[IN100-1b, IN120-1b; FRL-6728-1]

Approval and Promulgation of Implementation Plans; Indiana**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing to approve revisions to total suspended particulate (TSP) and sulfur dioxide (SO₂) emissions regulations for National Starch and Chemical Company (National Starch), and TSP regulations for Allison Transmission (Allison). Both of these facilities are located in Marion County, Indiana. The Indiana Department of Environmental Management (IDEM) submitted the revised regulations on February 3, 1999, August 30, 1999, and May 17, 2000, as amendments to its State Implementation Plan (SIP). The revisions include the relaxation of some limits, the tightening of one limit, and the elimination of limits for several sources which are no longer operating. The revisions also include the combination of annual emissions limits for several boilers, and recordkeeping requirements. These SIP revisions result in an overall decrease in allowed TSP emissions of about 406 tons per year for National Starch, and no change in overall annual emissions for Allison. Air quality modeling analyses conducted by IDEM show that the maximum daily and annual impacts of these SIP revisions are below established significance levels. Therefore, these SIP revisions will not have an adverse effect on air quality.

Approval and Promulgation of Air Quality Implementation Plans; West Virginia; Revision to the State Implementation Plan (SIP) Addressing Sulfur Dioxide in Marshall County**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of West Virginia for the purpose of establishing federally enforceable sulfur dioxide emission limits at three facilities in Marshall County. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a

noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by September 1, 2000.**ADDRESSES:** Written comments should be addressed to Ms. Makeba Morris, Chief, Technical Assessment Branch, Mailcode 3AP22, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.
