

given an opportunity to complete a follow-up form at an appropriate interval after the session. This follow-up will again assess satisfaction with the training or technical assistance and will also ask two questions concerning the impact of the information in terms of sharing it with other appropriate professionals and using it in its appropriate manner. All qualifying training and technical assistance will

target the complete attending population for the event survey. For technical assistance that includes grantee meetings only the follow-up survey will be distributed. For large events the follow-up survey may be administered to a sample of participants. For information products, requested information will include a feedback card to be returned once the product has been received and

examined. For information products routinely sent to a subscription list, a sample will be drawn and a feedback form distributed to that sample. The list approach will be used on major information products only.

Annual burden estimates are contained in the following table. Numbers are approximate and represent maximums.
