31, 2000). Regulations governing the spiny dogfish fishery require publication of this notification to advise the coastal states from Maine through Florida that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial quota is available for landing spiny dogfish in these states.

DATES: Effective August 1, 2000, 0001 hrs, local time, through October 31, 2000, 2400 hrs, local time.

FOR FURTHER INFORMATION CONTACT: Jennifer L. Anderson, Fishery Management Specialist, at (978) 281–9226.

SUPPLEMENTARY INFORMATION: Regulations governing the spiny dogfish fishery are found at 50 CFR part 648. The regulations require annual

specification of a commercial quota that is allocated into two quota periods based upon percentages of the annual quota. The period 1 commercial quota (May through October) is distributed to the coastal states from Maine through Florida. The process to set the annual commercial quota is described in § 648.230.

The initial total commercial quota for spiny dogfish for the 2000 calendar year was set equal to 4,000,000 lb (1,814 mt) (65 FR 25887, May 4, 2000). The period 1 quota, which is equal to 57.9 percent of the annual commercial quota, was set at 2,316,000 lb (1,050 mt).

Section 648.231 requires the Regional Administrator Northeast Region, NMFS (Regional Administrator) to monitor the commercial spiny dogfish quota for each quota period and, based upon dealer reports, state data and other available information, to determine when the commercial quota has been harvested. NMFS is required to publish a notice in the **Federal Register** advising and notifying commercial vessels and dealer

permit holders that, effective upon a specific date, the spiny dogfish commercial quota has been harvested and no commercial quota is available for landing spiny dogfish for the remainder of period 1. The Regional Administrator has determined, based upon dealer reports and other available information, that the spiny dogfish commercial quota for the 2000 period 1 has been harvested.

The regulations at § 648.4(b) provide that Federal spiny dogfish permit holders agree as a condition of the permit not to land spiny dogfish in any state after NMFS has published a notification in the **Federal Register** stating that the commercial quota for the period has been harvested and that no commercial quota for the spiny dogfish fishery is available. The Regional Administrator has determined that period 1 for spiny dogfish no longer has commercial quota available. Therefore, effective 0001 hrs local time, August 1, 2000, further landings of spiny dogfish in coastal states from Maine through

Florida by vessels holding commercial Federal fisheries permits are prohibited through October 31, 2000, 2400 hrs local time. The quota for period 2 for commercial spiny dogfish harvest will open on November 1, 2000. Effective August 1, 2000, federally permitted dealers are also advised that they may not purchase spiny dogfish from federally permitted spiny dogfish permit holders that land in coastal states from Maine through Florida for the remainder of period 1 (through October 31, 2000).
